ANNEX W,
MODIFIED INTO A POSITIVE LIST OF THE
APPLICABLE WTO PROVISIONS

(Transparency Document)
ANNEX W
RULES GOVERNING THE APPLICATION OF THE PROVISIONS OF THE WTO AGREEMENT

(In accordance with Art. 29(2)(A))

(A) Provisions of the WTO Agreement applicable to the ECT under Article 29(2)(a)

The following provisions of the WTO Agreement shall be applicable under Article 29(2)(a):

1. Marrakesh Agreement Establishing the World Trade Organization

Article IX

Decision-Making

3. In exceptional circumstances, the Ministerial Conference may decide to waive an obligation imposed on a Member by this Agreement or any of the Multilateral Trade Agreements, provided that any such decision shall be taken by three fourths 1 of the Members unless otherwise provided for in this paragraph.

(a) A request for a waiver concerning this Agreement shall be submitted to the Ministerial Conference for consideration pursuant to the practice of decision-making by consensus. The Ministerial Conference shall establish a time-period, which shall not exceed 90 days, to consider the request. If consensus is not reached during the time-period, any decision to grant a waiver shall be taken by three fourths 2 of the Members.

(b) A request for a waiver concerning the Multilateral Trade Agreements in Annexes 1A or 1B or 1C and their annexes shall be submitted initially to the Council for Trade in Goods, the Council for Trade in Services or the Council for TRIPS, respectively, for consideration during a time-period which shall not exceed 90 days. At the end of the time-period, the relevant Council shall submit a report to the Ministerial Conference.

4. A decision by the Ministerial Conference granting a waiver shall state the exceptional circumstances justifying the decision, the terms and conditions governing the application of the waiver, and the date on which the waiver shall terminate. Any waiver granted for a period of more than one year shall be reviewed by the Ministerial Conference not later than one year after it is granted, and thereafter annually until the waiver terminates. In each review, the Ministerial Conference shall examine whether the exceptional circumstances justifying the waiver still exist and whether the terms and conditions attached to the waiver have been met. The Ministerial Conference, on the basis of the annual review, may extend, modify or terminate the waiver.

---

1 A decision to grant a waiver in respect of any obligation subject to a transition period or a period for staged implementation that the requesting Member has not performed by the end of the relevant period shall be taken only by consensus.

2 Idem.
Article XVI

Miscellaneous Provisions

1. Except as otherwise provided under this Agreement or the Multilateral Trade Agreements, the WTO shall be guided by the decisions, procedures and customary practices followed by the CONTRACTING PARTIES to GATT 1947 and the bodies established in the framework of GATT 1947.

3. In the event of a conflict between a provision of this Agreement and a provision of any of the Multilateral Trade Agreements, the provision of this Agreement shall prevail to the extent of the conflict.

4. Each Member shall ensure the conformity of its laws, regulations and administrative procedures with its obligations as provided in the annexed Agreements.

(a) Annex 1A to the WTO Agreement:
Multilateral Agreements on Trade in Goods:

(i) General Agreement on Tariffs and Trade 1994

1. The General Agreement on Tariffs and Trade 1994 ("GATT 1994") shall consist of:

   (a) the provisions in the General Agreement on Tariffs and Trade, dated 30 October 1947, annexed to the Final Act Adopted at the Conclusion of the Second Session of the Preparatory Committee of the United Nations Conference on Trade and Employment (excluding the Protocol of Provisional Application), as rectified, amended or modified by the terms of legal instruments which have entered into force before the date of entry into force of the WTO Agreement;

   (b) the provisions of the legal instruments set forth below that have entered into force under the GATT 1947 before the date of entry into force of the WTO Agreement:

      (i) protocols and certifications relating to tariff concessions;

      (ii) protocols of accession (excluding the provisions (a) concerning provisional application and withdrawal of provisional application and (b) providing that Part II of GATT 1947 shall be applied provisionally to the fullest extent not inconsistent with legislation existing on the date of the Protocol);

      (iii) decisions on waivers granted under Article XXV of GATT 1947 and still in force on the date of entry into force of the WTO Agreement;

3 The waivers covered by this provision are listed in footnote 7 on pages 11 and 12 in Part II of document MTN/FA of 15 December 1993 and in MTN/FA/Corr.6 of 21 March 1994. The Ministerial Conference shall establish at its first session a revised list of waivers covered by this provision that adds any waivers granted under GATT 1947 after 15
other decisions of the CONTRACTING PARTIES to GATT 1947;

(c) the Understandings set forth below:

(i) Understanding on the Interpretation of Article II:1(b) of the General Agreement on Tariffs and Trade 1994;

(ii) Understanding on the Interpretation of Article XVII of the General Agreement on Tariffs and Trade 1994;

(iv) Understanding on the Interpretation of Article XXIV of the General Agreement on Tariffs and Trade 1994;

(v) Understanding in Respect of Waivers of Obligations under the General Agreement on Tariffs and Trade 1994;

2. Explanatory Notes

(a) The references to "contracting party" in the provisions of GATT 1994 shall be deemed to read "Member". The references to "less-developed contracting party" and "developed contracting party" shall be deemed to read "developing country Member" and "developed country Member". The references to "Executive Secretary" shall be deemed to read "Director-General of the WTO".

(b) The references to the CONTRACTING PARTIES acting jointly in Articles XV:1, XV:2, XV:8, XXXVIII and the Notes Ad Article XII and XVIII; and in the provisions on special exchange agreements in Articles XV:2, XV:3, XV:6, XV:7 and XV:9 of GATT 1994 shall be deemed to be references to the WTO. The other functions that the provisions of GATT 1994 assign to the CONTRACTING PARTIES acting jointly shall be allocated by the Ministerial Conference.

(c) (i) The text of GATT 1994 shall be authentic in English, French and Spanish.

(ii) The text of GATT 1994 in the French language shall be subject to the rectifications of terms indicated in Annex A to document MTN.TNC/41.

(iii) The authentic text of GATT 1994 in the Spanish language shall be the text in Volume IV of the Basic Instruments and Selected Documents series, subject to the rectifications of terms indicated in Annex B to document MTN.TNC/41.

3. (a) The provisions of Part II of GATT 1994 shall not apply to measures

December 1993 and before the date of entry into force of the WTO Agreement, and deletes the waivers which will have expired by that time.
taken by a Member under specific mandatory legislation, enacted by that Member before it became a contracting party to GATT 1947, that prohibits the use, sale or lease of foreign-built or foreign-reconstructed vessels in commercial applications between points in national waters or the waters of an exclusive economic zone. This exemption applies to: (a) the continuation or prompt renewal of a non-conforming provision of such legislation; and (b) the amendment to a non-conforming provision of such legislation to the extent that the amendment does not decrease the conformity of the provision with Part II of GATT 1947. This exemption is limited to measures taken under legislation described above that is notified and specified prior to the date of entry into force of the WTO Agreement. If such legislation is subsequently modified to decrease its conformity with Part II of GATT 1994, it will no longer qualify for coverage under this paragraph.

(b) The Ministerial Conference shall review this exemption not later than five years after the date of entry into force of the WTO Agreement and thereafter every two years for as long as the exemption is in force for the purpose of examining whether the conditions which created the need for the exemption still prevail.

(c) A Member whose measures are covered by this exemption shall annually submit a detailed statistical notification consisting of a five-year moving average of actual and expected deliveries of relevant vessels as well as additional information on the use, sale, lease or repair of relevant vessels covered by this exemption.

(d) A Member that considers that this exemption operates in such a manner as to justify a reciprocal and proportionate limitation on the use, sale, lease or repair of vessels constructed in the territory of the Member invoking the exemption shall be free to introduce such a limitation subject to prior notification to the Ministerial Conference.

(e) This exemption is without prejudice to solutions concerning specific aspects of the legislation covered by this exemption negotiated in sectoral agreements or in other fora.

(i) bis The General Agreement on Tariffs and Trade (GATT 1947)\(^4\)

\(^4\) Editor’s note: General Agreement on Tariffs and Trade 1994 consists of and must be read with GATT 1947.
Being desirous of contributing to these objectives by entering into reciprocal and mutually
advantageous arrangements directed to the substantial reduction of tariffs and other
barriers to trade and to the elimination of discriminatory treatment in international
commerce,

Have through their Representatives agreed as follows:

PART I

Article I

General Most-Favoured-Nation Treatment

1. With respect to customs duties and charges of any kind imposed on or in
connection with importation or exportation or imposed on the international transfer
of payments for imports or exports, and with respect to the method of levying such
duties and charges, and with respect to all rules and formalities in connection with
importation and exportation, and with respect to all matters referred to in
paragraphs 2 and 4 of Article III, any advantage, favour, privilege or immunity
granted by any contracting party to any product originating in or destined for any
other country shall be accorded immediately and unconditionally to the like product
originating in or destined for the territories of all other contracting parties.

[Ad Article I

Paragraph 1

The obligations incorporated in paragraph 1 of Article I by reference to
paragraphs 2 and 4 of Article III and those incorporated in paragraph 2 (b)
of Article II by reference to Article VI shall be considered as falling within
Part II for the purposes of the Protocol of Provisional Application.

The cross-references, in the paragraph immediately above and in
paragraph 1 of Article I, to paragraphs 2 and 4 of Article III shall only apply
after Article III has been modified by the entry into force of the amendment
provided for in the Protocol Modifying Part II and Article XXVI of the
General Agreement on Tariffs and Trade, dated September 14, 1948.5]

2. The provisions of paragraph 1 of this Article shall not require the
elimination of any preferences in respect of import duties or charges which do not
exceed the levels provided for in paragraph 4 of this Article and which fall within
the following descriptions:

(a) Preferences in force exclusively between two or more of the
territories listed in Annex A, subject to the conditions set forth therein;

(b) Preferences in force exclusively between two or more territories
which on July 1, 1939, were connected by common sovereignty or relations of
protection or suzerainty and which are listed in Annexes B, C and D, subject to the
conditions set forth therein;

(c) Preferences in force exclusively between the United States of
America and the Republic of Cuba;

5 This Protocol entered into force on 14 December 1948.
(d) Preferences in force exclusively between neighbouring countries listed in Annexes E and F.

3. The provisions of paragraph 1 shall not apply to preferences between the countries formerly a part of the Ottoman Empire and detached from it on July 24, 1923, provided such preferences are approved under paragraph 5\(^6\) of Article XXV which shall be applied in this respect in the light of paragraph 1 of Article XXIX.

4. The margin of preference on any product in respect of which a preference is permitted under paragraph 2 of this Article but is not specifically set forth as a maximum margin of preference in the appropriate Schedule annexed to this Agreement shall not exceed:

(a) in respect of duties or charges on any product described in such Schedule, the difference between the most-favoured-nation and preferential rates provided for therein; if no preferential rate is provided for, the preferential rate shall for the purposes of this paragraph be taken to be that in force on April 10, 1947, and, if no most-favoured-nation rate is provided for, the margin shall not exceed the difference between the most-favoured-nation and preferential rates existing on April 10, 1947;

(b) in respect of duties or charges on any product not described in the appropriate Schedule, the difference between the most-favoured-nation and preferential rates existing on April 10, 1947.

In the case of the contracting parties named in Annex G, the date of April 10, 1947, referred to in subparagraph (a) and (b) of this paragraph shall be replaced by the respective dates set forth in that Annex.

[Paragraph 4

The term "margin of preference" means the absolute difference between the most-favoured-nation rate of duty and the preferential rate of duty for the like product, and not the proportionate relation between those rates. As examples:

(1) If the most-favoured-nation rate were 36 per cent ad valorem and the preferential rate were 24 per cent ad valorem, the margin of preference would be 12 per cent ad valorem, and not one-third of the most-favoured-nation rate;

(2) If the most-favoured-nation rate were 36 per cent ad valorem and the preferential rate were expressed as two-thirds of the most-favoured-nation rate, the margin of preference would be 12 per cent ad valorem;

(3) If the most-favoured-nation rate were 2 francs per kilogramme and the preferential rate were 1.50 francs per kilogramme, the margin of preference would be 0.50 franc per kilogramme.

The following kinds of customs action, taken in accordance with established uniform procedures, would not be contrary to a general binding of margins of

---

\(^6\) The authentic text erroneously reads "subparagraph 5 (a)".
preference:

(i) The re-application to an imported product of a tariff classification or rate of duty, properly applicable to such product, in cases in which the application of such classification or rate to such product was temporarily suspended or inoperative on April 10, 1947; and

(ii) The classification of a particular product under a tariff item other than that under which importations of that product were classified on April 10, 1947, in cases in which the tariff law clearly contemplates that such product may be classified under more than one tariff item.

Article II

Schedules of Concessions

1. (b) … . Such products shall also be exempt from all other duties or charges of any kind imposed on or in connection with the importation in excess of those imposed on the date of this Agreement or those directly and mandatorily required to be imposed thereafter by legislation in force in the importing territory on that date.

[Understanding on the Interpretation of Article II:1(b) of the General Agreement on Tariffs and Trade 1994

Members hereby agree as follows:

1. In order to ensure transparency of the legal rights and obligations deriving from paragraph 1(b) of Article II, the nature and level of any "other duties or charges" levied on bound tariff items, as referred to in that provision, shall be recorded in the Schedules of concessions annexed to GATT 1994 against the tariff item to which they apply. It is understood that such recording does not change the legal character of "other duties or charges".

3. "Other duties or charges" shall be recorded in respect of all tariff bindings.

4. … . It will be open to any Member to challenge the existence of an "other duty or charge", on the ground that no such "other duty or charge" existed at the time of the original binding of the item in question, as well as the consistency of the recorded level of any "other duty or charge" with the previously bound level, for a period of three years after the date of entry into force of the WTO Agreement or three years after the date of deposit with the Director-General of the WTO of the instrument incorporating the Schedule in question into GATT 1994, if that is a later date.

5. The recording of "other duties or charges" in the Schedules is without prejudice to their consistency with rights and obligations under GATT 1994 other than those affected by paragraph 4. All Members retain the right to challenge, at any time, the consistency of any "other duty or charge" with such obligations.
7. "Other duties or charges" omitted from a Schedule at the time of deposit of the instrument incorporating the Schedule in question into GATT 1994 with, until the date of entry into force of the WTO Agreement, the Director-General to the CONTRACTING PARTIES to GATT 1947 or, thereafter, with the Director-General of the WTO, shall not subsequently be added to it and any "other duty or charge" recorded at a level lower than that prevailing on the applicable date shall not be restored to that level unless such additions or changes are made within six months of the date of deposit of the instrument.

2. Nothing in this Article shall prevent any contracting party from imposing at any time on the importation of any product:

   (a) a charge equivalent to an internal tax imposed consistently with the provisions of paragraph 2 of Article III in respect of the like domestic product or in respect of an article from which the imported product has been manufactured or produced in whole or in part;

   [Ad Article II

   Paragraph 2 (a)]

   The cross-reference, in paragraph 2 (a) of Article II, to paragraph 2 of Article III shall only apply after Article III has been modified by the entry into force of the amendment provided for in the Protocol Modifying Part II and Article XXVI of the General Agreement on Tariffs and Trade, dated September 14, 1948.]

   (b) any anti-dumping or countervailing duty applied consistently with the provisions of Article VI;

   [Paragraph 2 (b)]

   See the note relating to paragraph 1 of Article I.

   (c) fees or other charges commensurate with the cost of services rendered.

3. No contracting party shall alter its method of determining dutiable value or of converting currencies so as to impair the value of any of the concessions provided for in the appropriate Schedule annexed to this Agreement.

4. If any contracting party establishes, maintains or authorizes, formally or in effect, a monopoly of the importation of any product described in the appropriate Schedule annexed to this Agreement, such monopoly shall not, except as provided for in that Schedule or as otherwise agreed between the parties which initially negotiated the concession, operate so as to afford protection on the average in excess of the amount of protection provided for in that Schedule. The provisions of this paragraph shall not limit the use by contracting parties of any form of assistance to domestic producers permitted by other provisions of this Agreement.

7 This Protocol entered into force on 14 December 1948.
Except where otherwise specifically agreed between the contracting parties which initially negotiated the concession, the provisions of this paragraph will be applied in the light of the provisions of Article 31 of the Havana Charter.

5. If any contracting party considers that a product is not receiving from another contracting party the treatment which the first contracting party believes to have been contemplated by a concession provided for in the appropriate Schedule annexed to this Agreement, it shall bring the matter directly to the attention of the other contracting party. If the latter agrees that the treatment contemplated was that claimed by the first contracting party, but declares that such treatment cannot be accorded because a court or other proper authority has ruled to the effect that the product involved cannot be classified under the tariff laws of such contracting party so as to permit the treatment contemplated in this Agreement, the two contracting parties, together with any other contracting parties substantially interested, shall enter promptly into further negotiations with a view to a compensatory adjustment of the matter.

6. (a) The specific duties and charges included in the Schedules relating to contracting parties members of the International Monetary Fund, and margins of preference in specific duties and charges maintained by such contracting parties, are expressed in the appropriate currency at the par value accepted or provisionally recognized by the Fund at the date of this Agreement. Accordingly, in case this par value is reduced consistently with the Articles of Agreement of the International Monetary Fund by more than twenty per centum, such specific duties and charges and margins of preference may be adjusted to take account of such reduction; provided that the CONTRACTING PARTIES (i.e., the contracting parties acting jointly as provided for in Article XXV) concur that such adjustments will not impair the value of the concessions provided for in the appropriate Schedule or elsewhere in this Agreement, due account being taken of all factors which may influence the need for, or urgency of, such adjustments.

(b) Similar provisions shall apply to any contracting party not a member of the Fund, as from the date on which such contracting party becomes a member of the Fund or enters into a special exchange agreement in pursuance of Article XV.

PART II

Article III

National Treatment on Internal Taxation and Regulation

Any internal tax or other internal charge, or any law, regulation or requirement of the kind referred to in paragraph 1 which applies to an imported product and to the like domestic product and is collected or enforced in the case of the imported product at the time or point of importation, is nevertheless to be regarded as an internal tax or other internal charge, or a law, regulation or requirement of the kind referred to in paragraph 1, and is accordingly subject to the provisions of Article III.]
1. The contracting parties recognize that internal taxes and other internal charges, and laws, regulations and requirements affecting the internal sale, offering for sale, purchase, transportation, distribution or use of products, and internal quantitative regulations requiring the mixture, processing or use of products in specified amounts or proportions, should not be applied to imported or domestic products so as to afford protection to domestic production.

[Paragraph 1]

The application of paragraph 1 to internal taxes imposed by local governments and authorities with the territory of a contracting party is subject to the provisions of the final paragraph of Article XXIV. The term "reasonable measures" in the last-mentioned paragraph would not require, for example, the repeal of existing national legislation authorizing local governments to impose internal taxes which, although technically inconsistent with the letter of Article III, are not in fact inconsistent with its spirit, if such repeal would result in a serious financial hardship for the local governments or authorities concerned. With regard to taxation by local governments or authorities which is inconsistent with both the letter and spirit of Article III, the term "reasonable measures" would permit a contracting party to eliminate the inconsistent taxation gradually over a transition period, if abrupt action would create serious administrative and financial difficulties.

2. The products of the territory of any contracting party imported into the territory of any other contracting party shall not be subject, directly or indirectly, to internal taxes or other internal charges of any kind in excess of those applied, directly or indirectly, to like domestic products. Moreover, no contracting party shall otherwise apply internal taxes or other internal charges to imported or domestic products in a manner contrary to the principles set forth in paragraph 1.

[Paragraph 2]

A tax conforming to the requirements of the first sentence of paragraph 2 would be considered to be inconsistent with the provisions of the second sentence only in cases where competition was involved between, on the one hand, the taxed product and, on the other hand, a directly competitive or substitutable product which was not similarly taxed.

3. With respect to any existing internal tax which is inconsistent with the provisions of paragraph 2, but which is specifically authorized under a trade agreement, in force on April 10, 1947, in which the import duty on the taxed product is bound against increase, the contracting party imposing the tax shall be free to postpone the application of the provisions of paragraph 2 to such tax until such time as it can obtain release from the obligations of such trade agreement in order to permit the increase of such duty to the extent necessary to compensate for the elimination of the protective element of the tax.

4. The products of the territory of any contracting party imported into the territory of any other contracting party shall be accorded treatment no less favourable than that accorded to like products of national origin in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. The provisions of this paragraph shall not prevent the application of differential internal transportation charges which are
based exclusively on the economic operation of the means of transport and not on
the nationality of the product.

5. No contracting party shall establish or maintain any internal quantitative
regulation relating to the mixture, processing or use of products in specified
amounts or proportions which requires, directly or indirectly, that any specified
amount or proportion of any product which is the subject of the regulation must be
supplied from domestic sources. Moreover, no contracting party shall otherwise
apply internal quantitative regulations in a manner contrary to the principles set
forth in paragraph 1.

[Paragraph 5

Regulations consistent with the provisions of the first sentence of paragraph
5 shall not be considered to be contrary to the provisions of the second
sentence in any case in which all of the products subject to the regulations
are produced domestically in substantial quantities. A regulation cannot be
justified as being consistent with the provisions of the second sentence on the
ground that the proportion or amount allocated to each of the products which
are the subject of the regulation constitutes an equitable relationship between
imported and domestic products.]

6. The provisions of paragraph 5 shall not apply to any internal quantitative
regulation in force in the territory of any contracting party on July 1, 1939, April
10, 1947, or March 24, 1948, at the option of that contracting party; Provided that
any such regulation which is contrary to the provisions of paragraph 5 shall not be
modified to the detriment of imports and shall be treated as a customs duty for the
purpose of negotiation.

7. No internal quantitative regulation relating to the mixture, processing or use
of products in specified amounts or proportions shall be applied in such a manner as
to allocate any such amount or proportion among external sources of supply.

8. (a) The provisions of this Article shall not apply to laws, regulations or
requirements governing the procurement by governmental agencies of products
purchased for governmental purposes and not with a view to commercial resale or
with a view to use in the production of goods for commercial sale.

(b) The provisions of this Article shall not prevent the payment of
subsidies exclusively to domestic producers, including payments to domestic
producers derived from the proceeds of internal taxes or charges applied
consistently with the provisions of this Article and subsidies effected through
governmental purchases of domestic products.

9. The contracting parties recognize that internal maximum price control
measures, even though conforming to the other provisions of this Article, can have
effects prejudicial to the interests of contracting parties supplying imported
products. Accordingly, contracting parties applying such measures shall take
account of the interests of exporting contracting parties with a view to avoiding to
the fullest practicable extent such prejudicial effects.

10. The provisions of this Article shall not prevent any contracting party from
establishing or maintaining internal quantitative regulations relating to exposed
cinematograph films and meeting the requirements of Article IV.
Article V

Freedom of Transit

1. Goods (including baggage), and also vessels and other means of transport, shall be deemed to be in transit across the territory of a contracting party when the passage across such territory, with or without trans-shipment, warehousing, breaking bulk, or change in the mode of transport, is only a portion of a complete journey beginning and terminating beyond the frontier of the contracting party across whose territory the traffic passes. Traffic of this nature is termed in this article "traffic in transit".

2. There shall be freedom of transit through the territory of each contracting party, via the routes most convenient for international transit, for traffic in transit to or from the territory of other contracting parties. No distinction shall be made which is based on the flag of vessels, the place of origin, departure, entry, exit or destination, or on any circumstances relating to the ownership of goods, of vessels or of other means of transport.

3. Any contracting party may require that traffic in transit through its territory be entered at the proper custom house, but, except in cases of failure to comply with applicable customs laws and regulations, such traffic coming from or going to the territory of other contracting parties shall not be subject to any unnecessary delays or restrictions and shall be exempt from customs duties and from all transit duties or other charges imposed in respect of transit, except charges for transportation or those commensurate with administrative expenses entailed by transit or with the cost of services rendered.

4. All charges and regulations imposed by contracting parties on traffic in transit to or from the territories of other contracting parties shall be reasonable, having regard to the conditions of the traffic.

5. With respect to all charges, regulations and formalities in connection with transit, each contracting party shall accord to traffic in transit to or from the territory of any other contracting party treatment no less favourable than the treatment accorded to traffic in transit to or from any third country.

[Ad Article V

Paragraph 5

With regard to transportation charges, the principle laid down in paragraph 5 refers to like products being transported on the same route under like conditions.]

6. Each contracting party shall accord to products which have been in transit through the territory of any other contracting party treatment no less favourable than that which would have been accorded to such products had they been transported from their place of origin to their destination without going through the territory of such other contracting party. Any contracting party shall, however, be free to maintain its requirements of direct consignment existing on the date of this Agreement, in respect of any goods in regard to which such direct consignment is a requisite condition of eligibility for entry of the goods at preferential rates of duty.
or has relation to the contracting party's prescribed method of valuation for duty purposes.

7. The provisions of this Article shall not apply to the operation of aircraft in transit, but shall apply to air transit of goods (including baggage).

**Article VI**

*Anti-dumping and Countervailing Duties*

1. The contracting parties recognize that dumping, by which products of one country are introduced into the commerce of another country at less than the normal value of the products, is to be condemned if it causes or threatens material injury to an established industry in the territory of a contracting party or materially retards the establishment of a domestic industry. For the purposes of this Article, a product is to be considered as being introduced into the commerce of an importing country at less than its normal value, if the price of the product exported from one country to another

(a) is less than the comparable price, in the ordinary course of trade, for the like product when destined for consumption in the exporting country, or,

(b) in the absence of such domestic price, is less than either

(i) the highest comparable price for the like product for export to any third country in the ordinary course of trade, or

(ii) the cost of production of the product in the country of origin plus a reasonable addition for selling cost and profit.

Due allowance shall be made in each case for differences in conditions and terms of sale, for differences in taxation, and for other differences affecting price comparability.

*[Ad Article VI]*

**Paragraph 1**

1. Hidden dumping by associated houses (that is, the sale by an importer at a price below that corresponding to the price invoiced by an exporter with whom the importer is associated, and also below the price in the exporting country) constitutes a form of price dumping with respect to which the margin of dumping may be calculated on the basis of the price at which the goods are resold by the importer.

2. It is recognized that, in the case of imports from a country which has a complete or substantially complete monopoly of its trade and where all domestic prices are fixed by the State, special difficulties may exist in determining price comparability for the purposes of paragraph 1, and in such cases importing contracting parties may find it necessary to take into account the possibility that a strict comparison with domestic prices in such a country may not always be appropriate.

2. In order to offset or prevent dumping, a contracting party may levy on any dumped product an anti-dumping duty not greater in amount than the margin of
dumping in respect of such product. For the purposes of this Article, the margin of dumping is the price difference determined in accordance with the provisions of paragraph 1.

3. No countervailing duty shall be levied on any product of the territory of any contracting party imported into the territory of another contracting party in excess of an amount equal to the estimated bounty or subsidy determined to have been granted, directly or indirectly, on the manufacture, production or export of such product in the country of origin or exportation, including any special subsidy to the transportation of a particular product. The term "countervailing duty" shall be understood to mean a special duty levied for the purpose of offsetting any bounty or subsidy bestowed, directly, or indirectly, upon the manufacture, production or export of any merchandise.

[Paragraphs 2 and 3]

1. As in many other cases in customs administration, a contracting party may require reasonable security (bond or cash deposit) for the payment of anti-dumping or countervailing duty pending final determination of the facts in any case of suspected dumping or subsidization.

2. Multiple currency practices can in certain circumstances constitute a subsidy to exports which may be met by countervailing duties under paragraph 3 or can constitute a form of dumping by means of a partial depreciation of a country's currency which may be met by action under paragraph 2. By "multiple currency practices" is meant practices by governments or sanctioned by governments.

4. No product of the territory of any contracting party imported into the territory of any other contracting party shall be subject to anti-dumping or countervailing duty by reason of the exemption of such product from duties or taxes borne by the like product when destined for consumption in the country of origin or exportation, or by reason of the refund of such duties or taxes.

5. No product of the territory of any contracting party imported into the territory of any other contracting party shall be subject to both anti-dumping and countervailing duties to compensate for the same situation of dumping or export subsidization.

6. (a) No contracting party shall levy any anti-dumping or countervailing duty on the importation of any product of the territory of another contracting party unless it determines that the effect of the dumping or subsidization, as the case may be, is such as to cause or threaten material injury to an established domestic industry, or is such as to retard materially the establishment of a domestic industry.

(b) The CONTRACTING PARTIES may waive the requirement of subparagraph (a) of this paragraph so as to permit a contracting party to levy an anti-dumping or countervailing duty on the importation of any product for the purpose of offsetting dumping or subsidization which causes or threatens material injury to an industry in the territory of another contracting party exporting the product concerned to the territory of the importing contracting party. The CONTRACTING PARTIES shall waive the requirements of subparagraph (a) of this paragraph, so as to permit the levying of a countervailing duty, in cases in which they find that a subsidy is causing or threatening material injury to an
industry in the territory of another contracting party exporting the product concerned to the territory of the importing contracting party.

[Understanding in Respect of Waivers of Obligations under the General Agreement on Tariffs and Trade 1994]

Members hereby agree as follows:

1. A request for a waiver or for an extension of an existing waiver shall describe the measures which the Member proposes to take, the specific policy objectives which the Member seeks to pursue and the reasons which prevent the Member from achieving its policy objectives by measures consistent with its obligations under GATT 1994.

2. Any waiver in effect on the date of entry into force of the WTO Agreement shall terminate, unless extended in accordance with the procedures above and those of Article IX of the WTO Agreement, on the date of its expiry or two years from the date of entry into force of the WTO Agreement, whichever is earlier.]

[Paragraph 6 (b)]

Waivers under the provisions of this subparagraph shall be granted only on application by the contracting party proposing to levy an anti-dumping or countervailing duty, as the case may be.]

(c) In exceptional circumstances, however, where delay might cause damage which would be difficult to repair, a contracting party may levy a countervailing duty for the purpose referred to in subparagraph (b) of this paragraph without the prior approval of the CONTRACTING PARTIES; Provided that such action shall be reported immediately to the CONTRACTING PARTIES and that the countervailing duty shall be withdrawn promptly if the CONTRACTING PARTIES disapprove.

7. A system for the stabilization of the domestic price or of the return to domestic producers of a primary commodity, independently of the movements of export prices, which results at times in the sale of the commodity for export at a price lower than the comparable price charged for the like commodity to buyers in the domestic market, shall be presumed not to result in material injury within the meaning of paragraph 6 if it is determined by consultation among the contracting parties substantially interested in the commodity concerned that:

(a) the system has also resulted in the sale of the commodity for export at a price higher than the comparable price charged for the like commodity to buyers in the domestic market, and

(b) the system is so operated, either because of the effective regulation of production, or otherwise, as not to stimulate exports unduly or otherwise seriously prejudice the interests of other contracting parties.

Article VII

Valuation for Customs Purposes
1. The contracting parties recognize the validity of the general principles of valuation set forth in the following paragraphs of this Article, and they undertake to give effect to such principles, in respect of all products subject to duties or other charges or restrictions on importation and exportation based upon or regulated in any manner by value. Moreover, they shall, upon a request by another contracting party review the operation of any of their laws or regulations relating to value for customs purposes in the light of these principles. The CONTRACTING PARTIES may request from contracting parties reports on steps taken by them in pursuance of the provisions of this Article.

[Ad Article VII

Paragraph 1

The expression "or other charges" is not to be regarded as including internal taxes or equivalent charges imposed on or in connection with imported products.]

2. (a) The value for customs purposes of imported merchandise should be based on the actual value of the imported merchandise on which duty is assessed, or of like merchandise, and should not be based on the value of merchandise of national origin or on arbitrary or fictitious values.

(b) "Actual value" should be the price at which, at a time and place determined by the legislation of the country of importation, such or like merchandise is sold or offered for sale in the ordinary course of trade under fully competitive conditions. To the extent to which the price of such or like merchandise is governed by the quantity in a particular transaction, the price to be considered should uniformly be related to either (i) comparable quantities, or (ii) quantities not less favourable to importers than those in which the greater volume of the merchandise is sold in the trade between the countries of exportation and importation.

(c) When the actual value is not ascertainable in accordance with subparagraph (b) of this paragraph, the value for customs purposes should be based on the nearest ascertainable equivalent of such value.

[Paragraph 2

1. It would be in conformity with Article VII to presume that "actual value" may be represented by the invoice price, plus any non-included charges for legitimate costs which are proper elements of "actual value" and plus any abnormal discount or other reduction from the ordinary competitive price.

2. It would be in conformity with Article VII, paragraph 2 (b), for a contracting party to construe the phrase "in the ordinary course of trade ... under fully competitive conditions", as excluding any transaction wherein the buyer and seller are not independent of each other and price is not the sole consideration.

3. The standard of "fully competitive conditions" permits a contracting party to exclude from consideration prices involving special discounts limited
4. The wording of subparagraphs (a) and (b) permits a contracting party to determine the value for customs purposes uniformly either (1) on the basis of a particular exporter’s prices of the imported merchandise, or (2) on the basis of the general price level of like merchandise.

3. The value for customs purposes of any imported product should not include the amount of any internal tax, applicable within the country of origin or export, from which the imported product has been exempted or has been or will be relieved by means of refund.

4. (a) Except as otherwise provided for in this paragraph, where it is necessary for the purposes of paragraph 2 of this Article for a contracting party to convert into its own currency a price expressed in the currency of another country, the conversion rate of exchange to be used shall be based, for each currency involved, on the par value as established pursuant to the Articles of Agreement of the International Monetary Fund or on the rate of exchange recognized by the Fund, or on the par value established in accordance with a special exchange agreement entered into pursuant to Article XV of this Agreement.

(b) Where no such established par value and no such recognized rate of exchange exist, the conversion rate shall reflect effectively the current value of such currency in commercial transactions.

(c) The CONTRACTING PARTIES, in agreement with the International Monetary Fund, shall formulate rules governing the conversion by contracting parties of any foreign currency in respect of which multiple rates of exchange are maintained consistently with the Articles of Agreement of the International Monetary Fund. Any contracting party may apply such rules in respect of such foreign currencies for the purposes of paragraph 2 of this Article as an alternative to the use of par values. Until such rules are adopted by the Contracting Parties, any contracting party may employ, in respect of any such foreign currency, rules of conversion for the purposes of paragraph 2 of this Article which are designed to reflect effectively the value of such foreign currency in commercial transactions.

(d) Nothing in this paragraph shall be construed to require any contracting party to alter the method of converting currencies for customs purposes which is applicable in its territory on the date of this Agreement, if such alteration would have the effect of increasing generally the amounts of duty payable.

5. The bases and methods for determining the value of products subject to duties or other charges or restrictions based upon or regulated in any manner by value should be stable and should be given sufficient publicity to enable traders to estimate, with a reasonable degree of certainty, the value for customs purposes.

Article VIII

Fees and Formalities connected with Importation and Exportation

[Ad Article VIII]
1. While Article VIII does not cover the use of multiple rates of exchange as such, paragraphs 1 and 4 condemn the use of exchange taxes or fees as a device for implementing multiple currency practices; if, however, a contracting party is using multiple currency exchange fees for balance of payments reasons with the approval of the International Monetary Fund, the provisions of paragraph 9 (a) of Article XV fully safeguard its position.

2. It would be consistent with paragraph 1 if, on the importation of products from the territory of a contracting party into the territory of another contracting party, the production of certificates of origin should only be required to the extent that is strictly indispensable.

1. (a) All fees and charges of whatever character (other than import and export duties and other than taxes within the purview of Article III) imposed by contracting parties on or in connection with importation or exportation shall be limited in amount to the approximate cost of services rendered and shall not represent an indirect protection to domestic products or a taxation of imports or exports for fiscal purposes.

   (b) The contracting parties recognize the need for reducing the number and diversity of fees and charges referred to in subparagraph (a).

   (c) The contracting parties also recognize the need for minimizing the incidence and complexity of import and export formalities and for decreasing and simplifying import and export documentation requirements.

2. A contracting party shall, upon request by another contracting party or by the CONTRACTING PARTIES, review the operation of its laws and regulations in the light of the provisions of this Article.

3. No contracting party shall impose substantial penalties for minor breaches of customs regulations or procedural requirements. In particular, no penalty in respect of any omission or mistake in customs documentation which is easily rectifiable and obviously made without fraudulent intent or gross negligence shall be greater than necessary to serve merely as a warning.

4. The provisions of this Article shall extend to fees, charges, formalities and requirements imposed by governmental authorities in connection with importation and exportation, including those relating to:

   (a) consular transactions, such as consular invoices and certificates;

   (b) quantitative restrictions;

   (c) licensing;

   (d) exchange control;

   (e) statistical services;

   (f) documents, documentation and certification;

   (g) analysis and inspection; and

   (h) quarantine, sanitation and fumigation.
Article IX

Marks of Origin

1. Each contracting party shall accord to the products of the territories of other contracting parties treatment with regard to marking requirements no less favourable than the treatment accorded to like products of any third country.

2. The contracting parties recognize that, in adopting and enforcing laws and regulations relating to marks of origin, the difficulties and inconveniences which such measures may cause to the commerce and industry of exporting countries should be reduced to a minimum, due regard being had to the necessity of protecting consumers against fraudulent or misleading indications.

3. Whenever it is administratively practicable to do so, contracting parties should permit required marks of origin to be affixed at the time of importation.

4. The laws and regulations of contracting parties relating to the marking of imported products shall be such as to permit compliance without seriously damaging the products, or materially reducing their value, or unreasonably increasing their cost.

5. As a general rule, no special duty or penalty should be imposed by any contracting party for failure to comply with marking requirements prior to importation unless corrective marking is unreasonably delayed or deceptive marks have been affixed or the required marking has been intentionally omitted.

6. The contracting parties shall co-operate with each other with a view to preventing the use of trade names in such manner as to misrepresent the true origin of a product, to the detriment of such distinctive regional or geographical names of products of the territory of a contracting party as are protected by its legislation. Each contracting party shall accord full and sympathetic consideration to such requests or representations as may be made by any other contracting party regarding the application of the undertaking set forth in the preceding sentence to names of products which have been communicated to it by the other contracting party.

Article X

Publication and Administration of Trade Regulations

1. Laws, regulations, judicial decisions and administrative rulings of general application, made effective by any contracting party, pertaining to the classification or the valuation of products for customs purposes, or to rates of duty, taxes or other charges, or to requirements, restrictions or prohibitions on imports or exports or on the transfer of payments therefor, or affecting their sale, distribution, transportation, insurance, warehousing inspection, exhibition, processing, mixing or other use, shall be published promptly in such a manner as to enable governments and traders to become acquainted with them. Agreements affecting international trade policy which are in force between the government or a governmental agency of any contracting party and the government or governmental agency of any other contracting party shall also be published. The provisions of this paragraph shall not
require any contracting party to disclose confidential information which would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interests of particular enterprises, public or private.

2. No measure of general application taken by any contracting party effecting an advance in a rate of duty or other charge on imports under an established and uniform practice, or imposing a new or more burdensome requirement, restriction or prohibition on imports, or on the transfer of payments therefor, shall be enforced before such measure has been officially published.

3. (a) Each contracting party shall administer in a uniform, impartial and reasonable manner all its laws, regulations, decisions and rulings of the kind described in paragraph 1 of this Article.

(b) Each contracting party shall maintain, or institute as soon as practicable, judicial, arbitral or administrative tribunals or procedures for the purpose, inter alia, of the prompt review and correction of administrative action relating to customs matters. Such tribunals or procedures shall be independent of the agencies entrusted with administrative enforcement and their decisions shall be implemented by, and shall govern the practice of, such agencies unless an appeal is lodged with a court or tribunal of superior jurisdiction within the time prescribed for appeals to be lodged by importers; Provided that the central administration of such agency may take steps to obtain a review of the matter in another proceeding if there is good cause to believe that the decision is inconsistent with established principles of law or the actual facts.

(c) The provisions of subparagraph (b) of this paragraph shall not require the elimination or substitution of procedures in force in the territory of a contracting party on the date of this Agreement which in fact provide for an objective and impartial review of administrative action even though such procedures are not fully or formally independent of the agencies entrusted with administrative enforcement. Any contracting party employing such procedures shall, upon request, furnish the CONTRACTING PARTIES with full information thereon in order that they may determine whether such procedures conform to the requirements of this subparagraph.

**Article XI**

**General Elimination of Quantitative Restrictions**

[Ad Articles XI, XII, XIII, XIV and XVIII]

> Throughout Articles XI, XII, XIII, XIV and XVIII, the terms "import restrictions" or "export restrictions" include restrictions made effective through state-trading operations.\(^8\)

1. No prohibitions or restrictions other than duties, taxes or other charges, whether made effective through quotas, import or export licences or other measures, shall be instituted or maintained by any contracting party on the importation of any product of the territory of any other contracting party or on the

\(^8\) Editor’s note: this provision applies to the ECT insofar as it refers to Articles XI, XII, XIII and XIV.
exportation or sale for export of any product destined for the territory of any other contracting party.

2. The provisions of paragraph 1 of this Article shall not extend to the following:

(a) Export prohibitions or restrictions temporarily applied to prevent or relieve critical shortages of foodstuffs or other products essential to the exporting contracting party;

(b) Import and export prohibitions or restrictions necessary to the application of standards or regulations for the classification, grading or marketing of commodities in international trade;

(c) Import restrictions on any agricultural or fisheries product, imported in any form, necessary to the enforcement of governmental measures which operate:

(i) to restrict the quantities of the like domestic product permitted to be marketed or produced, or, if there is no substantial domestic production of the like product, of a domestic product for which the imported product can be directly substituted; or

(ii) to remove a temporary surplus of the like domestic product, or, if there is no substantial domestic production of the like product, of a domestic product for which the imported product can be directly substituted, by making the surplus available to certain groups of domestic consumers free of charge or at prices below the current market level; or

(iii) to restrict the quantities permitted to be produced of any animal product the production of which is directly dependent, wholly or mainly, on the imported commodity, if the domestic production of that commodity is relatively negligible.

[Ad Article XI Paragraph 2 (c)

The term "in any form" in this paragraph covers the same products when in an early stage of processing and still perishable, which compete directly with the fresh product and if freely imported would tend to make the restriction on the fresh product ineffective.]

Any contracting party applying restrictions on the importation of any product pursuant to subparagraph (c) of this paragraph shall give public notice of the total quantity or value of the product permitted to be imported during a specified future period and of any change in such quantity or value. Moreover, any restrictions applied under (i) above shall not be such as will reduce the total of imports relative to the total of domestic production, as compared with the proportion which might reasonably be expected to rule between the two in the absence of restrictions. In determining this proportion, the contracting party shall pay due regard to the proportion prevailing during a previous representative period and to any special
factors which may have affected or may be affecting the trade in the product concerned.

[Paragraph 2, last subparagraph

The term "special factors" includes changes in relative productive efficiency as between domestic and foreign producers, or as between different foreign producers, but not changes artificially brought about by means not permitted under the Agreement.]

Article XII

Restrictions to Safeguard the Balance of Payments

[Ad Article XII

The CONTRACTING PARTIES shall make provision for the utmost secrecy in the conduct of any consultation under the provisions of this Article.]

1. Notwithstanding the provisions of paragraph 1 of Article XI, any contracting party, in order to safeguard its external financial position and its balance of payments, may restrict the quantity or value of merchandise permitted to be imported, subject to the provisions of the following paragraphs of this Article.

2. (a) Import restrictions instituted, maintained or intensified by a contracting party under this Article shall not exceed those necessary:

(i) to forestall the imminent threat of, or to stop, a serious decline in its monetary reserves; or

(ii) in the case of a contracting party with very low monetary reserves, to achieve a reasonable rate of increase in its reserves.

Due regard shall be paid in either case to any special factors which may be affecting the reserves of such contracting party or its need for reserves, including, where special external credits or other resources are available to it, the need to provide for the appropriate use of such credits or resources.

(b) Contracting parties applying restrictions under sub-paragraph (a) of this paragraph shall progressively relax them as such conditions improve, maintaining them only to the extent that the conditions specified in that sub-paragraph still justify their application. They shall eliminate the restrictions when conditions would no longer justify their institution or maintenance under that subparagraph.

3. (a) Contracting parties undertake, in carrying out their domestic policies, to pay due regard to the need for maintaining or restoring equilibrium in their balance of payments on a sound and lasting basis and to the desirability of avoiding an uneconomic employment of productive resources. They recognize that, in order to achieve these ends, it is desirable so far as possible to adopt measures which expand rather than contract international trade.
(b) Contracting parties applying restrictions under this Article may determine the incidence of the restrictions on imports of different products or classes of products in such a way as to give priority to the importation of those products which are more essential.

(c) Contracting parties applying restrictions under this Article undertake:

(i) to avoid unnecessary damage to the commercial or economic interests of any other contracting party;

Paragraph 3 (c)(i)

Contracting parties applying restrictions shall endeavour to avoid causing serious prejudice to exports of a commodity on which the economy of a contracting party is largely dependent.

(ii) not to apply restrictions so as to prevent unreasonably the importation of any description of goods in minimum commercial quantities the exclusion of which would impair regular channels of trade; and

(iii) not to apply restrictions which would prevent the importations of commercial samples or prevent compliance with patent, trade mark, copyright, or similar procedures.

(d) The contracting parties recognize that, as a result of domestic policies directed towards the achievement and maintenance of full and productive employment or towards the development of economic resources, a contracting party may experience a high level of demand for imports involving a threat to its monetary reserves of the sort referred to in paragraph 2 (a) of this Article. Accordingly, a contracting party otherwise complying with the provisions of this Article shall not be required to withdraw or modify restrictions on the ground that a change in those policies would render unnecessary restrictions which it is applying under this Article.

4. (a) Any contracting party applying new restrictions or raising the general level of its existing restrictions by a substantial intensification of the measures applied under this Article shall immediately after instituting or intensifying such restrictions (or, in circumstances in which prior consultation is practicable, before doing so) consult with the CONTRACTING PARTIES as to the nature of its balance of payments difficulties, alternative corrective measures which may be available, and the possible effect of the restrictions on the economies of other contracting parties.

(b) On a date to be determined by them, the CONTRACTING PARTIES shall review all restrictions still applied under this Article on that date. Beginning one year after that date, contracting parties applying import restrictions under this Article shall enter into consultations of the type provided for in subparagraph (a) of this paragraph with the CONTRACTING PARTIES annually.

Paragraph 4 (b)
It is agreed that the date shall be within ninety days after the entry into force of the amendments of this Article effected by the Protocol Amending the Preamble and Parts II and III of this Agreement. However, should the CONTRACTING PARTIES find that conditions were not suitable for the application of the provisions of this subparagraph at the time envisaged, they may determine a later date; Provided that such date is not more than thirty days after such time as the obligations of Article VIII, Sections 2, 3 and 4, of the Articles of Agreement of the International Monetary Fund become applicable to contracting parties, members of the Fund, the combined foreign trade of which constitutes at least fifty per centum of the aggregate foreign trade of all contracting parties.

(c) (i) If, in the course of consultations with a contracting party under subparagraph (a) or (b) above, the CONTRACTING PARTIES find that the restrictions are not consistent with provisions of this Article or with those of Article XIII (subject to the provisions of Article XIV), they shall indicate the nature of the inconsistency and may advise that the restrictions be suitably modified.

(ii) If, however, as a result of the consultations, the CONTRACTING PARTIES determine that the restrictions are being applied in a manner involving an inconsistency of a serious nature with the provisions of this Article or with those of Article XIII (subject to the provisions of Article XIV) and that damage to the trade of any contracting party is caused or threatened thereby, they shall so inform the contracting party applying the restrictions and shall make appropriate recommendations for securing conformity with such provisions within the specified period of time. If such contracting party does not comply with these recommendations within the specified period, the CONTRACTING PARTIES may release any contracting party the trade of which is adversely affected by the restrictions from such obligations under this Agreement towards the contracting party applying the restrictions as they determine to be appropriate in the circumstances.

(d) The CONTRACTING PARTIES shall invite any contracting party which is applying restrictions under this Article to enter into consultations with them at the request of any contracting party which can establish a prima facie case that the restrictions are inconsistent with the provisions of this Article or with those of Article XIII (subject to the provisions of Article XIV) and that its trade is adversely affected thereby. However, no such invitation shall be issued unless the CONTRACTING PARTIES have ascertained that direct discussions between the contracting parties concerned have not been successful. If, as a result of the consultations with the CONTRACTING PARTIES, no agreement is reached and they determine that the restrictions are being applied inconsistently with such provisions, and that damage to the trade of the contracting party initiating the procedure is caused or threatened thereby, they shall recommend the withdrawal or modification of the restrictions. If the restrictions are not withdrawn or modified within such time as the CONTRACTING PARTIES may prescribe, they may release the contracting party initiating the procedure from such obligations under
this Agreement towards the contracting party applying the restrictions as they determine to be appropriate in the circumstances.

(e) In proceeding under this paragraph, the CONTRACTING PARTIES shall have due regard to any special external factors adversely affecting the export trade of the contracting party applying the restrictions.

[Paragraph 4 (e)]

It is agreed that paragraph 4 (e) does not add any new criteria for the imposition or maintenance of quantitative restrictions for balance of payments reasons. It is solely intended to ensure that all external factors such as changes in the terms of trade, quantitative restrictions, excessive tariffs and subsidies, which may be contributing to the balance of payments difficulties of the contracting party applying restrictions, will be fully taken into account.]

(f) Determinations under this paragraph shall be rendered expeditiously and, if possible, within sixty days of the initiation of the consultations.

5. If there is a persistent and widespread application of import restrictions under this Article, indicating the existence of a general disequilibrium which is restricting international trade, the CONTRACTING PARTIES shall initiate discussions to consider whether other measures might be taken, either by those contracting parties the balance of payments of which are under pressure or by those the balance of payments of which are tending to be exceptionally favourable, or by any appropriate intergovernmental organization, to remove the underlying causes of the disequilibrium. On the invitation of the CONTRACTING PARTIES, contracting parties shall participate in such discussions.

Members,

Recognizing the provisions of Articles XII and XVIII:B of GATT 1994 and of the Declaration on Trade Measures Taken for Balance-of-Payments Purposes adopted on 28 November 1979 (BISD 26S/205-209, referred to in this Understanding as the "1979 Declaration") and in order to clarify such provisions;

Hereby agree as follows:

Application of Measures

1. Members confirm their commitment to announce publicly, as soon as possible, time-schedules for the removal of restrictive import measures taken for balance-of-payments purposes. It is understood that such time-schedules may be modified as appropriate to take into account changes in the balance-of-payments situation. Whenever a time-schedule is not publicly announced by a Member, that Member shall provide justification as to the reasons therefor.
2. Members confirm their commitment to give preference to those measures which have the least disruptive effect on trade. Such measures (referred to in this Understanding as "price-based measures") shall be understood to include import surcharges, import deposit requirements or other equivalent trade measures with an impact on the price of imported goods. It is understood that, notwithstanding the provisions of Article II, price-based measures taken for balance-of-payments purposes may be applied by a Member in excess of the duties inscribed in the Schedule of that Member. Furthermore, that Member shall indicate the amount by which the price-based measure exceeds the bound duty clearly and separately under the notification procedures of this Understanding.

3. Members shall seek to avoid the imposition of new quantitative restrictions for balance-of-payments purposes unless, because of a critical balance-of-payments situation, price-based measures cannot arrest a sharp deterioration in the external payments position. In those cases in which a Member applies quantitative restrictions, it shall provide justification as to the reasons why price-based measures are not an adequate instrument to deal with the balance-of-payments situation. A Member maintaining quantitative restrictions shall indicate in successive consultations the progress made in significantly reducing the incidence and restrictive effect of such measures. It is understood that not more than one type of restrictive import measure taken for balance-of-payments purposes may be applied on the same product.

4. Members confirm that restrictive import measures taken for balance-of-payments purposes may only be applied to control the general level of imports and may not exceed what is necessary to address the balance-of-payments situation. In order to minimize any incidental protective effects, a Member shall administer restrictions in a transparent manner. The authorities of the importing Member shall provide adequate justification as to the criteria used to determine which products are subject to restriction. As provided in paragraph 3 of Article XII and paragraph 10 of Article XVIII, Members may, in the case of certain essential products, exclude or limit the application of surcharges applied across the board or other measures applied for balance-of-payments purposes. The term "essential products" shall be understood to mean products which meet basic consumption needs or which contribute to the Member's effort to improve its balance-of-payments situation, such as capital goods or inputs needed for production. In the administration of quantitative restrictions, a Member shall use discretionary licensing only when unavoidable and shall phase it out progressively. Appropriate justification shall be provided as to the criteria used to determine allowable import quantities or values.

Procedures for Balance-of-Payments Consultations

5. ... The Committee shall follow the procedures for consultations on balance-of-payments restrictions approved on 28 April 1970 (BISD 18S/48-53, referred to in this Understanding as "full consultation procedures"), subject to the provisions set out below.

6. A Member applying new restrictions or raising the general level of its existing restrictions by a substantial intensification of the measures shall enter into consultations with the Committee within four months of the
adoption of such measures. The Member adopting such measures may request that a consultation be held under paragraph 4(a) of Article XII or paragraph 12(a) of Article XVIII as appropriate. If no such request has been made, the Chairman of the Committee shall invite the Member to hold such a consultation. Factors that may be examined in the consultation would include, inter alia, the introduction of new types of restrictive measures for balance-of-payments purposes, or an increase in the level or product coverage of restrictions.

7. All restrictions applied for balance-of-payments purposes shall be subject to periodic review in the Committee under paragraph 4(b) of Article XII ..., subject to the possibility of altering the periodicity of consultations in agreement with the consulting Member or pursuant to any specific review procedure that may be recommended by the General Council.

Notification and Documentation

9. A Member shall notify to the General Council the introduction of or any changes in the application of restrictive import measures taken for balance-of-payments purposes, as well as any modifications in time-schedules for the removal of such measures as announced under paragraph 1. Significant changes shall be notified to the General Council prior to or not later than 30 days after their announcement. On a yearly basis, each Member shall make available to the Secretariat a consolidated notification, including all changes in laws, regulations, policy statements or public notices, for examination by Members. Notifications shall include full information, as far as possible, at the tariff-line level, on the type of measures applied, the criteria used for their administration, product coverage and trade flows affected.

10. At the request of any Member, notifications may be reviewed by the Committee. Such reviews would be limited to the clarification of specific issues raised by a notification or examination of whether a consultation under paragraph 4(a) of Article XII or paragraph 12(a) of Article XVIII is required. Members which have reasons to believe that a restrictive import measure applied by another Member was taken for balance-of-payments purposes may bring the matter to the attention of the Committee. The Chairman of the Committee shall request information on the measure and make it available to all Members. Without prejudice to the right of any member of the Committee to seek appropriate clarifications in the course of consultations, questions may be submitted in advance for consideration by the consulting Member.

11. The consulting Member shall prepare a Basic Document for the consultations which, in addition to any other information considered to be relevant, should include: (a) an overview of the balance-of-payments situation and prospects, including a consideration of the internal and external factors having a bearing on the balance-of-payments situation and the domestic policy measures taken in order to restore equilibrium on a sound and lasting basis; (b) a full description of the restrictions applied for balance-of-payments purposes, their legal basis and steps taken to reduce incidental protective effects; (c) measures taken since the last consultation to liberalize import restrictions, in the light of the conclusions of the Committee;
(d) a plan for the elimination and progressive relaxation of remaining restrictions. References may be made, when relevant, to the information provided in other notifications or reports made to the WTO. Under simplified consultation procedures, the consulting Member shall submit a written statement containing essential information on the elements covered by the Basic Document.

12. The Secretariat shall, with a view to facilitating the consultations in the Committee, prepare a factual background paper dealing with the different aspects of the plan for consultations. In the case of developing country Members, the Secretariat document shall include relevant background and analytical material on the incidence of the external trading environment on the balance-of-payments situation and prospects of the consulting Member. The technical assistance services of the Secretariat shall, at the request of a developing country Member, assist in preparing the documentation for the consultations.

Conclusions of Balance-of-Payments Consultations

13. ... When full consultation procedures have been used, the report should indicate the Committee's conclusions on the different elements of the plan for consultations, as well as the facts and reasons on which they are based. The Committee shall endeavour to include in its conclusions proposals for recommendations aimed at promoting the implementation of Articles XII ... and this Understanding. In those cases in which a time-schedule has been presented for the removal of restrictive measures taken for balance-of-payments purposes, the General Council may recommend that, in adhering to such a time-schedule, a Member shall be deemed to be in compliance with its GATT 1994 obligations. Whenever the General Council has made specific recommendations, the rights and obligations of Members shall be assessed in the light of such recommendations. In the absence of specific proposals for recommendations by the General Council, the Committee's conclusions should record the different views expressed in the Committee. ... ]

Article XIII

Non-discriminatory Administration of Quantitative Restrictions

1. No prohibition or restriction shall be applied by any contracting party on the importation of any product of the territory of any other contracting party or on the exportation of any product destined for the territory of any other contracting party, unless the importation of the like product of all third countries or the exportation of the like product to all third countries is similarly prohibited or restricted.

2. In applying import restrictions to any product, contracting parties shall aim at a distribution of trade in such product approaching as closely as possible the shares which the various contracting parties might be expected to obtain in the absence of such restrictions and to this end shall observe the following provisions:

(a) Wherever practicable, quotas representing the total amount of permitted imports (whether allocated among supplying countries or not) shall be
fixed, and notice given of their amount in accordance with paragraph 3 (b) of this Article;

(b) In cases in which quotas are not practicable, the restrictions may be applied by means of import licences or permits without a quota;

(c) Contracting parties shall not, except for purposes of operating quotas allocated in accordance with subparagraph (d) of this paragraph, require that import licences or permits be utilized for the importation of the product concerned from a particular country or source;

(d) In cases in which a quota is allocated among supplying countries the contracting party applying the restrictions may seek agreement with respect to the allocation of shares in the quota with all other contracting parties having a substantial interest in supplying the product concerned. In cases in which this method is not reasonably practicable, the contracting party concerned shall allot to contracting parties having a substantial interest in supplying the product shares based upon the proportions, supplied by such contracting parties during a previous representative period, of the total quantity or value of imports of the product, due account being taken of any special factors which may have affected or may be affecting the trade in the product. No conditions or formalities shall be imposed which would prevent any contracting party from utilizing fully the share of any such total quantity or value which has been allotted to it, subject to importation being made within any prescribed period to which the quota may relate.

[Ad Article XIII

Paragraph 2 (d)

No mention was made of "commercial considerations" as a rule for the allocation of quotas because it was considered that its application by governmental authorities might not always be practicable. Moreover, in cases where it is practicable, a contracting party could apply these considerations in the process of seeking agreement, consistently with the general rule laid down in the opening sentence of paragraph 2.]

3. (a) In cases in which import licences are issued in connection with import restrictions, the contracting party applying the restrictions shall provide, upon the request of any contracting party having an interest in the trade in the product concerned, all relevant information concerning the administration of the restrictions, the import licences granted over a recent period and the distribution of such licences among supplying countries; Provided that there shall be no obligation to supply information as to the names of importing or supplying enterprises.

(b) In the case of import restrictions involving the fixing of quotas, the contracting party applying the restrictions shall give public notice of the total quantity or value of the product or products which will be permitted to be imported during a specified future period and of any change in such quantity or value. Any supplies of the product in question which were en route at the time at which public notice was given shall not be excluded from entry; Provided that they may be counted so far as practicable, against the quantity permitted to be imported in the period in question, and also, where necessary, against the quantities permitted to be imported in the next following period or periods; and Provided further that if any...
contracting party customarily exempts from such restrictions products entered for consumption or withdrawn from warehouse for consumption during a period of thirty days after the day of such public notice, such practice shall be considered full compliance with this subparagraph.

(c) In the case of quotas allocated among supplying countries, the contracting party applying the restrictions shall promptly inform all other contracting parties having an interest in supplying the product concerned of the shares in the quota currently allocated, by quantity or value, to the various supplying countries and shall give public notice thereof.

4. With regard to restrictions applied in accordance with paragraph 2 (d) of this Article or under paragraph 2 (c) of Article XI, the selection of a representative period for any product and the appraisal of any special factors affecting the trade in the product shall be made initially by the contracting party applying the restriction; Provided that such contracting party shall, upon the request of any other contracting party having a substantial interest in supplying that product or upon the request of the CONTRACTING PARTIES, consult promptly with the other contracting party or the CONTRACTING PARTIES regarding the need for an adjustment of the proportion determined or of the base period selected, or for the reappraisal of the special factors involved, or for the elimination of conditions, formalities or any other provisions established unilaterally relating to the allocation of an adequate quota or its unrestricted utilization.

[Paragraph 4

See note relating to "special factors" in connection with the last subparagraph of paragraph 2 of Article XI.]

5. The provisions of this Article shall apply to any tariff quota instituted or maintained by any contracting party, and, in so far as applicable, the principles of this Article shall also extend to export restrictions.

**Article XIV**

*Exceptions to the Rule of Non-discrimination*

1. A contracting party which applies restrictions under Article XII or under Section B of Article XVIII may, in the application of such restrictions, deviate from the provisions of Article XIII in a manner having equivalent effect to restrictions on payments and transfers for current international transactions which that contracting party may at that time apply under Article VIII or XIV of the Articles of Agreement of the International Monetary Fund, or under analogous provisions of a special exchange agreement entered into pursuant to paragraph 6 of Article XV.

[Ad Article XIV

Paragraph 1

The provisions of this paragraph shall not be so construed as to preclude full consideration by the CONTRACTING PARTIES, in the consultations provided for in paragraph 4 of Article XII and in paragraph 12 of Article XVIII, of the nature, effects and reasons for discrimination in the field of
2. A contracting party which is applying import restrictions under Article XII or under Section B of Article XVIII may, with the consent of the CONTRACTING PARTIES, temporarily deviate from the provisions of Article XIII in respect of a small part of its external trade where the benefits to the contracting party or contracting parties concerned substantially outweigh any injury which may result to the trade of other contracting parties.

[Paragraph 2

One of the situations contemplated in paragraph 2 is that of a contracting party holding balances acquired as a result of current transactions which it finds itself unable to use without a measure of discrimination.]

3. The provisions of Article XIII shall not preclude a group of territories having a common quota in the International Monetary Fund from applying against imports from other countries, but not among themselves, restrictions in accordance with the provisions of Article XII or of Section B of Article XVIII on condition that such restrictions are in all other respects consistent with the provisions of Article XIII.

4. A contracting party applying import restrictions under Article XII or under Section B of Article XVIII shall not be precluded by Articles XI to XV or Section B of Article XVIII of this Agreement from applying measures to direct its exports in such a manner as to increase its earnings of currencies which it can use without deviation from the provisions of Article XIII.

5. A contracting party shall not be precluded by Articles XI to XV, inclusive, or by Section B of Article XVIII, of this Agreement from applying quantitative restrictions:

   (a) having equivalent effect to exchange restrictions authorized under Section 3 (b) of Article VII of the Articles of Agreement of the International Monetary Fund, or

   (b) under the preferential arrangements provided for in Annex A of this Agreement, pending the outcome of the negotiations referred to therein.

**Article XVI**

**Subsidies**

[Ad Article XVI

The exemption of an exported product from duties or taxes borne by the like product when destined for domestic consumption, or the remission of such duties or taxes in amounts not in excess of those which have accrued, shall not be deemed to be a subsidy.]

**Section A - Subsidies in General**
1. If any contracting party grants or maintains any subsidy, including any form of income or price support, which operates directly or indirectly to increase exports of any product from, or to reduce imports of any product into, its territory, it shall notify the CONTRACTING PARTIES in writing of the extent and nature of the subsidization, of the estimated effect of the subsidization on the quantity of the affected product or products imported into or exported from its territory and of the circumstances making the subsidization necessary. In any case in which it is determined that serious prejudice to the interests of any other contracting party is caused or threatened by any such subsidization, the contracting party granting the subsidy shall, upon request, discuss with the other contracting party or parties concerned, or with the CONTRACTING PARTIES, the possibility of limiting the subsidization.

Section B - Additional Provisions on Export Subsidies

[Section B

1. Nothing in Section B shall preclude the use by a contracting party of multiple rates of exchange in accordance with the Articles of Agreement of the International Monetary Fund.

2. For the purposes of Section B, a "primary product" is understood to be any product of farm, forest or fishery, or any mineral, in its natural form or which has undergone such processing as is customarily required to prepare it for marketing in substantial volume in international trade.]

2. The contracting parties recognize that the granting by a contracting party of a subsidy on the export of any product may have harmful effects for other contracting parties, both importing and exporting, may cause undue disturbance to their normal commercial interests, and may hinder the achievement of the objectives of this Agreement.

3. Accordingly, contracting parties should seek to avoid the use of subsidies on the export of primary products. If, however, a contracting party grants directly or indirectly any form of subsidy which operates to increase the export of any primary product from its territory, such subsidy shall not be applied in a manner which results in that contracting party having more than an equitable share of world export trade in that product, account being taken of the shares of the contracting parties in such trade in the product during a previous representative period, and any special factors which may have affected or may be affecting such trade in the product.

[Paragraph 3

1. The fact that a contracting party has not exported the product in question during the previous representative period would not in itself preclude that contracting party from establishing its right to obtain a share of the trade in the product concerned.

2. A system for the stabilization of the domestic price or of the return to domestic producers of a primary product independently of the movements of export prices, which results at times in the sale of the product for export at a price lower than the comparable price charged for the like product to
buyers in the domestic market, shall be considered not to involve a subsidy on exports within the meaning of paragraph 3 if the CONTRACTING PARTIES determine that:

(a) the system has also resulted, or is so designed as to result, in the sale of the product for export at a price higher than the comparable price charged for the like product to buyers in the domestic market; and

(b) the system is so operated, or is designed so to operate, either because of the effective regulation of production or otherwise, as not to stimulate exports unduly or otherwise seriously to prejudice the interests of other contracting parties.

Notwithstanding such determination by the CONTRACTING PARTIES, operations under such a system shall be subject to the provisions of paragraph 3 where they are wholly or partly financed out of government funds in addition to the funds collected from producers in respect of the product concerned.

4. Further, as from 1 January 1958 or the earliest practicable date thereafter, contracting parties shall cease to grant either directly or indirectly any form of subsidy on the export of any product other than a primary product which subsidy results in the sale of such product for export at a price lower than the comparable price charged for the like product to buyers in the domestic market. Until 31 December 1957 no contracting party shall extend the scope of any such subsidization beyond that existing on 1 January 1955 by the introduction of new, or the extension of existing, subsidies.

[Paragraph 4

The intention of paragraph 4 is that the contracting parties should seek before the end of 1957 to reach agreement to abolish all remaining subsidies as from 1 January 1958; or, failing this, to reach agreement to extend the application of the standstill until the earliest date thereafter by which they can expect to reach such agreement.]

5. The CONTRACTING PARTIES shall review the operation of the provisions of this Article from time to time with a view to examining its effectiveness, in the light of actual experience, in promoting the objectives of this Agreement and avoiding subsidization seriously prejudicial to the trade or interests of contracting parties.

Article XVII

State Trading Enterprises

1. (a) Each contracting party undertakes that if it establishes or maintains a State enterprise, wherever located, or grants to any enterprise, formally or in effect, exclusive or special privileges, such enterprise shall, in its purchases or sales involving either imports or exports, act in a manner consistent with the general principles of non-discriminatory treatment prescribed in this Agreement for governmental measures affecting imports or exports by private traders.
Paragraph 1

The operations of Marketing Boards, which are established by contracting parties and are engaged in purchasing or selling, are subject to the provisions of subparagraphs (a) and (b).

The activities of Marketing Boards which are established by contracting parties and which do not purchase or sell but lay down regulations covering private trade are governed by the relevant Articles of this Agreement.

The charging by a state enterprise of different prices for its sales of a product in different markets is not precluded by the provisions of this Article, provided that such different prices are charged for commercial reasons, to meet conditions of supply and demand in export markets.

Paragraph 1 (a)

Governmental measures imposed to insure standards of quality and efficiency in the operation of external trade, or privileges granted for the exploitation of national natural resources but which do not empower the government to exercise control over the trading activities of the enterprise in question, do not constitute "exclusive or special privileges".

(b) The provisions of subparagraph (a) of this paragraph shall be understood to require that such enterprises shall, having due regard to the other provisions of this Agreement, make any such purchases or sales solely in accordance with commercial considerations, including price, quality, availability, marketability, transportation and other conditions of purchase or sale, and shall afford the enterprises of the other contracting parties adequate opportunity, in accordance with customary business practice, to compete for participation in such purchases or sales.

Paragraph 1 (b)

A country receiving a "tied loan" is free to take this loan into account as a "commercial consideration" when purchasing requirements abroad.

(c) No contracting party shall prevent any enterprise (whether or not an enterprise described in subparagraph (a) of this paragraph) under its jurisdiction from acting in accordance with the principles of subparagraphs (a) and (b) of this paragraph.

2. The provisions of paragraph 1 of this Article shall not apply to imports of products for immediate or ultimate consumption in governmental use and not otherwise for resale or use in the production of goods for sale. With respect to such imports, each contracting party shall accord to the trade of the other contracting parties fair and equitable treatment.

Paragraph 2

The term "goods" is limited to products as understood in commercial
3. The contracting parties recognize that enterprises of the kind described in paragraph 1 (a) of this Article might be operated so as to create serious obstacles to trade; thus negotiations on a reciprocal and mutually advantageous basis designed to limit or reduce such obstacles are of importance to the expansion of international trade.

[Paragraph 3]

Negotiations which contracting parties agree to conduct under this paragraph may be directed towards the reduction of duties and other charges on imports and exports or towards the conclusion of any other mutually satisfactory arrangement consistent with the provisions of this Agreement. (See paragraph 4 of Article II and the note to that paragraph.)

4. (a) Contracting parties shall notify the CONTRACTING PARTIES of the products which are imported into or exported from their territories by enterprises of the kind described in paragraph 1 (a) of this Article.

(b) A contracting party establishing, maintaining or authorizing an import monopoly of a product, which is not the subject of a concession under Article II, shall, on the request of another contracting party having a substantial trade in the product concerned, inform the CONTRACTING PARTIES of the import mark-up on the product during a recent representative period, or, when it is not possible to do so, of the price charged on the resale of the product.

[Paragraph 4 (b)]

The term "import mark-up" in this paragraph shall represent the margin by which the price charged by the import monopoly for the imported product (exclusive of internal taxes within the purview of Article III, transportation, distribution, and other expenses incident to the purchase, sale or further processing, and a reasonable margin of profit) exceeds the landed cost.

(c) The CONTRACTING PARTIES may, at the request of a contracting party which has reason to believe that its interest under this Agreement are being adversely affected by the operations of an enterprise of the kind described in paragraph 1 (a), request the contracting party establishing, maintaining or authorizing such enterprise to supply information about its operations related to the carrying out of the provisions of this Agreement.

(d) The provisions of this paragraph shall not require any contracting party to disclose confidential information which would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interests of particular enterprises.

[Understanding on the Interpretation of Article XVII of the General Agreement on Tariffs and Trade 1994]

Members,
Noting that Article XVII provides for obligations on Members in respect of the activities of the state trading enterprises referred to in paragraph 1 of Article XVII, which are required to be consistent with the general principles of non-discriminatory treatment prescribed in GATT 1994 for governmental measures affecting imports or exports by private traders;

Noting further that Members are subject to their GATT 1994 obligations in respect of those governmental measures affecting state trading enterprises;

Recognizing that this Understanding is without prejudice to the substantive disciplines prescribed in Article XVII;

Hereby agree as follows:

1. In order to ensure the transparency of the activities of state trading enterprises, Members shall notify such enterprises to the Council for Trade in Goods, ... , in accordance with the following working definition:

"Governmental and non-governmental enterprises, including marketing boards, which have been granted exclusive or special rights or privileges, including statutory or constitutional powers, in the exercise of which they influence through their purchases or sales the level or direction of imports or exports."

This notification requirement does not apply to imports of products for immediate or ultimate consumption in governmental use or in use by an enterprise as specified above and not otherwise for resale or use in the production of goods for sale.

2. Each Member shall conduct a review of its policy with regard to the submission of notifications on state trading enterprises to the Council for Trade in Goods, taking account of the provisions of this Understanding. In carrying out such a review, each Member should have regard to the need to ensure the maximum transparency possible in its notifications so as to permit a clear appreciation of the manner of operation of the enterprises notified and the effect of their operations on international trade.

3. Notifications shall be made in accordance with the questionnaire on state trading adopted on 24 May 1960 (BISD 9S/184-185), it being understood that Members shall notify the enterprises referred to in paragraph 1 whether or not imports or exports have in fact taken place.

4. Any Member which has reason to believe that another Member has not adequately met its notification obligation may raise the matter with the Member concerned. If the matter is not satisfactorily resolved it may make a counter-notification to the Council for Trade in Goods, for consideration by the working party set up under paragraph 5, simultaneously informing the Member concerned.

Article XIX

Emergency Action on Imports of Particular Products
1. (a) If, as a result of unforeseen developments and of the effect of the obligations incurred by a contracting party under this Agreement, including tariff concessions, any product is being imported into the territory of that contracting party in such increased quantities and under such conditions as to cause or threaten serious injury to domestic producers in that territory of like or directly competitive products, the contracting party shall be free, in respect of such product, and to the extent and for such time as may be necessary to prevent or remedy such injury, to suspend the obligation in whole or in part or to withdraw or modify the concession.

(b) If any product, which is the subject of a concession with respect to a preference, is being imported into the territory of a contracting party in the circumstances set forth in subparagraph (a) of this paragraph, so as to cause or threaten serious injury to domestic producers of like or directly competitive products in the territory of a contracting party which receives or received such preference, the importing contracting party shall be free, if that other contracting party so requests, to suspend the relevant obligation in whole or in part or to withdraw or modify the concession in respect of the product, to the extent and for such time as may be necessary to prevent or remedy such injury.

2. Before any contracting party shall take action pursuant to the provisions of paragraph 1 of this Article, it shall give notice in writing to the CONTRACTING PARTIES as far in advance as may be practicable and shall afford the CONTRACTING PARTIES and those contracting parties having a substantial interest as exporters of the product concerned an opportunity to consult with it in respect of the proposed action. When such notice is given in relation to a concession with respect to a preference, the notice shall name the contracting party which has requested the action. In critical circumstances, where delay would cause damage which it would be difficult to repair, action under paragraph 1 of this Article may be taken provisionally without prior consultation, on the condition that consultation shall be effected immediately after taking such action.

3. (a) If agreement among the interested contracting parties with respect to the action is not reached, the contracting party which proposes to take or continue the action shall, nevertheless, be free to do so, and if such action is taken or continued, the affected contracting parties shall then be free, not later than ninety days after such action is taken, to suspend, upon the expiration of thirty days from the day on which written notice of such suspension is received by the CONTRACTING PARTIES, the application to the trade of the contracting party taking such action, or, in the case envisaged in paragraph 1 (b) of this Article, to the trade of the contracting party requesting such action, of such substantially equivalent concessions or other obligations under this Agreement the suspension of which the CONTRACTING PARTIES do not disapprove.

(b) Notwithstanding the provisions of subparagraph (a) of this paragraph, where action is taken under paragraph 2 of this Article without prior consultation and causes or threatens serious injury in the territory of a contracting party to the domestic producers of products affected by the action, that contracting party shall, where delay would cause damage difficult to repair, be free to suspend, upon the taking of the action and throughout the period of consultation, such concessions or other obligations as may be necessary to prevent or remedy the injury.
Article XX

General Exceptions

Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where the same conditions prevail, or a disguised restriction on international trade, nothing in this Agreement shall be construed to prevent the adoption or enforcement by any contracting party of measures:

(a) necessary to protect public morals;

(b) necessary to protect human, animal or plant life or health;

(c) relating to the importations or exportations of gold or silver;

(d) necessary to secure compliance with laws or regulations which are not inconsistent with the provisions of this Agreement, including those relating to customs enforcement, the enforcement of monopolies operated under paragraph 4 of Article II and Article XVII, the protection of patents, trade marks and copyrights, and the prevention of deceptive practices;

(e) relating to the products of prison labour;

(f) imposed for the protection of national treasures of artistic, historic or archaeological value;

(g) relating to the conservation of exhaustible natural resources if such measures are made effective in conjunction with restrictions on domestic production or consumption;

(h) undertaken in pursuance of obligations under any intergovernmental commodity agreement which conforms to criteria submitted to the CONTRACTING PARTIES and not disapproved by them or which is itself so submitted and not so disapproved;

[Ad Article XX

Subparagraph (h)

The exception provided for in this subparagraph extends to any commodity agreement which conforms to the principles approved by the Economic and Social Council in its resolution 30 (IV) of 28 March 1947.]

(i) involving restrictions on exports of domestic materials necessary to ensure essential quantities of such materials to a domestic processing industry during periods when the domestic price of such materials is held below the world price as part of a governmental stabilization plan; Provided that such restrictions shall not operate to increase the exports of or the protection afforded to such domestic industry, and shall not depart from the provisions of this Agreement relating to non-discrimination;
(j) essential to the acquisition or distribution of products in general or local short supply; Provided that any such measures shall be consistent with the principle that all contracting parties are entitled to an equitable share of the international supply of such products, and that any such measures, which are inconsistent with the other provisions of the Agreement shall be discontinued as soon as the conditions giving rise to them have ceased to exist. The CONTRACTING PARTIES shall review the need for this sub-paragraph not later than 30 June 1960.

**Article XXI**

*Security Exceptions*

Nothing in this Agreement shall be construed

(a) to require any contracting party to furnish any information the disclosure of which it considers contrary to its essential security interests; or

(b) to prevent any contracting party from taking any action which it considers necessary for the protection of its essential security interests

(i) relating to fissionable materials or the materials from which they are derived;

(ii) relating to the traffic in arms, ammunition and implements of war and to such traffic in other goods and materials as is carried on directly or indirectly for the purpose of supplying a military establishment;

(iii) taken in time of war or other emergency in international relations; or

(c) to prevent any contracting party from taking any action in pursuance of its obligations under the United Nations Charter for the maintenance of international peace and security.

**PART III**

*Article XXIV*

*Territorial Application - Frontier Traffic - Customs Unions and Free-trade Areas*

1. The provisions of this Agreement shall apply to the metropolitan customs territories of the contracting parties and to any other customs territories in respect of which this Agreement has been accepted under Article XXVI or is being applied under Article XXXIII or pursuant to the Protocol of Provisional Application. Each such customs territory shall, exclusively for the purposes of the territorial application of this Agreement, be treated as though it were a contracting party; Provided that the provisions of this paragraph shall not be construed to create any rights or obligations as between two or more customs territories in respect of which this Agreement has been accepted under Article XXVI or is being applied under
Article XXXIII or pursuant to the Protocol of Provisional Application by a single contracting party.

2. For the purposes of this Agreement a customs territory shall be understood to mean any territory with respect to which separate tariffs or other regulations of commerce are maintained for a substantial part of the trade of such territory with other territories.

3. The provisions of this Agreement shall not be construed to prevent:

   (a) Advantages accorded by any contracting party to adjacent countries in order to facilitate frontier traffic;

   (b) Advantages accorded to the trade with the Free Territory of Trieste by countries contiguous to that territory, provided that such advantages are not in conflict with the Treaties of Peace arising out of the Second World War.

4. The contracting parties recognize the desirability of increasing freedom of trade by the development, through voluntary agreements, of closer integration between the economies of the countries parties to such agreements. They also recognize that the purpose of a customs union or of a free-trade area should be to facilitate trade between the constituent territories and not to raise barriers to the trade of other contracting parties with such territories.

5. Accordingly, the provisions of this Agreement shall not prevent, as between the territories of contracting parties, the formation of a customs union or of a free-trade area or the adoption of an interim agreement necessary for the formation of a customs union or of a free-trade area; Provided that:

   (a) with respect to a customs union, or an interim agreement leading to a formation of a customs union, the duties and other regulations of commerce imposed at the institution of any such union or interim agreement in respect of trade with contracting parties not parties to such union or agreement shall not on the whole be higher or more restrictive than the general incidence of the duties and regulations of commerce applicable in the constituent territories prior to the formation of such union or the adoption of such interim agreement, as the case may be;

   (b) with respect to a free-trade area, or an interim agreement leading to the formation of a free-trade area, the duties and other regulations of commerce maintained in each of the constituent territories and applicable at the formation of such free trade area or the adoption of such interim agreement to the trade of contracting parties not included in such area or not parties to such agreement shall not be higher or more restrictive than the corresponding duties and other regulations of commerce existing in the same constituent territories prior to the formation of the free-trade area, or interim agreement as the case may be; and

   (c) any interim agreement referred to in subparagraphs (a) and (b) shall include a plan and schedule for the formation of such a customs union or of such a free-trade area within a reasonable length of time.

7. (a) Any contracting party deciding to enter into a customs union or free-trade area, or an interim agreement leading to the formation of such a union or area,
shall promptly notify the CONTRACTING PARTIES and shall make available to them such information regarding the proposed union or area as will enable them to make such reports and recommendations to contracting parties as they may deem appropriate.

(b) If, after having studied the plan and schedule included in an interim agreement referred to in paragraph 5 in consultation with the parties to that agreement and taking due account of the information made available in accordance with the provisions of subparagraph (a), the CONTRACTING PARTIES find that such agreement is not likely to result in the formation of a customs union or of a free-trade area within the period contemplated by the parties to the agreement or that such period is not a reasonable one, the CONTRACTING PARTIES shall make recommendations to the parties to the agreement. The parties shall not maintain or put into force, as the case may be, such agreement if they are not prepared to modify it in accordance with these recommendations.

(c) Any substantial change in the plan or schedule referred to in paragraph 5 (c) shall be communicated to the CONTRACTING PARTIES, which may request the contracting parties concerned to consult with them if the change seems likely to jeopardize or delay unduly the formation of the customs union or of the free-trade area.

8. For the purposes of this Agreement:

(a) A customs union shall be understood to mean the substitution of a single customs territory for two or more customs territories, so that

(i) duties and other restrictive regulations of commerce (except, where necessary, those permitted under Articles XI, XII, XIII, XIV, XV and XX) are eliminated with respect to substantially all the trade between the constituent territories of the union or at least with respect to substantially all the trade in products originating in such territories, and,

(ii) subject to the provisions of paragraph 9, substantially the same duties and other regulations of commerce are applied by each of the members of the union to the trade of territories not included in the union;

(b) A free-trade area shall be understood to mean a group of two or more customs territories in which the duties and other restrictive regulations of commerce (except, where necessary, those permitted under Articles XI, XII, XIII, XIV, XV and XX) are eliminated on substantially all the trade between the constituent territories in products originating in such territories.

9. The preferences referred to in paragraph 2 of Article I shall not be affected by the formation of a customs union or of a free-trade area but may be eliminated or adjusted by means of negotiations with contracting parties affected. This procedure of negotiations with affected contracting parties shall, in particular, apply to the elimination of preferences required to conform with the provisions of paragraph 8 (a)(i) and paragraph 8 (b).

[Ad Article XXIV]
Paragraph 9

*It is understood that the provisions of Article I would require that, when a product which has been imported into the territory of a member of a customs union or free-trade area at a preferential rate of duty is re-exported to the territory of another member of such union or area, the latter member should collect a duty equal to the difference between the duty already paid and any higher duty that would be payable if the product were being imported directly into its territory.*]

10. The CONTRACTING PARTIES may by a two-thirds majority approve proposals which do not fully comply with the requirements of paragraphs 5 to 9 inclusive, provided that such proposals lead to the formation of a customs union or a free-trade area in the sense of this Article.

11. Taking into account the exceptional circumstances arising out of the establishment of India and Pakistan as independent States and recognizing the fact that they have long constituted an economic unit, the contracting parties agree that the provisions of this Agreement shall not prevent the two countries from entering into special arrangements with respect to the trade between them, pending the establishment of their mutual trade relations on a definitive basis.

[Paragraph 11

*Measures adopted by India and Pakistan in order to carry out definitive trade arrangements between them, once they have been agreed upon, might depart from particular provisions of this Agreement, but these measures would in general be consistent with the objectives of the Agreement.*]

12. Each contracting party shall take such reasonable measures as may be available to it to ensure observance of the provisions of this Agreement by the regional and local governments and authorities within its territories.

[Understanding on the Interpretation of Article XXIV of the General Agreement on Tariffs and Trade 1994

Article XXIV:12

13. Each Member is fully responsible under GATT 1994 for the observance of all provisions of GATT 1994, and shall take such reasonable measures as may be available to it to ensure such observance by regional and local governments and authorities within its territory.*]

Article XXXIV

Annexes

The annexes to this Agreement are hereby made an integral part of this Agreement.
(ii) Agreement on Technical Barriers to Trade

[Members,

... ;

Desiring to further the objectives of GATT 1994;

Recognizing the important contribution that international standards and conformity assessment systems can make in this regard by improving efficiency of production and facilitating the conduct of international trade;

Desiring therefore to encourage the development of such international standards and conformity assessment systems;

Desiring however to ensure that technical regulations and standards, including packaging, marking and labelling requirements, and procedures for assessment of conformity with technical regulations and standards do not create unnecessary obstacles to international trade;

Recognizing that no country should be prevented from taking measures necessary to ensure the quality of its exports, or for the protection of human, animal or plant life or health, of the environment, or for the prevention of deceptive practices, at the levels it considers appropriate, subject to the requirement that they are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where the same conditions prevail or a disguised restriction on international trade, and are otherwise in accordance with the provisions of this Agreement;

---

9 Editor’s note: for texts of annexes see: www.wto.org.
10 Editor’s note: Annex I applies insofar as it refers to the WTO provisions applicable to the ECT. Text of Annex I is inserted in italics in square brackets after articles, to which the Notes and Supplementary Provisions of Annex I relate.
Recognizing that no country should be prevented from taking measures necessary for the protection of its essential security interest;

... ;

... ;

Hereby agree as follows:

**Article 1**

**General Provisions**

1.1 General terms for standardization and procedures for assessment of conformity shall normally have the meaning given to them by definitions adopted within the United Nations system and by international standardizing bodies taking into account their context and in the light of the object and purpose of this Agreement.

1.2 However, for the purposes of this Agreement the meaning of the terms given in Annex 1 applies.

1.4 Purchasing specifications prepared by governmental bodies for production or consumption requirements of governmental bodies are not subject to the provisions of this Agreement but are addressed in the Agreement on Government Procurement, according to its coverage.

1.5 The provisions of this Agreement do not apply to sanitary and phytosanitary measures as defined in Annex A of the Agreement on the Application of Sanitary and Phytosanitary Measures.

1.6 All references in this Agreement to technical regulations, standards and conformity assessment procedures shall be construed to include any amendments thereto and any additions to the rules or the product coverage thereof, except amendments and additions of an insignificant nature.

**TECHNICAL REGULATIONS AND STANDARDS**

**Article 2**

*Preparation, Adoption and Application of Technical Regulations by Central Government Bodies*

With respect to their central government bodies:

2.1 Members shall ensure that in respect of technical regulations, products imported from the territory of any Member shall be accorded treatment no less favourable than that accorded to like products of national origin and to like products originating in any other country.

2.2 Members shall ensure that technical regulations are not prepared, adopted
or applied with a view to or with the effect of creating unnecessary obstacles to international trade. For this purpose, technical regulations shall not be more trade-restrictive than necessary to fulfil a legitimate objective, taking account of the risks non-fulfilment would create. Such legitimate objectives are, inter alia: national security requirements; the prevention of deceptive practices; protection of human health or safety, animal or plant life or health, or the environment. In assessing such risks, relevant elements of consideration are, inter alia: available scientific and technical information, related processing technology or intended end-uses of products.

2.3 Technical regulations shall not be maintained if the circumstances or objectives giving rise to their adoption no longer exist or if the changed circumstances or objectives can be addressed in a less trade-restrictive manner.

2.4 Where technical regulations are required and relevant international standards exist or their completion is imminent, Members shall use them, or the relevant parts of them, as a basis for their technical regulations except when such international standards or relevant parts would be an ineffective or inappropriate means for the fulfilment of the legitimate objectives pursued, for instance because of fundamental climatic or geographical factors or fundamental technological problems.

2.5 A Member preparing, adopting or applying a technical regulation which may have a significant effect on trade of other Members shall, upon the request of another Member, explain the justification for that technical regulation in terms of the provisions of paragraphs 2 to 4. Whenever a technical regulation is prepared, adopted or applied for one of the legitimate objectives explicitly mentioned in paragraph 2, and is in accordance with relevant international standards, it shall be rebuttably presumed not to create an unnecessary obstacle to international trade.

2.6 With a view to harmonizing technical regulations on as wide a basis as possible, Members shall play a full part, within the limits of their resources, in the preparation by appropriate international standardizing bodies of international standards for products for which they either have adopted, or expect to adopt, technical regulations.

2.7 Members shall give positive consideration to accepting as equivalent technical regulations of other Members, even if these regulations differ from their own, provided they are satisfied that these regulations adequately fulfil the objectives of their own regulations.

2.8 Wherever appropriate, Members shall specify technical regulations based on product requirements in terms of performance rather than design or descriptive characteristics.

2.9 Whenever a relevant international standard does not exist or the technical content of a proposed technical regulation is not in accordance with the technical content of relevant international standards, and if the technical regulation may have a significant effect on trade of other Members, Members shall:

2.9.1 publish a notice in a publication at an early appropriate stage, in such a manner as to enable interested parties in other Members to become acquainted with it, that they propose to introduce a particular technical
2.9.2 notify other Members through the Secretariat of the products to be covered by the proposed technical regulation, together with a brief indication of its objective and rationale. Such notifications shall take place at an early appropriate stage, when amendments can still be introduced and comments taken into account;

2.9.3 upon request, provide to other Members particulars or copies of the proposed technical regulation and, whenever possible, identify the parts which in substance deviate from relevant international standards;

2.9.4 without discrimination, allow reasonable time for other Members to make comments in writing, discuss these comments upon request, and take these written comments and the results of these discussions into account.

2.10 Subject to the provisions in the lead-in to paragraph 9, where urgent problems of safety, health, environmental protection or national security arise or threaten to arise for a Member, that Member may omit such of the steps enumerated in paragraph 9 as it finds necessary, provided that the Member, upon adoption of a technical regulation, shall:

2.10.1 notify immediately other Members through the Secretariat of the particular technical regulation and the products covered, with a brief indication of the objective and the rationale of the technical regulation, including the nature of the urgent problems;

2.10.2 upon request, provide other Members with copies of the technical regulation;

2.10.3 without discrimination, allow other Members to present their comments in writing, discuss these comments upon request, and take these written comments and the results of these discussions into account.

2.11 Members shall ensure that all technical regulations which have been adopted are published promptly or otherwise made available in such a manner as to enable interested parties in other Members to become acquainted with them.

2.12 Except in those urgent circumstances referred to in paragraph 10, Members shall allow a reasonable interval between the publication of technical regulations and their entry into force in order to allow time for producers in exporting Members, and particularly in developing country Members, to adapt their products or methods of production to the requirements of the importing Member.

**Article 3**

*Preparation, Adoption and Application of Technical Regulations by Local Government Bodies and Non-Governmental Bodies*

With respect to their local government and non-governmental bodies within their territories:

3.1 Members shall take such reasonable measures as may be available to them
to ensure compliance by such bodies with the provisions of Article 2, with the exception of the obligation to notify as referred to in paragraphs 9.2 and 10.1 of Article 2.

3.2 Members shall ensure that the technical regulations of local governments on the level directly below that of the central government in Members are notified in accordance with the provisions of paragraphs 9.2 and 10.1 of Article 2, noting that notification shall not be required for technical regulations the technical content of which is substantially the same as that of previously notified technical regulations of central government bodies of the Member concerned.

3.3 Members may require contact with other Members, including the notifications, provision of information, comments and discussions referred to in paragraphs 9 and 10 of Article 2, to take place through the central government.

3.4 Members shall not take measures which require or encourage local government bodies or non-governmental bodies within their territories to act in a manner inconsistent with the provisions of Article 2.

3.5 Members are fully responsible under this Agreement for the observance of all provisions of Article 2. Members shall formulate and implement positive measures and mechanisms in support of the observance of the provisions of Article 2 by other than central government bodies.

**Article 4**

*Preparation, Adoption and Application of Standards*

4.1 Members shall ensure that their central government standardizing bodies accept and comply with the Code of Good Practice for the Preparation, Adoption and Application of Standards in Annex 3 to this Agreement (referred to in this Agreement as the "Code of Good Practice"). They shall take such reasonable measures as may be available to them to ensure that local government and non-governmental standardizing bodies within their territories, as well as regional standardizing bodies of which they or one or more bodies within their territories are members, accept and comply with this Code of Good Practice. In addition, Members shall not take measures which have the effect of, directly or indirectly, requiring or encouraging such standardizing bodies to act in a manner inconsistent with the Code of Good Practice. The obligations of Members with respect to compliance of standardizing bodies with the provisions of the Code of Good Practice shall apply irrespective of whether or not a standardizing body has accepted the Code of Good Practice.

4.2 Standardizing bodies that have accepted and are complying with the Code of Good Practice shall be acknowledged by the Members as complying with the principles of this Agreement.

**CONFORMITY WITH TECHNICAL REGULATIONS AND STANDARDS**

**Article 5**
Procedures for Assessment of Conformity by Central Government Bodies

5.1 Members shall ensure that, in cases where a positive assurance of conformity with technical regulations or standards is required, their central government bodies apply the following provisions to products originating in the territories of other Members:

5.1.1 conformity assessment procedures are prepared, adopted and applied so as to grant access for suppliers of like products originating in the territories of other Members under conditions no less favourable than those accorded to suppliers of like products of national origin or originating in any other country, in a comparable situation; access entails suppliers’ right to an assessment of conformity under the rules of the procedure, including, when foreseen by this procedure, the possibility to have conformity assessment activities undertaken at the site of facilities and to receive the mark of the system;

5.1.2 conformity assessment procedures are not prepared, adopted or applied with a view to or with the effect of creating unnecessary obstacles to international trade. This means, inter alia, that conformity assessment procedures shall not be more strict or be applied more strictly than is necessary to give the importing Member adequate confidence that products conform with the applicable technical regulations or standards, taking account of the risks non-conformity would create.

5.2 When implementing the provisions of paragraph 1, Members shall ensure that:

5.2.1 conformity assessment procedures are undertaken and completed as expeditiously as possible and in a no less favourable order for products originating in the territories of other Members than for like domestic products;

5.2.2 the standard processing period of each conformity assessment procedure is published or that the anticipated processing period is communicated to the applicant upon request; when receiving an application, the competent body promptly examines the completeness of the documentation and informs the applicant in a precise and complete manner of all deficiencies; the competent body transmits as soon as possible the results of the assessment in a precise and complete manner to the applicant so that corrective action may be taken if necessary; even when the application has deficiencies, the competent body proceeds as far as practicable with the conformity assessment if the applicant so requests; and that, upon request, the applicant is informed of the stage of the procedure, with any delay being explained;

5.2.3 information requirements are limited to what is necessary to assess conformity and determine fees;

5.2.4 the confidentiality of information about products originating in the territories of other Members arising from or supplied in connection with such conformity assessment procedures is respected in the same way as for domestic products and in such a manner that legitimate commercial
interests are protected;

5.2.5 any fees imposed for assessing the conformity of products originating in the territories of other Members are equitable in relation to any fees chargeable for assessing the conformity of like products of national origin or originating in any other country, taking into account communication, transportation and other costs arising from differences between location of facilities of the applicant and the conformity assessment body;

5.2.6 the siting of facilities used in conformity assessment procedures and the selection of samples are not such as to cause unnecessary inconvenience to applicants or their agents;

5.2.7 whenever specifications of a product are changed subsequent to the determination of its conformity to the applicable technical regulations or standards, the conformity assessment procedure for the modified product is limited to what is necessary to determine whether adequate confidence exists that the product still meets the technical regulations or standards concerned;

5.2.8 a procedure exists to review complaints concerning the operation of a conformity assessment procedure and to take corrective action when a complaint is justified.

5.3 Nothing in paragraphs 1 and 2 shall prevent Members from carrying out reasonable spot checks within their territories.

5.4 In cases where a positive assurance is required that products conform with technical regulations or standards, and relevant guides or recommendations issued by international standardizing bodies exist or their completion is imminent, Members shall ensure that central government bodies use them, or the relevant parts of them, as a basis for their conformity assessment procedures, except where, as duly explained upon request, such guides or recommendations or relevant parts are inappropriate for the Members concerned, for, inter alia, such reasons as: national security requirements; the prevention of deceptive practices; protection of human health or safety, animal or plant life or health, or the environment; fundamental climatic or other geographical factors; fundamental technological or infrastructural problems.

5.5 With a view to harmonizing conformity assessment procedures on as wide a basis as possible, Members shall play a full part, within the limits of their resources, in the preparation by appropriate international standardizing bodies of guides and recommendations for conformity assessment procedures.

5.6 Whenever a relevant guide or recommendation issued by an international standardizing body does not exist or the technical content of a proposed conformity assessment procedure is not in accordance with relevant guides and recommendations issued by international standardizing bodies, and if the conformity assessment procedure may have a significant effect on trade of other Members, Members shall:

5.6.1 publish a notice in a publication at an early appropriate stage, in
such a manner as to enable interested parties in other Members to become acquainted with it, that they propose to introduce a particular conformity assessment procedure;

5.6.2 notify other Members through the Secretariat of the products to be covered by the proposed conformity assessment procedure, together with a brief indication of its objective and rationale. Such notifications shall take place at an early appropriate stage, when amendments can still be introduced and comments taken into account;

5.6.3 upon request, provide to other Members particulars or copies of the proposed procedure and, whenever possible, identify the parts which in substance deviate from relevant guides or recommendations issued by international standardizing bodies;

5.6.4 without discrimination, allow reasonable time for other Members to make comments in writing, discuss these comments upon request, and take these written comments and the results of these discussions into account.

5.7 Subject to the provisions in the lead-in to paragraph 6, where urgent problems of safety, health, environmental protection or national security arise or threaten to arise for a Member, that Member may omit such of the steps enumerated in paragraph 6 as it finds necessary, provided that the Member, upon adoption of the procedure, shall:

5.7.1 notify immediately other Members through the Secretariat of the particular procedure and the products covered, with a brief indication of the objective and the rationale of the procedure, including the nature of the urgent problems;

5.7.2 upon request, provide other Members with copies of the rules of the procedure;

5.7.3 without discrimination, allow other Members to present their comments in writing, discuss these comments upon request, and take these written comments and the results of these discussions into account.

5.8 Members shall ensure that all conformity assessment procedures which have been adopted are published promptly or otherwise made available in such a manner as to enable interested parties in other Members to become acquainted with them.

5.9 Except in those urgent circumstances referred to in paragraph 7, Members shall allow a reasonable interval between the publication of requirements concerning conformity assessment procedures and their entry into force in order to allow time for producers in exporting Members, and particularly in developing country Members, to adapt their products or methods of production to the requirements of the importing Member.

**Article 6**

*Recognition of Conformity Assessment by Central Government Bodies*
With respect to their central government bodies:

6.1 Without prejudice to the provisions of paragraphs 3 and 4, Members shall ensure, whenever possible, that results of conformity assessment procedures in other Members are accepted, even when those procedures differ from their own, provided they are satisfied that those procedures offer an assurance of conformity with applicable technical regulations or standards equivalent to their own procedures. It is recognized that prior consultations may be necessary in order to arrive at a mutually satisfactory understanding regarding, in particular:

6.1.1 adequate and enduring technical competence of the relevant conformity assessment bodies in the exporting Member, so that confidence in the continued reliability of their conformity assessment results can exist; in this regard, verified compliance, for instance through accreditation, with relevant guides or recommendations issued by international standardizing bodies shall be taken into account as an indication of adequate technical competence;

6.1.2 limitation of the acceptance of conformity assessment results to those produced by designated bodies in the exporting Member.

6.2 Members shall ensure that their conformity assessment procedures permit, as far as practicable, the implementation of the provisions in paragraph 1.

6.3 Members are encouraged, at the request of other Members, to be willing to enter into negotiations for the conclusion of agreements for the mutual recognition of results of each other's conformity assessment procedures. Members may require that such agreements fulfil the criteria of paragraph 1 and give mutual satisfaction regarding their potential for facilitating trade in the products concerned.

6.4 Members are encouraged to permit participation of conformity assessment bodies located in the territories of other Members in their conformity assessment procedures under conditions no less favourable than those accorded to bodies located within their territory or the territory of any other country.

Article 7

Procedures for Assessment of Conformity by Local Government Bodies

With respect to their local government bodies within their territories:

7.1 Members shall take such reasonable measures as may be available to them to ensure compliance by such bodies with the provisions of Articles 5 and 6, with the exception of the obligation to notify as referred to in paragraphs 6.2 and 7.1 of Article 5.

7.2 Members shall ensure that the conformity assessment procedures of local governments on the level directly below that of the central government in Members are notified in accordance with the provisions of paragraphs 6.2 and 7.1 of Article 5, noting that notifications shall not be required for conformity assessment procedures the technical content of which is substantially the same as that of previously notified conformity assessment procedures of central government bodies of the Members concerned.
7.3 Members may require contact with other Members, including the notifications, provision of information, comments and discussions referred to in paragraphs 6 and 7 of Article 5, to take place through the central government.

7.4 Members shall not take measures which require or encourage local government bodies within their territories to act in a manner inconsistent with the provisions of Articles 5 and 6.

7.5 Members are fully responsible under this Agreement for the observance of all provisions of Articles 5 and 6. Members shall formulate and implement positive measures and mechanisms in support of the observance of the provisions of Articles 5 and 6 by other than central government bodies.

Article 8

Procedures for Assessment of Conformity by Non-Governmental Bodies

8.1 Members shall take such reasonable measures as may be available to them to ensure that non-governmental bodies within their territories which operate conformity assessment procedures comply with the provisions of Articles 5 and 6, with the exception of the obligation to notify proposed conformity assessment procedures. In addition, Members shall not take measures which have the effect of, directly or indirectly, requiring or encouraging such bodies to act in a manner inconsistent with the provisions of Articles 5 and 6.

8.2 Members shall ensure that their central government bodies rely on conformity assessment procedures operated by non-governmental bodies only if these latter bodies comply with the provisions of Articles 5 and 6, with the exception of the obligation to notify proposed conformity assessment procedures.

Article 9

International and Regional Systems

9.1 Where a positive assurance of conformity with a technical regulation or standard is required, Members shall, wherever practicable, formulate and adopt international systems for conformity assessment and become members thereof or participate therein.

9.2 Members shall take such reasonable measures as may be available to them to ensure that international and regional systems for conformity assessment in which relevant bodies within their territories are members or participants comply with the provisions of Articles 5 and 6. In addition, Members shall not take any measures which have the effect of, directly or indirectly, requiring or encouraging such systems to act in a manner inconsistent with any of the provisions of Articles 5 and 6.

9.3 Members shall ensure that their central government bodies rely on international or regional conformity assessment systems only to the extent that these systems comply with the provisions of Articles 5 and 6, as applicable.

INFORMATION AND ASSISTANCE
Article 10

Information About Technical Regulations, Standards and Conformity Assessment Procedures

10.1 Each Member shall ensure that an enquiry point exists which is able to answer all reasonable enquiries from other Members and interested parties in other Members as well as to provide the relevant documents regarding:

10.1.1 any technical regulations adopted or proposed within its territory by central or local government bodies, by non-governmental bodies which have legal power to enforce a technical regulation, or by regional standardizing bodies of which such bodies are members or participants;

10.1.2 any standards adopted or proposed within its territory by central or local government bodies, or by regional standardizing bodies of which such bodies are members or participants;

10.1.3 any conformity assessment procedures, or proposed conformity assessment procedures, which are operated within its territory by central or local government bodies, or by non-governmental bodies which have legal power to enforce a technical regulation, or by regional bodies of which such bodies are members or participants;

10.1.4 the membership and participation of the Member, or of relevant central or local government bodies within its territory, in international and regional standardizing bodies and conformity assessment systems, as well as in bilateral and multilateral arrangements within the scope of this Agreement; it shall also be able to provide reasonable information on the provisions of such systems and arrangements;

10.1.5 the location of notices published pursuant to this Agreement, or the provision of information as to where such information can be obtained; and

10.1.6 the location of the enquiry points mentioned in paragraph 3.

10.2 If, however, for legal or administrative reasons more than one enquiry point is established by a Member, that Member shall provide to the other Members complete and unambiguous information on the scope of responsibility of each of these enquiry points. In addition, that Member shall ensure that any enquiries addressed to an incorrect enquiry point shall promptly be conveyed to the correct enquiry point.

10.3 Each Member shall take such reasonable measures as may be available to it to ensure that one or more enquiry points exist which are able to answer all reasonable enquiries from other Members and interested parties in other Members as well as to provide the relevant documents or information as to where they can be obtained regarding:

10.3.1 any standards adopted or proposed within its territory by non-governmental standardizing bodies, or by regional standardizing bodies of which such bodies are members or participants; and
10.3.2 any conformity assessment procedures, or proposed conformity assessment procedures, which are operated within its territory by non-governmental bodies, or by regional bodies of which such bodies are members or participants;

10.3.3 the membership and participation of relevant non-governmental bodies within its territory in international and regional standardizing bodies and conformity assessment systems, as well as in bilateral and multilateral arrangements within the scope of this Agreement; they shall also be able to provide reasonable information on the provisions of such systems and arrangements.

10.4 Members shall take such reasonable measures as may be available to them to ensure that where copies of documents are requested by other Members or by interested parties in other Members, in accordance with the provisions of this Agreement, they are supplied at an equitable price (if any) which shall, apart from the real cost of delivery, be the same for the nationals\(^\text{11}\) of the Member concerned or of any other Member.

10.5 ... Members shall, if requested by other Members, provide, in English or\(^\text{12}\) Russian translations of the documents covered by a specific notification or, in case of voluminous documents, of summaries of such documents.

10.6 The Secretariat shall, when it receives notifications in accordance with the provisions of this Agreement, circulate copies of the notifications to all Members and interested international standardizing and conformity assessment bodies, ... .

10.7 Whenever a Member has reached an agreement with any other country or countries on issues related to technical regulations, standards or conformity assessment procedures which may have a significant effect on trade, at least one Member party to the agreement shall notify other Members through the Secretariat of the products to be covered by the agreement and include a brief description of the agreement. Members concerned are encouraged to enter, upon request, into consultations with other Members for the purposes of concluding similar agreements or of arranging for their participation in such agreements.

10.8 Nothing in this Agreement shall be construed as requiring:

10.8.1 the publication of texts other than in the language of the Member;

10.8.2 the provision of particulars or copies of drafts other than in the language of the Member except as stated in paragraph 5; or

10.8.3 Members to furnish any information, the disclosure of which they consider contrary to their essential security interests.

10.10 Members shall designate a single central government authority that is

---

\(^{11}\) “Nationals” here shall be deemed, in the case of a separate customs territory Member of the WTO, to mean persons, natural or legal, who are domiciled or who have a real and effective industrial or commercial establishment in that customs territory.

\(^{12}\) Editor’s note: “or” added; TBT Agreement states: “English, French or Spanish”
responsible for the implementation on the national level of the provisions concerning notification procedures under this Agreement except those included in Annex 3.

10.11 If, however, for legal or administrative reasons the responsibility for notification procedures is divided among two or more central government authorities, the Member concerned shall provide to the other Members complete and unambiguous information on the scope of responsibility of each of these authorities.

FINAL PROVISIONS

Article 15

Final Provisions

15.2 Each Member shall, promptly after the date on which the WTO Agreement enters into force for it, inform the Committee of measures in existence or taken to ensure the implementation and administration of this Agreement. Any changes of such measures thereafter shall also be notified to the Committee.

Annexes

15.5 The annexes to this Agreement constitute an integral part thereof.

ANNEX 1 Terms and Their Definitions for the Purpose of This Agreement

ANNEX 3 Code of Good Practice for the Preparation, Adoption and Application of Standards

(iii) Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade 1994

[Members hereby agree as follows:]

PART I

Article 1

Principles

An anti-dumping measure shall be applied only under the circumstances provided for in Article VI of GATT 1994 and pursuant to investigations initiated\(^\text{13}\) and conducted in accordance with the provisions of this Agreement. The following provisions govern the application of Article VI of GATT 1994 in so far as action is taken under anti-dumping legislation or regulations.

\(^{13}\) The term “initiated” as used in this Agreement means the procedural action by which a Member formally commences an investigation as provided in Article 5.
Article 2

Determination of Dumping

2.1 For the purpose of this Agreement, a product is to be considered as being dumped, i.e. introduced into the commerce of another country at less than its normal value, if the export price of the product exported from one country to another is less than the comparable price, in the ordinary course of trade, for the like product when destined for consumption in the exporting country.

2.2 When there are no sales of the like product in the ordinary course of trade in the domestic market of the exporting country or when, because of the particular market situation or the low volume of the sales in the domestic market of the exporting country, such sales do not permit a proper comparison, the margin of dumping shall be determined by comparison with a comparable price of the like product when exported to an appropriate third country, provided that this price is representative, or with the cost of production in the country of origin plus a reasonable amount for administrative, selling and general costs and for profits.

2.2.1 Sales of the like product in the domestic market of the exporting country or sales to a third country at prices below per unit (fixed and variable) costs of production plus administrative, selling and general costs may be treated as not being in the ordinary course of trade by reason of price and may be disregarded in determining normal value only if the authorities determine that such sales are made within an extended period of time in substantial quantities and are at prices which do not provide for the recovery of all costs within a reasonable period of time. If prices which are below per unit costs at the time of sale are above weighted average per unit costs for the period of investigation, such prices shall be considered to provide for recovery of costs within a reasonable period of time.

2.2.1.1 For the purpose of paragraph 2, costs shall normally be calculated on the basis of records kept by the exporter or producer under investigation, provided that such records are in accordance with the generally accepted accounting principles of the exporting country and reasonably reflect the costs associated with the production and sale of the product under consideration. Authorities shall consider all available evidence on the proper allocation of costs, including that which is made available in the course of the investigation provided that such

---

14 Sales of the like product destined for consumption in the domestic market of the exporting country shall normally be considered a sufficient quantity for the determination of the normal value if such sales constitute 5 per cent or more of the sales of the product under consideration to the importing Member, provided that a lower ratio should be acceptable where the evidence demonstrates that domestic sales at such lower ratio are nonetheless of sufficient magnitude to provide for a proper comparison.

15 When in this Agreement the term "authorities" is used, it shall be interpreted as meaning authorities at an appropriate senior level.

16 The extended period of time should normally be one year but shall in no case be less than six months.

17 Sales below per unit costs are made in substantial quantities when the authorities establish that the weighted average selling price of the transactions under consideration for the determination of the normal value is below the weighted average per unit costs, or that the volume of sales below per unit costs represents not less than 20 per cent of the volume sold in transactions under consideration for the determination of the normal value.
allocations have been historically utilized by the exporter or producer, in particular in relation to establishing appropriate amortization and depreciation periods and allowances for capital expenditures and other development costs. Unless already reflected in the cost allocations under this sub-paragraph, costs shall be adjusted appropriately for those non-recurring items of cost which benefit future and/or current production, or for circumstances in which costs during the period of investigation are affected by start-up operations.  

2.2.2 For the purpose of paragraph 2, the amounts for administrative, selling and general costs and for profits shall be based on actual data pertaining to production and sales in the ordinary course of trade of the like product by the exporter or producer under investigation. When such amounts cannot be determined on this basis, the amounts may be determined on the basis of:

(i) the actual amounts incurred and realized by the exporter or producer in question in respect of production and sales in the domestic market of the country of origin of the same general category of products;

(ii) the weighted average of the actual amounts incurred and realized by other exporters or producers subject to investigation in respect of production and sales of the like product in the domestic market of the country of origin;

(iii) any other reasonable method, provided that the amount for profit so established shall not exceed the profit normally realized by other exporters or producers on sales of products of the same general category in the domestic market of the country of origin.

2.3 In cases where there is no export price or where it appears to the authorities concerned that the export price is unreliable because of association or a compensatory arrangement between the exporter and the importer or a third party, the export price may be constructed on the basis of the price at which the imported products are first resold to an independent buyer, or if the products are not resold to an independent buyer, or not resold in the condition as imported, on such reasonable basis as the authorities may determine.

2.4 A fair comparison shall be made between the export price and the normal value. This comparison shall be made at the same level of trade, normally at the ex-factory level, and in respect of sales made at as nearly as possible the same time. Due allowance shall be made in each case, on its merits, for differences which affect price comparability, including differences in conditions and terms of sale, taxation, levels of trade, quantities, physical characteristics, and any other differences which are also demonstrated to affect price comparability. In the cases referred to in paragraph 3, allowances for costs, including duties and taxes,

18 The adjustment made for start-up operations shall reflect the costs at the end of the start-up period or, if that period extends beyond the period of investigation, the most recent costs which can reasonably be taken into account by the authorities during the investigation.

19 It is understood that some of the above factors may overlap, and authorities shall ensure that they do not duplicate adjustments that have been already made under this provision.
incurred between importation and resale, and for profits accruing, should also be made. If in these cases price comparability has been affected, the authorities shall establish the normal value at a level of trade equivalent to the level of trade of the constructed export price, or shall make due allowance as warranted under this paragraph. The authorities shall indicate to the parties in question what information is necessary to ensure a fair comparison and shall not impose an unreasonable burden of proof on those parties.

2.4.1 When the comparison under paragraph 4 requires a conversion of currencies, such conversion should be made using the rate of exchange on the date of sale\(^{20}\), provided that when a sale of foreign currency on forward markets is directly linked to the export sale involved, the rate of exchange in the forward sale shall be used. Fluctuations in exchange rates shall be ignored and in an investigation the authorities shall allow exporters at least 60 days to have adjusted their export prices to reflect sustained movements in exchange rates during the period of investigation.

2.4.2 Subject to the provisions governing fair comparison in paragraph 4, the existence of margins of dumping during the investigation phase shall normally be established on the basis of a comparison of a weighted average normal value with a weighted average of prices of all comparable export transactions or by a comparison of normal value and export prices on a transaction-to-transaction basis. A normal value established on a weighted average basis may be compared to prices of individual export transactions if the authorities find a pattern of export prices which differ significantly among different purchasers, regions or time periods, and if an explanation is provided as to why such differences cannot be taken into account appropriately by the use of a weighted average-to-weighted average or transaction-to-transaction comparison.

2.5 In the case where products are not imported directly from the country of origin but are exported to the importing Member from an intermediate country, the price at which the products are sold from the country of export to the importing Member shall normally be compared with the comparable price in the country of export. However, comparison may be made with the price in the country of origin, if, for example, the products are merely transshipped through the country of export, or such products are not produced in the country of export, or there is no comparable price for them in the country of export.

2.6 Throughout this Agreement the term "like product" ("produit similaire") shall be interpreted to mean a product which is identical, i.e. alike in all respects to the product under consideration, or in the absence of such a product, another product which, although not alike in all respects, has characteristics closely resembling those of the product under consideration.

2.7 This Article is without prejudice to the second Supplementary Provision to paragraph 1 of Article VI in Annex I to GATT 1994.

**Article 3**

\(^{20}\) Normally, the date of sale would be the date of contract, purchase order, order confirmation, or invoice, whichever establishes the material terms of sale.
Determination of Injury

3.1 A determination of injury for purposes of Article VI of GATT 1994 shall be based on positive evidence and involve an objective examination of both (a) the volume of the dumped imports and the effect of the dumped imports on prices in the domestic market for like products, and (b) the consequent impact of these imports on domestic producers of such products.

3.2 With regard to the volume of the dumped imports, the investigating authorities shall consider whether there has been a significant increase in dumped imports, either in absolute terms or relative to production or consumption in the importing Member. With regard to the effect of the dumped imports on prices, the investigating authorities shall consider whether there has been a significant price undercutting by the dumped imports as compared with the price of a like product of the importing Member, or whether the effect of such imports is otherwise to depress prices to a significant degree or prevent price increases, which otherwise would have occurred, to a significant degree. No one or several of these factors can necessarily give decisive guidance.

3.3 Where imports of a product from more than one country are simultaneously subject to anti-dumping investigations, the investigating authorities may cumulatively assess the effects of such imports only if they determine that (a) the margin of dumping established in relation to the imports from each country is more than de minimis as defined in paragraph 8 of Article 5 and the volume of imports from each country is not negligible and (b) a cumulative assessment of the effects of the imports is appropriate in light of the conditions of competition between the imported products and the conditions of competition between the imported products and the like domestic product.

3.4 The examination of the impact of the dumped imports on the domestic industry concerned shall include an evaluation of all relevant economic factors and indices having a bearing on the state of the industry, including actual and potential decline in sales, profits, output, market share, productivity, return on investments, or utilization of capacity; factors affecting domestic prices; the magnitude of the margin of dumping; actual and potential negative effects on cash flow, inventories, employment, wages, growth, ability to raise capital or investments. This list is not exhaustive, nor can one or several of these factors necessarily give decisive guidance.

3.5 It must be demonstrated that the dumped imports are, through the effects of dumping, as set forth in paragraphs 2 and 4, causing injury within the meaning of this Agreement. The demonstration of a causal relationship between the dumped imports and the injury to the domestic industry shall be based on an examination of all relevant evidence before the authorities. The authorities shall also examine any known factors other than the dumped imports which at the same time are injuring the domestic industry, and the injuries caused by these other factors must not be attributed to the dumped imports. Factors which may be relevant in this respect include, inter alia, the volume and prices of imports not sold at dumping prices, contraction in demand or changes in the patterns of consumption, trade restrictive

---

21 Under this Agreement the term "injury" shall, unless otherwise specified, be taken to mean material injury to a domestic industry, threat of material injury to a domestic industry or material retardation of the establishment of such an industry and shall be interpreted in accordance with the provisions of this Article.
practices of and competition between the foreign and domestic producers, developments in technology and the export performance and productivity of the domestic industry.

3.6 The effect of the dumped imports shall be assessed in relation to the domestic production of the like product when available data permit the separate identification of that production on the basis of such criteria as the production process, producers' sales and profits. If such separate identification of that production is not possible, the effects of the dumped imports shall be assessed by the examination of the production of the narrowest group or range of products, which includes the like product, for which the necessary information can be provided.

3.7 A determination of a threat of material injury shall be based on facts and not merely on allegation, conjecture or remote possibility. The change in circumstances which would create a situation in which the dumping would cause injury must be clearly foreseen and imminent. In making a determination regarding the existence of a threat of material injury, the authorities should consider, inter alia, such factors as:

(i) a significant rate of increase of dumped imports into the domestic market indicating the likelihood of substantially increased importation;

(ii) sufficient freely disposable, or an imminent, substantial increase in, capacity of the exporter indicating the likelihood of substantially increased dumped exports to the importing Member's market, taking into account the availability of other export markets to absorb any additional exports;

(iii) whether imports are entering at prices that will have a significant depressing or suppressing effect on domestic prices, and would likely increase demand for further imports; and

(iv) inventories of the product being investigated.

No one of these factors by itself can necessarily give decisive guidance but the totality of the factors considered must lead to the conclusion that further dumped exports are imminent and that, unless protective action is taken, material injury would occur.

3.8 With respect to cases where injury is threatened by dumped imports, the application of anti-dumping measures shall be considered and decided with special care.

Article 4

Definition of Domestic Industry

4.1 For the purposes of this Agreement, the term "domestic industry" shall be

---

22 One example, though not an exclusive one, is that there is convincing reason to believe that there will be, in the near future, substantially increased importation of the product at dumped prices.
interpreted as referring to the domestic producers as a whole of the like products or to those of them whose collective output of the products constitutes a major proportion of the total domestic production of those products, except that:

(i) when producers are related\textsuperscript{23} to the exporters or importers or are themselves importers of the allegedly dumped product, the term "domestic industry" may be interpreted as referring to the rest of the producers;

(ii) in exceptional circumstances the territory of a Member may, for the production in question, be divided into two or more competitive markets and the producers within each market may be regarded as a separate industry if (a) the producers within such market sell all or almost all of their production of the product in question in that market, and (b) the demand in that market is not to any substantial degree supplied by producers of the product in question located elsewhere in the territory. In such circumstances, injury may be found to exist even where a major portion of the total domestic industry is not injured, provided there is a concentration of dumped imports into such an isolated market and provided further that the dumped imports are causing injury to the producers of all or almost all of the production within such market.

4.2 When the domestic industry has been interpreted as referring to the producers in a certain area, i.e. a market as defined in paragraph 1(ii), anti-dumping duties shall be levied\textsuperscript{24} only on the products in question consigned for final consumption to that area. When the constitutional law of the importing Member does not permit the levying of anti-dumping duties on such a basis, the importing Member may levy the anti-dumping duties without limitation only if (a) the exporters shall have been given an opportunity to cease exporting at dumped prices to the area concerned or otherwise give assurances pursuant to Article 8 and adequate assurances in this regard have not been promptly given, and (b) such duties cannot be levied only on products of specific producers which supply the area in question.

4.3 Where two or more countries have reached under the provisions of paragraph 8(a) of Article XXIV of GATT 1994 such a level of integration that they have the characteristics of a single, unified market, the industry in the entire area of integration shall be taken to be the domestic industry referred to in paragraph 1.

4.4 The provisions of paragraph 6 of Article 3 shall be applicable to this Article.

\textbf{Article 5}

\textit{Initiation and Subsequent Investigation}

\textsuperscript{23} For the purpose of this paragraph, producers shall be deemed to be related to exporters or importers only if (a) one of them directly or indirectly controls the other; or (b) both of them are directly or indirectly controlled by a third person; or (c) together they directly or indirectly control a third person, provided that there are grounds for believing or suspecting that the effect of the relationship is such as to cause the producer concerned to behave differently from non-related producers. For the purpose of this paragraph, one shall be deemed to control another when the former is legally or operationally in a position to exercise restraint or direction over the latter.

\textsuperscript{24} As used in this Agreement "levy" shall mean the definitive or final legal assessment or collection of a duty or tax.
5.1 Except as provided for in paragraph 6, an investigation to determine the existence, degree and effect of any alleged dumping shall be initiated upon a written application by or on behalf of the domestic industry.

5.2 An application under paragraph 1 shall include evidence of (a) dumping, (b) injury within the meaning of Article VI of GATT 1994 as interpreted by this Agreement and (c) a causal link between the dumped imports and the alleged injury. Simple assertion, unsubstantiated by relevant evidence, cannot be considered sufficient to meet the requirements of this paragraph. The application shall contain such information as is reasonably available to the applicant on the following:

(i) the identity of the applicant and a description of the volume and value of the domestic production of the like product by the applicant. Where a written application is made on behalf of the domestic industry, the application shall identify the industry on behalf of which the application is made by a list of all known domestic producers of the like product (or associations of domestic producers of the like product) and, to the extent possible, a description of the volume and value of domestic production of the like product accounted for by such producers;

(ii) a complete description of the allegedly dumped product, the names of the country or countries of origin or export in question, the identity of each known exporter or foreign producer and a list of known persons importing the product in question;

(iii) information on prices at which the product in question is sold when destined for consumption in the domestic markets of the country or countries of origin or export (or, where appropriate, information on the prices at which the product is sold from the country or countries of origin or export to a third country or countries, or on the constructed value of the product) and information on export prices or, where appropriate, on the prices at which the product is first resold to an independent buyer in the territory of the importing Member;

(iv) information on the evolution of the volume of the allegedly dumped imports, the effect of these imports on prices of the like product in the domestic market and the consequent impact of the imports on the domestic industry, as demonstrated by relevant factors and indices having a bearing on the state of the domestic industry, such as those listed in paragraphs 2 and 4 of Article 3.

5.3 The authorities shall examine the accuracy and adequacy of the evidence provided in the application to determine whether there is sufficient evidence to justify the initiation of an investigation.

5.4 An investigation shall not be initiated pursuant to paragraph 1 unless the authorities have determined, on the basis of an examination of the degree of support
for, or opposition to, the application expressed\textsuperscript{25} by domestic producers of the like product, that the application has been made by or on behalf of the domestic industry.\textsuperscript{26} The application shall be considered to have been made “by or on behalf of the domestic industry” if it is supported by those domestic producers whose collective output constitutes more than 50 per cent of the total production of the like product produced by that portion of the domestic industry expressing either support for or opposition to the application. However, no investigation shall be initiated when domestic producers expressly supporting the application account for less than 25 per cent of total production of the like product produced by the domestic industry.

5.5 The authorities shall avoid, unless a decision has been made to initiate an investigation, any publicizing of the application for the initiation of an investigation. However, after receipt of a properly documented application and before proceeding to initiate an investigation, the authorities shall notify the government of the exporting Member concerned.

5.6 If, in special circumstances, the authorities concerned decide to initiate an investigation without having received a written application by or on behalf of a domestic industry for the initiation of such investigation, they shall proceed only if they have sufficient evidence of dumping, injury and a causal link, as described in paragraph 2, to justify the initiation of an investigation.

5.7 The evidence of both dumping and injury shall be considered simultaneously (a) in the decision whether or not to initiate an investigation, and (b) thereafter, during the course of the investigation, starting on a date not later than the earliest date on which in accordance with the provisions of this Agreement provisional measures may be applied.

5.8 An application under paragraph 1 shall be rejected and an investigation shall be terminated promptly as soon as the authorities concerned are satisfied that there is not sufficient evidence of either dumping or of injury to justify proceeding with the case. There shall be immediate termination in cases where the authorities determine that the margin of dumping is de minimis, or that the volume of dumped imports, actual or potential, or the injury, is negligible. The margin of dumping shall be considered to be de minimis if this margin is less than 2 per cent, expressed as a percentage of the export price. The volume of dumped imports shall normally be regarded as negligible if the volume of dumped imports from a particular country is found to account for less than 3 per cent of imports of the like product in the importing Member, unless countries which individually account for less than 3 per cent of the imports of the like product in the importing Member collectively account for more than 7 per cent of imports of the like product in the importing Member.

5.9 An anti-dumping proceeding shall not hinder the procedures of customs clearance.

5.10 Investigations shall, except in special circumstances, be concluded within

\textsuperscript{25} In the case of fragmented industries involving an exceptionally large number of producers, authorities may determine support and opposition by using statistically valid sampling techniques.

\textsuperscript{26} Members are aware that in the territory of certain Members employees of domestic producers of the like product or representatives of those employees may make or support an application for an investigation under paragraph 1.
one year, and in no case more than 18 months, after their initiation.

**Article 6**

**Evidence**

6.1 All interested parties in an anti-dumping investigation shall be given notice of the information which the authorities require and ample opportunity to present in writing all evidence which they consider relevant in respect of the investigation in question.

6.1.1 Exporters or foreign producers receiving questionnaires used in an anti-dumping investigation shall be given at least 30 days for reply. Due consideration should be given to any request for an extension of the 30-day period and, upon cause shown, such an extension should be granted whenever practicable.

6.1.2 Subject to the requirement to protect confidential information, evidence presented in writing by one interested party shall be made available promptly to other interested parties participating in the investigation.

6.1.3 As soon as an investigation has been initiated, the authorities shall provide the full text of the written application received under paragraph 1 of Article 5 to the known exporters and to the authorities of the exporting Member and shall make it available, upon request, to other interested parties involved. Due regard shall be paid to the requirement for the protection of confidential information, as provided for in paragraph 5.

6.2 Throughout the anti-dumping investigation all interested parties shall have a full opportunity for the defence of their interests. To this end, the authorities shall, on request, provide opportunities for all interested parties to meet those parties with adverse interests, so that opposing views may be presented and rebuttal arguments offered. Provision of such opportunities must take account of the need to preserve confidentiality and of the convenience to the parties. There shall be no obligation on any party to attend a meeting, and failure to do so shall not be prejudicial to that party's case. Interested parties shall also have the right, on justification, to present other information orally.

6.3 Oral information provided under paragraph 2 shall be taken into account by the authorities only in so far as it is subsequently reproduced in writing and made available to other interested parties, as provided for in subparagraph 1.2.

6.4 The authorities shall whenever practicable provide timely opportunities for all interested parties to see all information that is relevant to the presentation of

---

27 As a general rule, the time-limit for exporters shall be counted from the date of receipt of the questionnaire, which for this purpose shall be deemed to have been received one week from the date on which it was sent to the respondent or transmitted to the appropriate diplomatic representative of the exporting Member or, in the case of a separate customs territory Member of the WTO, an official representative of the exporting territory.

28 It being understood that, where the number of exporters involved is particularly high, the full text of the written application should instead be provided only to the authorities of the exporting Member or to the relevant trade association.
their cases, that is not confidential as defined in paragraph 5, and that is used by the authorities in an anti-dumping investigation, and to prepare presentations on the basis of this information.

6.5 Any information which is by nature confidential (for example, because its disclosure would be of significant competitive advantage to a competitor or because its disclosure would have a significantly adverse effect upon a person supplying the information or upon a person from whom that person acquired the information), or which is provided on a confidential basis by parties to an investigation shall, upon good cause shown, be treated as such by the authorities. Such information shall not be disclosed without specific permission of the party submitting it.29

6.5.1 The authorities shall require interested parties providing confidential information to furnish non-confidential summaries thereof. These summaries shall be in sufficient detail to permit a reasonable understanding of the substance of the information submitted in confidence. In exceptional circumstances, such parties may indicate that such information is not susceptible of summary. In such exceptional circumstances, a statement of the reasons why summarization is not possible must be provided.

6.5.2 If the authorities find that a request for confidentiality is not warranted and if the supplier of the information is either unwilling to make the information public or to authorize its disclosure in generalized or summary form, the authorities may disregard such information unless it can be demonstrated to their satisfaction from appropriate sources that the information is correct.30

6.6 Except in circumstances provided for in paragraph 8, the authorities shall during the course of an investigation satisfy themselves as to the accuracy of the information supplied by interested parties upon which their findings are based.

6.7 In order to verify information provided or to obtain further details, the authorities may carry out investigations in the territory of other Members as required, provided they obtain the agreement of the firms concerned and notify the representatives of the government of the Member in question, and unless that Member objects to the investigation. The procedures described in Annex I shall apply to investigations carried out in the territory of other Members. Subject to the requirement to protect confidential information, the authorities shall make the results of any such investigations available, or shall provide disclosure thereof pursuant to paragraph 9, to the firms to which they pertain and may make such results available to the applicants.

6.8 In cases in which any interested party refuses access to, or otherwise does not provide, necessary information within a reasonable period or significantly impedes the investigation, preliminary and final determinations, affirmative or negative, may be made on the basis of the facts available. The provisions of Annex II shall be observed in the application of this paragraph.

29 Members are aware that in the territory of certain Members disclosure pursuant to a narrowly-drawn protective order may be required.
30 Members agree that requests for confidentiality should not be arbitrarily rejected.
6.9 The authorities shall, before a final determination is made, inform all interested parties of the essential facts under consideration which form the basis for the decision whether to apply definitive measures. Such disclosure should take place in sufficient time for the parties to defend their interests.

6.10 The authorities shall, as a rule, determine an individual margin of dumping for each known exporter or producer concerned of the product under investigation. In cases where the number of exporters, producers, importers or types of products involved is so large as to make such a determination impracticable, the authorities may limit their examination either to a reasonable number of interested parties or products by using samples which are statistically valid on the basis of information available to the authorities at the time of the selection, or to the largest percentage of the volume of the exports from the country in question which can reasonably be investigated.

6.10.1 Any selection of exporters, producers, importers or types of products made under this paragraph shall preferably be chosen in consultation with and with the consent of the exporters, producers or importers concerned.

6.10.2 In cases where the authorities have limited their examination, as provided for in this paragraph, they shall nevertheless determine an individual margin of dumping for any exporter or producer not initially selected who submits the necessary information in time for that information to be considered during the course of the investigation, except where the number of exporters or producers is so large that individual examinations would be unduly burdensome to the authorities and prevent the timely completion of the investigation. Voluntary responses shall not be discouraged.

6.11 For the purposes of this Agreement, "interested parties" shall include:

(i) an exporter or foreign producer or the importer of a product subject to investigation, or a trade or business association a majority of the members of which are producers, exporters or importers of such product;

(ii) the government of the exporting Member; and

(iii) a producer of the like product in the importing Member or a trade and business association a majority of the members of which produce the like product in the territory of the importing Member.

This list shall not preclude Members from allowing domestic or foreign parties other than those mentioned above to be included as interested parties.

6.12 The authorities shall provide opportunities for industrial users of the product under investigation, and for representative consumer organizations in cases where the product is commonly sold at the retail level, to provide information which is relevant to the investigation regarding dumping, injury and causality.

6.13 The authorities shall take due account of any difficulties experienced by interested parties, in particular small companies, in supplying information
requested, and shall provide any assistance practicable.

6.14 The procedures set out above are not intended to prevent the authorities of a Member from proceeding expeditiously with regard to initiating an investigation, reaching preliminary or final determinations, whether affirmative or negative, or from applying provisional or final measures, in accordance with relevant provisions of this Agreement.

Article 7

Provisional Measures

7.1 Provisional measures may be applied only if:

(i) an investigation has been initiated in accordance with the provisions of Article 5, a public notice has been given to that effect and interested parties have been given adequate opportunities to submit information and make comments;

(ii) a preliminary affirmative determination has been made of dumping and consequent injury to a domestic industry; and

(iii) the authorities concerned judge such measures necessary to prevent injury being caused during the investigation.

7.2 Provisional measures may take the form of a provisional duty or, preferably, a security - by cash deposit or bond - equal to the amount of the anti-dumping duty provisionally estimated, being not greater than the provisionally estimated margin of dumping. Withholding of appraisement is an appropriate provisional measure, provided that the normal duty and the estimated amount of the anti-dumping duty be indicated and as long as the withholding of appraisement is subject to the same conditions as other provisional measures.

7.3 Provisional measures shall not be applied sooner than 60 days from the date of initiation of the investigation.

7.4 The application of provisional measures shall be limited to as short a period as possible, not exceeding four months or, on decision of the authorities concerned, upon request by exporters representing a significant percentage of the trade involved, to a period not exceeding six months. When authorities, in the course of an investigation, examine whether a duty lower than the margin of dumping would be sufficient to remove injury, these periods may be six and nine months, respectively.

7.5 The relevant provisions of Article 9 shall be followed in the application of provisional measures.

Article 8

Price Undertakings
8.1 Proceedings may\(^{31}\) be suspended or terminated without the imposition of provisional measures or anti-dumping duties upon receipt of satisfactory voluntary undertakings from any exporter to revise its prices or to cease exports to the area in question at dumped prices so that the authorities are satisfied that the injurious effect of the dumping is eliminated. Price increases under such undertakings shall not be higher than necessary to eliminate the margin of dumping. It is desirable that the price increases be less than the margin of dumping if such increases would be adequate to remove the injury to the domestic industry.

8.2 Price undertakings shall not be sought or accepted from exporters unless the authorities of the importing Member have made a preliminary affirmative determination of dumping and injury caused by such dumping.

8.3 Undertakings offered need not be accepted if the authorities consider their acceptance impractical, for example, if the number of actual or potential exporters is too great, or for other reasons, including reasons of general policy. Should the case arise and where practicable, the authorities shall provide to the exporter the reasons which have led them to consider acceptance of an undertaking as inappropriate, and shall, to the extent possible, give the exporter an opportunity to make comments thereon.

8.4 If an undertaking is accepted, the investigation of dumping and injury shall nevertheless be completed if the exporter so desires or the authorities so decide. In such a case, if a negative determination of dumping or injury is made, the undertaking shall automatically lapse, except in cases where such a determination is due in large part to the existence of a price undertaking. In such cases, the authorities may require that an undertaking be maintained for a reasonable period consistent with the provisions of this Agreement. In the event that an affirmative determination of dumping and injury is made, the undertaking shall continue consistent with its terms and the provisions of this Agreement.

8.5 Price undertakings may be suggested by the authorities of the importing Member, but no exporter shall be forced to enter into such undertakings. The fact that exporters do not offer such undertakings, or do not accept an invitation to do so, shall in no way prejudice the consideration of the case. However, the authorities are free to determine that a threat of injury is more likely to be realized if the dumped imports continue.

8.6 Authorities of an importing Member may require any exporter from whom an undertaking has been accepted to provide periodically information relevant to the fulfilment of such an undertaking and to permit verification of pertinent data. In case of violation of an undertaking, the authorities of the importing Member may take, under this Agreement in conformity with its provisions, expeditious actions which may constitute immediate application of provisional measures using the best information available. In such cases, definitive duties may be levied in accordance with this Agreement on products entered for consumption not more than 90 days before the application of such provisional measures, except that any such retroactive assessment shall not apply to imports entered before the violation of the undertaking.

\(^{31}\) The word "may" shall not be interpreted to allow the simultaneous continuation of proceedings with the implementation of price undertakings except as provided in paragraph 4.
Article 9

Imposition and Collection of Anti-Dumping Duties

9.1 The decision whether or not to impose an anti-dumping duty in cases where all requirements for the imposition have been fulfilled, and the decision whether the amount of the anti-dumping duty to be imposed shall be the full margin of dumping or less, are decisions to be made by the authorities of the importing Member. It is desirable that the imposition be permissive in the territory of all Members, and that the duty be less than the margin if such lesser duty would be adequate to remove the injury to the domestic industry.

9.2 When an anti-dumping duty is imposed in respect of any product, such anti-dumping duty shall be collected in the appropriate amounts in each case, on a non-discriminatory basis on imports of such product from all sources found to be dumped and causing injury, except as to imports from those sources from which price undertakings under the terms of this Agreement have been accepted. The authorities shall name the supplier or suppliers of the product concerned. If, however, several suppliers from the same country are involved, and it is impracticable to name all these suppliers, the authorities may name the supplying country concerned. If several suppliers from more than one country are involved, the authorities may name either all the suppliers involved, or, if this is impracticable, all the supplying countries involved.

9.3 The amount of the anti-dumping duty shall not exceed the margin of dumping as established under Article 2.

9.3.1 When the amount of the anti-dumping duty is assessed on a retrospective basis, the determination of the final liability for payment of anti-dumping duties shall take place as soon as possible, normally within 12 months, and in no case more than 18 months, after the date on which a request for a final assessment of the amount of the anti-dumping duty has been made. Any refund shall be made promptly and normally in not more than 90 days following the determination of final liability made pursuant to this sub-paragraph. In any case, where a refund is not made within 90 days, the authorities shall provide an explanation if so requested.

9.3.2 When the amount of the anti-dumping duty is assessed on a prospective basis, provision shall be made for a prompt refund, upon request, of any duty paid in excess of the margin of dumping. A refund of any such duty paid in excess of the actual margin of dumping shall normally take place within 12 months, and in no case more than 18 months, after the date on which a request for a refund, duly supported by evidence, has been made by an importer of the product subject to the anti-dumping duty. The refund authorized should normally be made within 90 days of the above-noted decision.

32 It is understood that the observance of the time-limits mentioned in this subparagraph and in subparagraph 3.2 may not be possible where the product in question is subject to judicial review proceedings.
9.3.3 In determining whether and to what extent a reimbursement should be made when the export price is constructed in accordance with paragraph 3 of Article 2, authorities should take account of any change in normal value, any change in costs incurred between importation and resale, and any movement in the resale price which is duly reflected in subsequent selling prices, and should calculate the export price with no deduction for the amount of anti-dumping duties paid when conclusive evidence of the above is provided.

9.4 When the authorities have limited their examination in accordance with the second sentence of paragraph 10 of Article 6, any anti-dumping duty applied to imports from exporters or producers not included in the examination shall not exceed:

(i) the weighted average margin of dumping established with respect to the selected exporters or producers or,

(ii) where the liability for payment of anti-dumping duties is calculated on the basis of a prospective normal value, the difference between the weighted average normal value of the selected exporters or producers and the export prices of exporters or producers not individually examined,

provided that the authorities shall disregard for the purpose of this paragraph any zero and de minimis margins and margins established under the circumstances referred to in paragraph 8 of Article 6. The authorities shall apply individual duties or normal values to imports from any exporter or producer not included in the examination who has provided the necessary information during the course of the investigation, as provided for in subparagraph 10.2 of Article 6.

9.5 If a product is subject to anti-dumping duties in an importing Member, the authorities shall promptly carry out a review for the purpose of determining individual margins of dumping for any exporters or producers in the exporting country in question who have not exported the product to the importing Member during the period of investigation, provided that these exporters or producers can show that they are not related to any of the exporters or producers in the exporting country who are subject to the anti-dumping duties on the product. Such a review shall be initiated and carried out on an accelerated basis, compared to normal duty assessment and review proceedings in the importing Member. No anti-dumping duties shall be levied on imports from such exporters or producers while the review is being carried out. The authorities may, however, withhold appraisement and/or request guarantees to ensure that, should such a review result in a determination of dumping in respect of such producers or exporters, anti-dumping duties can be levied retroactively to the date of the initiation of the review.

Article 10

Retroactivity

10.1 Provisional measures and anti-dumping duties shall only be applied to products which enter for consumption after the time when the decision taken under paragraph 1 of Article 7 and paragraph 1 of Article 9, respectively, enters into force, subject to the exceptions set out in this Article.
10.2 Where a final determination of injury (but not of a threat thereof or of a material retardation of the establishment of an industry) is made or, in the case of a final determination of a threat of injury, where the effect of the dumped imports would, in the absence of the provisional measures, have led to a determination of injury, anti-dumping duties may be levied retroactively for the period for which provisional measures, if any, have been applied.

10.3 If the definitive anti-dumping duty is higher than the provisional duty paid or payable, or the amount estimated for the purpose of the security, the difference shall not be collected. If the definitive duty is lower than the provisional duty paid or payable, or the amount estimated for the purpose of the security, the difference shall be reimbursed or the duty recalculated, as the case may be.

10.4 Except as provided in paragraph 2, where a determination of threat of injury or material retardation is made (but no injury has yet occurred) a definitive anti-dumping duty may be imposed only from the date of the determination of threat of injury or material retardation, and any cash deposit made during the period of the application of provisional measures shall be refunded and any bonds released in an expeditious manner.

10.5 Where a final determination is negative, any cash deposit made during the period of the application of provisional measures shall be refunded and any bonds released in an expeditious manner.

10.6 A definitive anti-dumping duty may be levied on products which were entered for consumption not more than 90 days prior to the date of application of provisional measures, when the authorities determine for the dumped product in question that:

(i) there is a history of dumping which caused injury or that the importer was, or should have been, aware that the exporter practises dumping and that such dumping would cause injury, and

(ii) the injury is caused by massive dumped imports of a product in a relatively short time which in light of the timing and the volume of the dumped imports and other circumstances (such as a rapid build-up of inventories of the imported product) is likely to seriously undermine the remedial effect of the definitive anti-dumping duty to be applied, provided that the importers concerned have been given an opportunity to comment.

10.7 The authorities may, after initiating an investigation, take such measures as the withholding of appraisement or assessment as may be necessary to collect anti-dumping duties retroactively, as provided for in paragraph 6, once they have sufficient evidence that the conditions set forth in that paragraph are satisfied.

10.8 No duties shall be levied retroactively pursuant to paragraph 6 on products entered for consumption prior to the date of initiation of the investigation.

Article 11
11.1 An anti-dumping duty shall remain in force only as long as and to the extent necessary to counteract dumping which is causing injury.

11.2 The authorities shall review the need for the continued imposition of the duty, where warranted, on their own initiative or, provided that a reasonable period of time has elapsed since the imposition of the definitive anti-dumping duty, upon request by any interested party which submits positive information substantiating the need for a review. Interested parties shall have the right to request the authorities to examine whether the continued imposition of the duty is necessary to offset dumping, whether the injury would be likely to continue or recur if the duty were removed or varied, or both. If, as a result of the review under this paragraph, the authorities determine that the anti-dumping duty is no longer warranted, it shall be terminated immediately.

11.3 Notwithstanding the provisions of paragraphs 1 and 2, any definitive anti-dumping duty shall be terminated on a date not later than five years from its imposition (or from the date of the most recent review under paragraph 2 if that review has covered both dumping and injury, or under this paragraph), unless the authorities determine, in a review initiated before that date on their own initiative or upon a duly substantiated request made by or on behalf of the domestic industry within a reasonable period of time prior to that date, that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and injury. The duty may remain in force pending the outcome of such a review.

11.4 The provisions of Article 6 regarding evidence and procedure shall apply to any review carried out under this Article. Any such review shall be carried out expeditiously and shall normally be concluded within 12 months of the date of initiation of the review.

11.5 The provisions of this Article shall apply mutatis mutandis to price undertakings accepted under Article 8.

**Article 12**

**Public Notice and Explanation of Determinations**

12.1 When the authorities are satisfied that there is sufficient evidence to justify the initiation of an anti-dumping investigation pursuant to Article 5, the Member or Members the products of which are subject to such investigation and other interested parties known to the investigating authorities to have an interest therein shall be notified and a public notice shall be given.

12.1.1 A public notice of the initiation of an investigation shall contain, or otherwise make available through a separate report, adequate

---

A determination of final liability for payment of anti-dumping duties, as provided for in paragraph 3 of Article 9, does not by itself constitute a review within the meaning of this Article.

When the amount of the anti-dumping duty is assessed on a retrospective basis, a finding in the most recent assessment proceeding under subparagraph 3.1 of Article 9 that no duty is to be levied shall not by itself require the authorities to terminate the definitive duty.

Where authorities provide information and explanations under the provisions of this Article in a separate report, they shall ensure that such report is readily available to the public.
information on the following:

(i) the name of the exporting country or countries and the product involved;

(ii) the date of initiation of the investigation;

(iii) the basis on which dumping is alleged in the application;

(iv) a summary of the factors on which the allegation of injury is based;

(v) the address to which representations by interested parties should be directed;

(vi) the time-limits allowed to interested parties for making their views known.

12.2 Public notice shall be given of any preliminary or final determination, whether affirmative or negative, of any decision to accept an undertaking pursuant to Article 8, of the termination of such an undertaking, and of the termination of a definitive anti-dumping duty. Each such notice shall set forth, or otherwise make available through a separate report, in sufficient detail the findings and conclusions reached on all issues of fact and law considered material by the investigating authorities. All such notices and reports shall be forwarded to the Member or Members the products of which are subject to such determination or undertaking and to other interested parties known to have an interest therein.

12.2.1 A public notice of the imposition of provisional measures shall set forth, or otherwise make available through a separate report, sufficiently detailed explanations for the preliminary determinations on dumping and injury and shall refer to the matters of fact and law which have led to arguments being accepted or rejected. Such a notice or report shall, due regard being paid to the requirement for the protection of confidential information, contain in particular:

(i) the names of the suppliers, or when this is impracticable, the supplying countries involved;

(ii) a description of the product which is sufficient for customs purposes;

(iii) the margins of dumping established and a full explanation of the reasons for the methodology used in the establishment and comparison of the export price and the normal value under Article 2;

(iv) considerations relevant to the injury determination as set out in Article 3;

(v) the main reasons leading to the determination.

12.2.2 A public notice of conclusion or suspension of an investigation in
the case of an affirmative determination providing for the imposition of a definitive duty or the acceptance of a price undertaking shall contain, or otherwise make available through a separate report, all relevant information on the matters of fact and law and reasons which have led to the imposition of final measures or the acceptance of a price undertaking, due regard being paid to the requirement for the protection of confidential information. In particular, the notice or report shall contain the information described in subparagraph 2.1, as well as the reasons for the acceptance or rejection of relevant arguments or claims made by the exporters and importers, and the basis for any decision made under subparagraph 10.2 of Article 6.

12.2.3 A public notice of the termination or suspension of an investigation following the acceptance of an undertaking pursuant to Article 8 shall include, or otherwise make available through a separate report, the non-confidential part of this undertaking.

12.3 The provisions of this Article shall apply mutatis mutandis to the initiation and completion of reviews pursuant to Article 11 and to decisions under Article 10 to apply duties retroactively.

**Article 13**

**Judicial Review**

Each Member whose national legislation contains provisions on anti-dumping measures shall maintain judicial, arbitral or administrative tribunals or procedures for the purpose, inter alia, of the prompt review of administrative actions relating to final determinations and reviews of determinations within the meaning of Article 11. Such tribunals or procedures shall be independent of the authorities responsible for the determination or review in question.

**Article 14**

**Anti-Dumping Action on Behalf of a Third Country**

14.1 An application for anti-dumping action on behalf of a third country shall be made by the authorities of the third country requesting action.

14.2 Such an application shall be supported by price information to show that the imports are being dumped and by detailed information to show that the alleged dumping is causing injury to the domestic industry concerned in the third country. The government of the third country shall afford all assistance to the authorities of the importing country to obtain any further information which the latter may require.

14.3 In considering such an application, the authorities of the importing country shall consider the effects of the alleged dumping on the industry concerned as a whole in the third country; that is to say, the injury shall not be assessed in relation only to the effect of the alleged dumping on the industry's exports to the importing country or even on the industry's total exports.
14.4 The decision whether or not to proceed with a case shall rest with the importing country. If the importing country decides that it is prepared to take action, the initiation of the approach to the Council for Trade in Goods seeking its approval for such action shall rest with the importing country.

PART III

Article 18

Final Provisions

18.1 No specific action against dumping of exports from another Member can be taken except in accordance with the provisions of GATT 1994, as interpreted by this Agreement.\(^{36}\)

18.3 Subject to subparagraphs 3.1 and 3.2, the provisions of this Agreement shall apply to investigations, and reviews of existing measures, initiated pursuant to applications which have been made on or after the date of entry into force for a Member of the WTO Agreement.

18.3.1 With respect to the calculation of margins of dumping in refund procedures under paragraph 3 of Article 9, the rules used in the most recent determination or review of dumping shall apply.

18.3.2 For the purposes of paragraph 3 of Article 11, existing anti-dumping measures shall be deemed to be imposed on a date not later than the date of entry into force for a Member of the WTO Agreement, except in cases in which the domestic legislation of a Member in force on that date already included a clause of the type provided for in that paragraph.

18.4 Each Member shall take all necessary steps, of a general or particular character, to ensure, not later than the date of entry into force of the WTO Agreement for it, the conformity of its laws, regulations and administrative procedures with the provisions of this Agreement as they may apply for the Member in question.

18.5 Each Member shall inform the Committee of any changes in its laws and regulations relevant to this Agreement and in the administration of such laws and regulations.

18.7 The Annexes to this Agreement constitute an integral part thereof.

ANNEX I Procedures for on-the-Spot Investigations Pursuant to Paragraph 7 or Article 6

ANNEX II Best Information Available in Terms of Paragraph 8 of Article 6

\(^{36}\) This is not intended to preclude action under other relevant provisions of GATT 1994, as appropriate.
(iv) Agreement on Implementation of Article VII of the General Agreement on
Tariffs and Trade 1994

[GENERAL INTRODUCTORY COMMENTARY]

1. The primary basis for customs value under this Agreement is “transaction value” as defined in Article 1. Article 1 is to be read together with Article 8 which provides, inter alia, for adjustments to the price actually paid or payable in cases where certain specific elements which are considered to form a part of the value for customs purposes are incurred by the buyer but are not included in the price actually paid or payable for the imported goods. Article 8 also provides for the inclusion in the transaction value of certain considerations which may pass from the buyer to the seller in the form of specified goods or services rather than in the form of money. Articles 2 through 7 provide methods of determining the customs value whenever it cannot be determined under the provisions of Article 1.

2. Where the customs value cannot be determined under the provisions of Article 1 there should normally be a process of consultation between the customs administration and importer with a view to arriving at a basis of value under the provisions of Article 2 or 3. It may occur, for example, that the importer has information about the customs value of identical or similar imported goods which is not immediately available to the customs administration in the port of importation. On the other hand, the customs administration may have information about the customs value of identical or similar imported goods which is not readily available to the importer. A process of consultation between the two parties will enable information to be exchanged, subject to the requirements of commercial confidentiality, with a view to determining a proper basis of value for customs purposes.

3. Articles 5 and 6 provide two bases for determining the customs value where it cannot be determined on the basis of the transaction value of the imported goods or of identical or similar imported goods. Under paragraph 1 of Article 5 the customs value is determined on the basis of the price at which the goods are sold in the condition as imported to an unrelated buyer in the country of importation. The importer also has the right to have goods which are further processed after importation valued under the provisions of Article 5 if the importer so requests. Under Article 6 the customs value is determined on the basis of the computed value. Both these methods present certain difficulties and because of this the importer is given the right, under the provisions of Article 4, to choose the order of application of the two methods.

4. Article 7 sets out how to determine the customs value in cases where it cannot be determined under the provisions of any of the preceding Articles.]

[Members,

Having regard to the Multilateral Trade Negotiations;

Desiring to further the objectives of GATT ...;

Recognizing the importance of the provisions of Article VII of GATT 1994 and desiring to elaborate rules for their application in order to provide greater
uniformity and certainty in their implementation;

Recognizing the need for a fair, uniform and neutral system for the valuation of goods for customs purposes that precludes the use of arbitrary or fictitious customs values;

Recognizing that the basis for valuation of goods for customs purposes should, to the greatest extent possible, be the transaction value of the goods being valued;

Recognizing that customs value should be based on simple and equitable criteria consistent with commercial practices and that valuation procedures should be of general application without distinction between sources of supply;

Recognizing that valuation procedures should not be used to combat dumping;

Hereby agree as follows:

PART I

RULES ON CUSTOMS VALUATION

Article 1

1. The customs value of imported goods shall be the transaction value, that is the price actually paid or payable for the goods when sold for export to the country of importation adjusted in accordance with the provisions of Article 8, provided:

   (a) that there are no restrictions as to the disposition or use of the goods by the buyer other than restrictions which:

       (i) are imposed or required by law or by the public authorities in the country of importation;

       (ii) limit the geographical area in which the goods may be resold; or

       (iii) do not substantially affect the value of the goods;

   (b) that the sale or price is not subject to some condition or consideration for which a value cannot be determined with respect to the goods being valued;

   (c) that no part of the proceeds of any subsequent resale, disposal or use of the goods by the buyer will accrue directly or indirectly to the seller, unless an appropriate adjustment can be made in accordance with the provisions of Article 8; and

   (d) that the buyer and seller are not related, or where the buyer and seller are related, that the transaction value is acceptable for customs purposes under the provisions of paragraph 2.

2. (a) In determining whether the transaction value is acceptable for the purposes of paragraph 1, the fact that the buyer and the seller are
related within the meaning of Article 15 shall not in itself be grounds for regarding the transaction value as unacceptable. In such case the circumstances surrounding the sale shall be examined and the transaction value shall be accepted provided that the relationship did not influence the price. If, in the light of information provided by the importer or otherwise, the customs administration has grounds for considering that the relationship influenced the price, it shall communicate its grounds to the importer and the importer shall be given a reasonable opportunity to respond. If the importer so requests, the communication of the grounds shall be in writing.

(b) In a sale between related persons, the transaction value shall be accepted and the goods valued in accordance with the provisions of paragraph 1 whenever the importer demonstrates that such value closely approximates to one of the following occurring at or about the same time:

(i) the transaction value in sales to unrelated buyers of identical or similar goods for export to the same country of importation;

(ii) the customs value of identical or similar goods as determined under the provisions of Article 5;

(iii) the customs value of identical or similar goods as determined under the provisions of Article 6;

In applying the foregoing tests, due account shall be taken of demonstrated differences in commercial levels, quantity levels, the elements enumerated in Article 8 and costs incurred by the seller in sales in which the seller and the buyer are not related that are not incurred by the seller in sales in which the seller and the buyer are related.

(c) The tests set forth in paragraph 2(b) are to be used at the initiative of the importer and only for comparison purposes. Substitute values may not be established under the provisions of paragraph 2(b).

Article 2

1. (a) If the customs value of the imported goods cannot be determined under the provisions of Article 1, the customs value shall be the transaction value of identical goods sold for export to the same country of importation and exported at or about the same time as the goods being valued.

(b) In applying this Article, the transaction value of identical goods in a sale at the same commercial level and in substantially the same quantity as the goods being valued shall be used to determine the customs value. Where no such sale is found, the transaction value of identical goods sold at a different commercial level and/or in different quantities, adjusted to take account of differences attributable to commercial level and/or to quantity, shall be used, provided that such adjustments can be made on the basis of
demonstrated evidence which clearly establishes the reasonableness and accuracy of the adjustment, whether the adjustment leads to an increase or a decrease in the value.

2. Where the costs and charges referred to in paragraph 2 of Article 8 are included in the transaction value, an adjustment shall be made to take account of significant differences in such costs and charges between the imported goods and the identical goods in question arising from differences in distances and modes of transport.

3. If, in applying this Article, more than one transaction value of identical goods is found, the lowest such value shall be used to determine the customs value of the imported goods.

**Article 3**

1. (a) If the customs value of the imported goods cannot be determined under the provisions of Articles 1 and 2, the customs value shall be the transaction value of similar goods sold for export to the same country of importation and exported at or about the same time as the goods being valued.

   (b) In applying this Article, the transaction value of similar goods in a sale at the same commercial level and in substantially the same quantity as the goods being valued shall be used to determine the customs value. Where no such sale is found, the transaction value of similar goods sold at a different commercial level and/or in different quantities, adjusted to take account of differences attributable to commercial level and/or to quantity, shall be used, provided that such adjustments can be made on the basis of demonstrated evidence which clearly establishes the reasonableness and accuracy of the adjustment, whether the adjustment leads to an increase or a decrease in the value.

2. Where the costs and charges referred to in paragraph 2 of Article 8 are included in the transaction value, an adjustment shall be made to take account of significant differences in such costs and charges between the imported goods and the similar goods in question arising from differences in distances and modes of transport.

3. If, in applying this Article, more than one transaction value of similar goods is found, the lowest such value shall be used to determine the customs value of the imported goods.

**Article 4**

If the customs value of the imported goods cannot be determined under the provisions of Articles 1, 2 and 3, the customs value shall be determined under the provisions of Article 5 or, when the customs value cannot be determined under that Article, under the provisions of Article 6 except that, at the request of the importer, the order of application of Articles 5 and 6 shall be reversed.
Article 5

1. (a) If the imported goods or identical or similar imported goods are sold in the country of importation in the condition as imported, the customs value of the imported goods under the provisions of this Article shall be based on the unit price at which the imported goods or identical or similar imported goods are so sold in the greatest aggregate quantity, at or about the time of the importation of the goods being valued, to persons who are not related to the persons from whom they buy such goods, subject to deductions for the following:

(i) either the commissions usually paid or agreed to be paid or the additions usually made for profit and general expenses in connection with sales in such country of imported goods of the same class or kind;

(ii) the usual costs of transport and insurance and associated costs incurred within the country of importation;

(iii) where appropriate, the costs and charges referred to in paragraph 2 of Article 8; and

(iv) the customs duties and other national taxes payable in the country of importation by reason of the importation or sale of the goods.

(b) If neither the imported goods nor identical nor similar imported goods are sold at or about the time of importation of the goods being valued, the customs value shall, subject otherwise to the provisions of paragraph 1(a), be based on the unit price at which the imported goods or identical or similar imported goods are sold in the country of importation in the condition as imported at the earliest date after the importation of the goods being valued but before the expiration of 90 days after such importation.

2. If neither the imported goods nor identical nor similar imported goods are sold in the country of importation in the condition as imported, then, if the importer so requests, the customs value shall be based on the unit price at which the imported goods, after further processing, are sold in the greatest aggregate quantity to persons in the country of importation who are not related to the persons from whom they buy such goods, due allowance being made for the value added by such processing and the deductions provided for in paragraph 1(a).

Article 6

1. The customs value of imported goods under the provisions of this Article shall be based on a computed value. Computed value shall consist of the sum of:

(a) the cost or value of materials and fabrication or other processing employed in producing the imported goods;
(b) an amount for profit and general expenses equal to that usually reflected in sales of goods of the same class or kind as the goods being valued which are made by producers in the country of exportation for export to the country of importation;

(c) the cost or value of all other expenses necessary to reflect the valuation option chosen by the Member under paragraph 2 of Article 8.

2. No Member may require or compel any person not resident in its own territory to produce for examination, or to allow access to, any account or other record for the purposes of determining a computed value. However, information supplied by the producer of the goods for the purposes of determining the customs value under the provisions of this Article may be verified in another country by the authorities of the country of importation with the agreement of the producer and provided they give sufficient advance notice to the government of the country in question and the latter does not object to the investigation.

Article 7

1. If the customs value of the imported goods cannot be determined under the provisions of Articles 1 through 6, inclusive, the customs value shall be determined using reasonable means consistent with the principles and general provisions of this Agreement and of Article VII of GATT 1994 and on the basis of data available in the country of importation.

2. No customs value shall be determined under the provisions of this Article on the basis of:

(a) the selling price in the country of importation of goods produced in such country;

(b) a system which provides for the acceptance for customs purposes of the higher of two alternative values;

(c) the price of goods on the domestic market of the country of exportation;

(d) the cost of production other than computed values which have been determined for identical or similar goods in accordance with the provisions of Article 6;

(e) the price of the goods for export to a country other than the country of importation;

(f) minimum customs values; or

(g) arbitrary or fictitious values.

3. If the importer so requests, the importer shall be informed in writing of the customs value determined under the provisions of this Article and the method used to determine such value.
Article 8

1. In determining the customs value under the provisions of Article 1, there shall be added to the price actually paid or payable for the imported goods:

(a) the following, to the extent that they are incurred by the buyer but are not included in the price actually paid or payable for the goods:

   (i) commissions and brokerage, except buying commissions;
   
   (ii) the cost of containers which are treated as being one for customs purposes with the goods in question;
   
   (iii) the cost of packing whether for labour or materials;

(b) the value, apportioned as appropriate, of the following goods and services where supplied directly or indirectly by the buyer free of charge or at reduced cost for use in connection with the production and sale for export of the imported goods, to the extent that such value has not been included in the price actually paid or payable:

   (i) materials, components, parts and similar items incorporated in the imported goods;
   
   (ii) tools, dies, moulds and similar items used in the production of the imported goods;
   
   (iii) materials consumed in the production of the imported goods;
   
   (iv) engineering, development, artwork, design work, and plans and sketches undertaken elsewhere than in the country of importation and necessary for the production of the imported goods;

(c) royalties and licence fees related to the goods being valued that the buyer must pay, either directly or indirectly, as a condition of sale of the goods being valued, to the extent that such royalties and fees are not included in the price actually paid or payable;

(d) the value of any part of the proceeds of any subsequent resale, disposal or use of the imported goods that accrues directly or indirectly to the seller.

2. In framing its legislation, each Member shall provide for the inclusion in or the exclusion from the customs value, in whole or in part, of the following:

(a) the cost of transport of the imported goods to the port or place of importation;

(b) loading, unloading and handling charges associated with the transport of the imported goods to the port or place of importation; and
(c) the cost of insurance.

3. Additions to the price actually paid or payable shall be made under this Article only on the basis of objective and quantifiable data.

4. No additions shall be made to the price actually paid or payable in determining the customs value except as provided in this Article.

**Article 9**

1. Where the conversion of currency is necessary for the determination of the customs value, the rate of exchange to be used shall be that duly published by the competent authorities of the country of importation concerned and shall reflect as effectively as possible, in respect of the period covered by each such document of publication, the current value of such currency in commercial transactions in terms of the currency of the country of importation.

2. The conversion rate to be used shall be that in effect at the time of exportation or the time of importation, as provided by each Member.

**Article 10**

All information which is by nature confidential or which is provided on a confidential basis for the purposes of customs valuation shall be treated as strictly confidential by the authorities concerned who shall not disclose it without the specific permission of the person or government providing such information, except to the extent that it may be required to be disclosed in the context of judicial proceedings.

**Article 11**

1. The legislation of each Member shall provide in regard to a determination of customs value for the right of appeal, without penalty, by the importer or any other person liable for the payment of the duty.

2. An initial right of appeal without penalty may be to an authority within the customs administration or to an independent body, but the legislation of each Member shall provide for the right of appeal without penalty to a judicial authority.

3. Notice of the decision on appeal shall be given to the appellant and the reasons for such decision shall be provided in writing. The appellant shall also be informed of any rights of further appeal.

**Article 12**

Laws, regulations, judicial decisions and administrative rulings of general application giving effect to this Agreement shall be published in conformity with Article X of GATT 1994 by the country of importation concerned.

**Article 13**

If, in the course of determining the customs value of imported goods, it becomes necessary to delay the final determination of such customs value, the importer of
the goods shall nevertheless be able to withdraw them from customs if, where so required, the importer provides sufficient guarantee in the form of a surety, a deposit or some other appropriate instrument, covering the ultimate payment of customs duties for which the goods may be liable. The legislation of each Member shall make provisions for such circumstances.

**Article 14**

The notes at Annex I to this Agreement form an integral part of this Agreement and the Articles of this Agreement are to be read and applied in conjunction with their respective notes. Annex III paragraphs 6 and 737 also form an integral part of this Agreement.

**Article 15**

1. In this Agreement:

   (a) "customs value of imported goods" means the value of goods for the purposes of levying ad valorem duties of customs on imported goods;

   (b) "country of importation" means country or customs territory of importation; and

   (c) "produced" includes grown, manufactured and mined.

2. In this Agreement:

   (a) "identical goods" means goods which are the same in all respects, including physical characteristics, quality and reputation. Minor differences in appearance would not preclude goods otherwise conforming to the definition from being regarded as identical;

   (b) "similar goods" means goods which, although not alike in all respects, have like characteristics and like component materials which enable them to perform the same functions and to be commercially interchangeable. The quality of the goods, their reputation and the existence of a trademark are among the factors to be considered in determining whether goods are similar;

   (c) the terms "identical goods" and "similar goods" do not include, as the case may be, goods which incorporate or reflect engineering, development, artwork, design work, and plans and sketches for which no adjustment has been made under paragraph 1(b)(iv) of Article 8 because such elements were undertaken in the country of importation;

   (d) goods shall not be regarded as "identical goods" or "similar goods" unless they were produced in the same country as the goods being valued;

37 Editor’s note: Original text states “second sentence except as far as it refers to Annex III paragraphs 6 and 7” as not applicable.
goods produced by a different person shall be taken into account only when there are no identical goods or similar goods, as the case may be, produced by the same person as the goods being valued.

3. In this Agreement "goods of the same class or kind" means goods which fall within a group or range of goods produced by a particular industry or industry sector, and includes identical or similar goods.

4. For the purposes of this Agreement, persons shall be deemed to be related only if:

   (a) they are officers or directors of one another's businesses;
   (b) they are legally recognized partners in business;
   (c) they are employer and employee;
   (d) any person directly or indirectly owns, controls or holds 5 per cent or more of the outstanding voting stock or shares of both of them;
   (e) one of them directly or indirectly controls the other;
   (f) both of them are directly or indirectly controlled by a third person;
   (g) together they directly or indirectly control a third person; or
   (h) they are members of the same family.

5. Persons who are associated in business with one another in that one is the sole agent, sole distributor or sole concessionaire, however described, of the other shall be deemed to be related for the purposes of this Agreement if they fall within the criteria of paragraph 4.

**Article 16**

Upon written request, the importer shall have the right to an explanation in writing from the customs administration of the country of importation as to how the customs value of the importer’s goods was determined.

**Article 17**

Nothing in this Agreement shall be construed as restricting or calling into question the rights of customs administrations to satisfy themselves as to the truth or accuracy of any statement, document or declaration presented for customs valuation purposes.

**Article 22**

National Legislation

1. Each Member shall ensure, not later than the date of application of the provisions of this Agreement for it, the conformity of its laws, regulations and
administrative procedures with the provisions of this Agreement.

2. Each Member shall inform the Committee of any changes in its laws and regulations relevant to this Agreement and in the administration of such laws and regulations.

ANNEX I Interpretative Notes

ANNEX III Extra Provisions, paragraphs 6 and 7

(v) Agreement on Preshipment Inspection

[Members,

Noting that Ministers on 20 September 1986 agreed that the Uruguay Round of Multilateral Trade Negotiations shall aim to "bring about further liberalization and expansion of world trade", "strengthen the role of GATT" and "increase the responsiveness of the GATT system to the evolving international economic environment";

… ;

… ;

Mindful that such programmes must be carried out without giving rise to unnecessary delays or unequal treatment;

Noting that this inspection is by definition carried out on the territory of exporter Members;

Recognizing the need to establish an agreed international framework of rights and obligations of both user Members and exporter Members;

Recognizing that the principles and obligations of GATT 1994 apply to those activities of preshipment inspection entities that are mandated by governments that are Members of the WTO;

Recognizing that it is desirable to provide transparency of the operation of preshipment inspection entities and of laws and regulations relating to preshipment inspection;

Desiring to provide for the speedy, effective and equitable resolution of disputes between exporters and preshipment inspection entities arising under this Agreement;

Hereby agree as follows:]

Article 1

Coverage - Definitions

38 Editor’s note: only paragraphs 6 and 7 of this Annex III are applicable to the ECT.
1. This Agreement shall apply to all preshipment inspection activities carried
out on the territory of Members, whether such activities are contracted or mandated
by the government, or any government body, of a Member.

2. The term "user Member" means a Member of which the government or any
government body contracts for or mandates the use of preshipment inspection
activities.

3. Preshipment inspection activities are all activities relating to the verification
of the quality, the quantity, the price, including currency exchange rate and
financial terms, and/or the customs classification of goods to be exported to the
territory of the user Member.

4. The term "preshipment inspection entity" is any entity contracted or
mandated by a Member to carry out preshipment inspection activities. 39

Article 2

Obligations of User Members

Non-discrimination

1. User Members shall ensure that preshipment inspection activities are
carried out in a non-discriminatory manner, and that the procedures and criteria
employed in the conduct of these activities are objective and are applied on an
equal basis to all exporters affected by such activities. They shall ensure uniform
performance of inspection by all the inspectors of the preshipment inspection
entities contracted or mandated by them.

Governmental Requirements

2. User Members shall ensure that in the course of preshipment inspection
activities relating to their laws, regulations and requirements, the provisions of
paragraph 4 of Article III of GATT 1994 are respected to the extent that these are
relevant.

Site of Inspection

3. User Members shall ensure that all preshipment inspection activities,
including the issuance of a Clean Report of Findings or a note of non-issuance, are
performed in the customs territory from which the goods are exported or, if the
inspection cannot be carried out in that customs territory given the complex nature
of the products involved, or if both parties agree, in the customs territory in which
the goods are manufactured.

Standards

4. User Members shall ensure that quantity and quality inspections are

39 It is understood that this provision does not obligate Members to allow government entities of other Members to
conduct preshipment inspection activities on their territory.
performed in accordance with the standards defined by the seller and the buyer in the purchase agreement and that, in the absence of such standards, relevant international standards\textsuperscript{40} apply.

\textit{Transparency}

5. User Members shall ensure that preshipment inspection activities are conducted in a transparent manner.

6. User Members shall ensure that, when initially contacted by exporters, preshipment inspection entities provide to the exporters a list of all the information which is necessary for the exporters to comply with inspection requirements. The preshipment inspection entities shall provide the actual information when so requested by exporters. This information shall include a reference to the laws and regulations of user Members relating to preshipment inspection activities, and shall also include the procedures and criteria used for inspection and for price and currency exchange-rate verification purposes, the exporters' rights vis-à-vis the inspection entities, and the appeals procedures set up under paragraph 21. Additional procedural requirements or changes in existing procedures shall not be applied to a shipment unless the exporter concerned is informed of these changes at the time the inspection date is arranged. However, in emergency situations of the types addressed by Articles XX and XXI of GATT 1994, such additional requirements or changes may be applied to a shipment before the exporter has been informed. This assistance shall not, however, relieve exporters from their obligations in respect of compliance with the import regulations of the user Members.

7. User Members shall ensure that the information referred to in paragraph 6 is made available to exporters in a convenient manner, and that the preshipment inspection offices maintained by preshipment inspection entities serve as information points where this information is available.

8. User Members shall publish promptly all applicable laws and regulations relating to preshipment inspection activities in such a manner as to enable other governments and traders to become acquainted with them.

\textit{Protection of Confidential Business Information}

9. User Members shall ensure that preshipment inspection entities treat all information received in the course of the preshipment inspection as business confidential to the extent that such information is not already published, generally available to third parties, or otherwise in the public domain. User Members shall ensure that preshipment inspection entities maintain procedures to this end.

10. User Members shall provide information to Members on request on the measures they are taking to give effect to paragraph 9. The provisions of this paragraph shall not require any Member to disclose confidential information the disclosure of which would jeopardize the effectiveness of the preshipment inspection programmes or would prejudice the legitimate commercial interest of particular enterprises, public or private.

\textsuperscript{40} An international standard is a standard adopted by a governmental or non-governmental body whose membership is open to all Members, one of whose recognized activities is in the field of standardization.
11. User Members shall ensure that preshipment inspection entities do not divulge confidential business information to any third party, except that preshipment inspection entities may share this information with the government entities that have contracted or mandated them. User Members shall ensure that confidential business information which they receive from preshipment inspection entities contracted or mandated by them is adequately safeguarded. Preshipment inspection entities shall share confidential business information with the governments contracting or mandating them only to the extent that such information is customarily required for letters of credit or other forms of payment or for customs, import licensing or exchange control purposes.

12. User Members shall ensure that preshipment inspection entities do not request exporters to provide information regarding:

(a) manufacturing data related to patented, licensed or undisclosed processes, or to processes for which a patent is pending;

(b) unpublished technical data other than data necessary to demonstrate compliance with technical regulations or standards;

(c) internal pricing, including manufacturing costs;

(d) profit levels;

(e) the terms of contracts between exporters and their suppliers unless it is not otherwise possible for the entity to conduct the inspection in question. In such cases, the entity shall only request the information necessary for this purpose.

13. The information referred to in paragraph 12, which preshipment inspection entities shall not otherwise request, may be released voluntarily by the exporter to illustrate a specific case.

Conflicts of Interest

14. User Members shall ensure that preshipment inspection entities, bearing in mind also the provisions on protection of confidential business information in paragraphs 9 through 13, maintain procedures to avoid conflicts of interest:

(a) between preshipment inspection entities and any related entities of the preshipment inspection entities in question, including any entities in which the latter have a financial or commercial interest or any entities which have a financial interest in the preshipment inspection entities in question, and whose shipments the preshipment inspection entities are to inspect;

(b) between preshipment inspection entities and any other entities, including other entities subject to preshipment inspection, with the exception of the government entities contracting or mandating the inspections;

(c) with divisions of preshipment inspection entities engaged in
activities other than those required to carry out the inspection process.

**Delays**

15. User Members shall ensure that preshipment inspection entities avoid unreasonable delays in inspection of shipments. User Members shall ensure that, once a preshipment inspection entity and an exporter agree on an inspection date, the preshipment inspection entity conducts the inspection on that date unless it is rescheduled on a mutually agreed basis between the exporter and the preshipment inspection entity, or the preshipment inspection entity is prevented from doing so by the exporter or by force majeure.\(^\text{41}\)

16. User Members shall ensure that, following receipt of the final documents and completion of the inspection, preshipment inspection entities, within five working days, either issue a Clean Report of Findings or provide a detailed written explanation specifying the reasons for non-issuance. User Members shall ensure that, in the latter case, preshipment inspection entities give exporters the opportunity to present their views in writing and, if exporters so request, arrange for re-inspection at the earliest mutually convenient date.

17. User Members shall ensure that, whenever so requested by the exporters, preshipment inspection entities undertake, prior to the date of physical inspection, a preliminary verification of price and, where applicable, of currency exchange rate, on the basis of the contract between exporter and importer, the pro forma invoice and, where applicable, the application for import authorization. User Members shall ensure that a price or currency exchange rate that has been accepted by a preshipment inspection entity on the basis of such preliminary verification is not withdrawn, providing the goods conform to the import documentation and/or import licence. They shall ensure that, after a preliminary verification has taken place, preshipment inspection entities immediately inform exporters in writing either of their acceptance or of their detailed reasons for non-acceptance of the price and/or currency exchange rate.

18. User Members shall ensure that, in order to avoid delays in payment, preshipment inspection entities send to exporters or to designated representatives of the exporters a Clean Report of Findings as expeditiously as possible.

19. User Members shall ensure that, in the event of a clerical error in the Clean Report of Findings, preshipment inspection entities correct the error and forward the corrected information to the appropriate parties as expeditiously as possible.

**Price Verification**

20. User Members shall ensure that, in order to prevent over- and under-invoicing and fraud, preshipment inspection entities conduct price verification\(^\text{42}\) according to the following guidelines:

\(^{41}\) It is understood that, for the purposes of this Agreement, “force majeure” shall mean "irresistible compulsion or coercion, unforeseeable course of events excusing from fulfilment of contract".

\(^{42}\) The obligations of user Members with respect to the services of preshipment inspection entities in connection with customs valuation shall be the obligations which they have accepted in GATT 1994 and the other Multilateral Trade Agreements included in Annex 1A of the WTO Agreement.
(a) preshipment inspection entities shall only reject a contract price agreed between an exporter and an importer if they can demonstrate that their findings of an unsatisfactory price are based on a verification process which is in conformity with the criteria set out in subparagraphs (b) through (e);

(b) the preshipment inspection entity shall base its price comparison for the verification of the export price on the price(s) of identical or similar goods offered for export from the same country of exportation at or about the same time, under competitive and comparable conditions of sale, in conformity with customary commercial practices and net of any applicable standard discounts. Such comparison shall be based on the following:

(i) only prices providing a valid basis of comparison shall be used, taking into account the relevant economic factors pertaining to the country of importation and a country or countries used for price comparison;

(ii) the preshipment inspection entity shall not rely upon the price of goods offered for export to different countries of importation to arbitrarily impose the lowest price upon the shipment;

(iii) the preshipment inspection entity shall take into account the specific elements listed in subparagraph (c);

(iv) at any stage in the process described above, the preshipment inspection entity shall provide the exporter with an opportunity to explain the price;

(c) when conducting price verification, preshipment inspection entities shall make appropriate allowances for the terms of the sales contract and generally applicable adjusting factors pertaining to the transaction; these factors shall include but not be limited to the commercial level and quantity of the sale, delivery periods and conditions, price escalation clauses, quality specifications, special design features, special shipping or packing specifications, order size, spot sales, seasonal influences, licence or other intellectual property fees, and services rendered as part of the contract if these are not customarily invoiced separately; they shall also include certain elements relating to the exporter's price, such as the contractual relationship between the exporter and importer;

(d) the verification of transportation charges shall relate only to the agreed price of the mode of transport in the country of exportation as indicated in the sales contract;

(e) the following shall not be used for price verification purposes:

(i) the selling price in the country of importation of goods produced in such country;
(ii) the price of goods for export from a country other than the country of exportation;

(iii) the cost of production;

(iv) arbitrary or fictitious prices or values.

Appeals Procedures

21. User Members shall ensure that preshipment inspection entities establish procedures to receive, consider and render decisions concerning grievances raised by exporters, and that information concerning such procedures is made available to exporters in accordance with the provisions of paragraphs 6 and 7. User Members shall ensure that the procedures are developed and maintained in accordance with the following guidelines:

(a) preshipment inspection entities shall designate one or more officials who shall be available during normal business hours in each city or port in which they maintain a preshipment inspection administrative office to receive, consider and render decisions on exporters’ appeals or grievances;

(b) exporters shall provide in writing to the designated official(s) the facts concerning the specific transaction in question, the nature of the grievance and a suggested solution;

(c) the designated official(s) shall afford sympathetic consideration to exporters’ grievances and shall render a decision as soon as possible after receipt of the documentation referred to in subparagraph (b).

Derogation

22. By derogation to the provisions of Article 2, user Members shall provide that, with the exception of part shipments, shipments whose value is less than a minimum value applicable to such shipments as defined by the user Member shall not be inspected, except in exceptional circumstances. This minimum value shall form part of the information furnished to exporters under the provisions of paragraph 6.

Article 3

Obligations of Exporter Members

Non-discrimination

1. Exporter Members shall ensure that their laws and regulations relating to preshipment inspection activities are applied in a non-discriminatory manner.

Transparency

2. Exporter Members shall publish promptly all applicable laws and regulations relating to preshipment inspection activities in such a manner as to enable other governments and traders to become acquainted with them.
Article 4

Independent Review Procedures

Members shall encourage preshipment inspection entities and exporters mutually to resolve their disputes. However, two working days after submission of the grievance in accordance with the provisions of paragraph 21 of Article 2, either party may refer the dispute to independent review. Members shall take such reasonable measures as may be available to them to ensure that the following procedures are established and maintained to this end:

(a) these procedures shall be administered by an independent entity constituted jointly by an organization representing preshipment inspection entities and an organization representing exporters for the purposes of this Agreement;

(b) the independent entity referred to in subparagraph (a) shall establish a list of experts as follows:

(i) a section of members nominated by an organization representing preshipment inspection entities;

(ii) a section of members nominated by an organization representing exporters;

(iii) a section of independent trade experts, nominated by the independent entity referred to in subparagraph (a).

The geographical distribution of the experts on this list shall be such as to enable any disputes raised under these procedures to be dealt with expeditiously. This list shall be drawn up within two months of the entry into force of the WTO Agreement and shall be updated annually. The list shall be publicly available. It shall be notified to the Secretariat and circulated to all Members;

(c) an exporter or preshipment inspection entity wishing to raise a dispute shall contact the independent entity referred to in subparagraph (a) and request the formation of a panel. The independent entity shall be responsible for establishing a panel. This panel shall consist of three members. The members of the panel shall be chosen so as to avoid unnecessary costs and delays. The first member shall be chosen from section (i) of the above list by the preshipment inspection entity concerned, provided that this member is not affiliated to that entity. The second member shall be chosen from section (ii) of the above list by the exporter concerned, provided that this member is not affiliated to that exporter. The third member shall be chosen from section (iii) of the above list by the independent entity referred to in subparagraph (a). No objections shall be made to any independent trade expert drawn from section (iii) of the above list;
(d) the independent trade expert drawn from section (iii) of the above list shall serve as the chairman of the panel. The independent trade expert shall take the necessary decisions to ensure an expeditious settlement of the dispute by the panel, for instance, whether the facts of the case require the panelists to meet and, if so, where such a meeting shall take place, taking into account the site of the inspection in question;

(e) if the parties to the dispute so agree, one independent trade expert could be selected from section (iii) of the above list by the independent entity referred to in subparagraph (a) to review the dispute in question. This expert shall take the necessary decisions to ensure an expeditious settlement of the dispute, for instance taking into account the site of the inspection in question;

(f) the object of the review shall be to establish whether, in the course of the inspection in dispute, the parties to the dispute have complied with the provisions of this Agreement. The procedures shall be expeditious and provide the opportunity for both parties to present their views in person or in writing;

(g) decisions by a three-member panel shall be taken by majority vote. The decision on the dispute shall be rendered within eight working days of the request for independent review and be communicated to the parties to the dispute. This time-limit could be extended upon agreement by the parties to the dispute. The panel or independent trade expert shall apportion the costs, based on the merits of the case;

(h) the decision of the panel shall be binding upon the preshipment inspection entity and the exporter which are parties to the dispute.

**Article 5**

**Notification**

Members shall submit to the Secretariat copies of the laws and regulations by which they put this Agreement into force, as well as copies of any other laws and regulations relating to preshipment inspection, when the WTO Agreement enters into force with respect to the Member concerned. No changes in the laws and regulations relating to preshipment inspection shall be enforced before such changes have been officially published. They shall be notified to the Secretariat immediately after their publication. The Secretariat shall inform the Members of the availability of this information.

**Article 9**

**Final Provisions**

1. Members shall take the necessary measures for the implementation of the present Agreement.

2. Members shall ensure that their laws and regulations shall not be contrary to
the provisions of this Agreement.

(vi) Agreement on Rules of Origin.

[Members,

Noting that Ministers on 20 September 1986 agreed that the Uruguay Round of Multilateral Trade Negotiations shall aim to "bring about further liberalization and expansion of world trade", "strengthen the role of GATT" and "increase the responsiveness of the GATT system to the evolving international economic environment";

Desiring to further the objectives of GATT 1994;

Recognizing that clear and predictable rules of origin and their application facilitate the flow of international trade;

Desiring to ensure that rules of origin themselves do not create unnecessary obstacles to trade;

Desiring to ensure that rules of origin do not nullify or impair the rights of Members under GATT 1994;

Recognizing that it is desirable to provide transparency of laws, regulations, and practices regarding rules of origin;

Desiring to ensure that rules of origin are prepared and applied in an impartial, transparent, predictable, consistent and neutral manner;

... ;

Desiring to harmonize and clarify rules of origin;

Hereby agree as follows:]

PART I
DEFINITIONS AND COVERAGE

Article 1

Rules of Origin

1. For the purposes of Parts I to IV of this Agreement, rules of origin shall be defined as those laws, regulations and administrative determinations of general application applied by any Member to determine the country of origin of goods provided such rules of origin are not related to contractual or autonomous trade regimes leading to the granting of tariff preferences going beyond the application of paragraph 1 of Article I of GATT 1994.

2. Rules of origin referred to in paragraph 1 shall include all rules of origin used in non-preferential commercial policy instruments, such as in the application
of: most-favoured-nation treatment under Articles I, II, III, XI and XIII of GATT 1994; anti-dumping and countervailing duties under Article VI of GATT 1994; safeguard measures under Article XIX of GATT 1994; origin marking requirements under Article IX of GATT 1994; and any discriminatory quantitative restrictions or tariff quotas. They shall also include rules of origin used for government procurement and trade statistics.\textsuperscript{43}

\textbf{PART II}

\textbf{DISCIPLINES TO GOVERN THE APPLICATION OF RULES OF ORIGIN}

\textbf{Article 2}

\textit{Disciplines During the Transition Period}

Until the work programme for the harmonization of rules of origin set out in Part IV is completed, Members shall ensure that:

(a) when they issue administrative determinations of general application, the requirements to be fulfilled are clearly defined. In particular:

(i) in cases where the criterion of change of tariff classification is applied, such a rule of origin, and any exceptions to the rule, must clearly specify the subheadings or headings within the tariff nomenclature that are addressed by the rule;

(ii) in cases where the ad valorem percentage criterion is applied, the method for calculating this percentage shall also be indicated in the rules of origin;

(iii) in cases where the criterion of manufacturing or processing operation is prescribed, the operation that confers origin on the good concerned shall be precisely specified;

(b) notwithstanding the measure or instrument of commercial policy to which they are linked, their rules of origin are not used as instruments to pursue trade objectives directly or indirectly;

(c) rules of origin shall not themselves create restrictive, distorting, or disruptive effects on international trade. They shall not pose unduly strict requirements or require the fulfilment of a certain condition not related to manufacturing or processing, as a prerequisite for the determination of the country of origin. However, costs not directly related to manufacturing or processing may be included for the purposes of the application of an ad valorem percentage criterion consistent with subparagraph (a);

(d) the rules of origin that they apply to imports and exports are not more stringent than the rules of origin they apply to determine

\textsuperscript{43} It is understood that this provision is without prejudice to those determinations made for purposes of defining “domestic industry” or “like products of domestic industry” or similar terms wherever they apply.
whether or not a good is domestic and shall not discriminate between other Members, irrespective of the affiliation of the manufacturers of the good concerned\textsuperscript{44};

(e) their rules of origin are administered in a consistent, uniform, impartial and reasonable manner;

(f) their rules of origin are based on a positive standard. Rules of origin that state what does not confer origin (negative standard) are permissible as part of a clarification of a positive standard or in individual cases where a positive determination of origin is not necessary;

(g) their laws, regulations, judicial decisions and administrative rulings of general application relating to rules of origin are published as if they were subject to, and in accordance with, the provisions of paragraph 1 of Article X of GATT 1994;

(h) upon the request of an exporter, importer or any person with a justifiable cause, assessments of the origin they would accord to a good are issued as soon as possible but no later than 150 days\textsuperscript{45} after a request for such an assessment provided that all necessary elements have been submitted. Requests for such assessments shall be accepted before trade in the good concerned begins and may be accepted at any later point in time. Such assessments shall remain valid for three years provided that the facts and conditions, including the rules of origin, under which they have been made remain comparable. Provided that the parties concerned are informed in advance, such assessments will no longer be valid when a decision contrary to the assessment is made in a review as referred to in subparagraph (j). Such assessments shall be made publicly available subject to the provisions of subparagraph (k);

(i) when introducing changes to their rules of origin or new rules of origin, they shall not apply such changes retroactively as defined in, and without prejudice to, their laws or regulations;

(j) any administrative action which they take in relation to the determination of origin is reviewable promptly by judicial, arbitral or administrative tribunals or procedures, independent of the authority issuing the determination, which can effect the modification or reversal of the determination;

(k) all information that is by nature confidential or that is provided on a confidential basis for the purpose of the application of rules of origin is treated as strictly confidential by the authorities concerned, which shall not disclose it without the specific permission of the person or government providing such information, except to the extent that it

\textsuperscript{44} With respect to rules of origin applied for the purposes of government procurement, this provision shall not create obligations additional to those already assumed by Members under GATT 1994.

\textsuperscript{45} In respect of requests made during the first year from the date of entry into force of the WTO Agreement, Members shall only be required to issue these assessments as soon as possible.
may be required to be disclosed in the context of judicial proceedings.

**Article 3**

*Disciplines after the Transition Period*

Taking into account the aim of all Members to achieve, as a result of the harmonization work programme set out in Part IV, the establishment of harmonized rules of origin, Members shall ensure, upon the implementation of the results of the harmonization work programme, that:

(a) they apply rules of origin equally for all purposes as set out in Article 1;

(b) under their rules of origin, the country to be determined as the origin of a particular good is either the country where the good has been wholly obtained or, when more than one country is concerned in the production of the good, the country where the last substantial transformation has been carried out;

(c) the rules of origin that they apply to imports and exports are not more stringent than the rules of origin they apply to determine whether or not a good is domestic and shall not discriminate between other Members, irrespective of the affiliation of the manufacturers of the good concerned;

(d) the rules of origin are administered in a consistent, uniform, impartial and reasonable manner;

(e) their laws, regulations, judicial decisions and administrative rulings of general application relating to rules of origin are published as if they were subject to, and in accordance with, the provisions of paragraph 1 of Article X of GATT 1994;

(f) upon the request of an exporter, importer or any person with a justifiable cause, assessments of the origin they would accord to a good are issued as soon as possible but no later than 150 days after a request for such an assessment provided that all necessary elements have been submitted. Requests for such assessments shall be accepted before trade in the good concerned begins and may be accepted at any later point in time. Such assessments shall remain valid for three years provided that the facts and conditions, including the rules of origin, under which they have been made remain comparable. Provided that the parties concerned are informed in advance, such assessments will no longer be valid when a decision contrary to the assessment is made in a review as referred to in subparagraph (h). Such assessments shall be made publicly available subject to the provisions of subparagraph (i);

(g) when introducing changes to their rules of origin or new rules of origin, they shall not apply such changes retroactively as defined in,
and without prejudice to, their laws or regulations;

(h) any administrative action which they take in relation to the determination of origin is reviewable promptly by judicial, arbitral or administrative tribunals or procedures, independent of the authority issuing the determination, which can effect the modification or reversal of the determination;

(i) all information which is by nature confidential or which is provided on a confidential basis for the purpose of the application of rules of origin is treated as strictly confidential by the authorities concerned, which shall not disclose it without the specific permission of the person or government providing such information, except to the extent that it may be required to be disclosed in the context of judicial proceedings.

Article 5

Information and Procedures for Modification and Introduction of New Rules of Origin

1. Each Member shall provide to the Secretariat, within 90 days after the date of entry into force of the WTO Agreement for it, its rules of origin, judicial decisions, and administrative rulings of general application relating to rules of origin in effect on that date. If by inadvertence a rule of origin has not been provided, the Member concerned shall provide it immediately after this fact becomes known. Lists of information received and available with the Secretariat shall be circulated to the Members by the Secretariat.

2. During the period referred to in Article 2, Members introducing modifications, other than de minimis modifications, to their rules of origin or introducing new rules of origin, which, for the purpose of this Article, shall include any rule of origin referred to in paragraph 1 and not provided to the Secretariat, shall publish a notice to that effect at least 60 days before the entry into force of the modified or new rule in such a manner as to enable interested parties to become acquainted with the intention to modify a rule of origin or to introduce a new rule of origin, unless exceptional circumstances arise or threaten to arise for a Member. In these exceptional cases, the Member shall publish the modified or new rule as soon as possible.

ANNEX II  Common Declaration with Regard to the Preferential Rules of Origin

(vii) Agreement on Import Licensing Procedures

[Members,

Having regard to the Multilateral Trade Negotiations;

Desiring to further the objectives of GATT 1994;

Taking into account the particular trade, development and financial needs of developing country Members;]
Recognizing the usefulness of automatic import licensing for certain purposes and that such licensing should not be used to restrict trade;

Recognizing that import licensing may be employed to administer measures such as those adopted pursuant to the relevant provisions of GATT 1994;

Recognizing the provisions of GATT 1994 as they apply to import licensing procedures;

Desiring to ensure that import licensing procedures are not utilized in a manner contrary to the principles and obligations of GATT 1994;

Recognizing that the flow of international trade could be impeded by the inappropriate use of import licensing procedures;

Convinced that import licensing, particularly non-automatic import licensing, should be implemented in a transparent and predictable manner;

Recognizing that non-automatic licensing procedures should be no more administratively burdensome than absolutely necessary to administer the relevant measure;

Desiring to simplify, and bring transparency to, the administrative procedures and practices used in international trade, and to ensure the fair and equitable application and administration of such procedures and practices;

Desiring to provide for a consultative mechanism and the speedy, effective and equitable resolution of disputes arising under this Agreement;

Hereby agree as follows:

**Article 1**

**General Provisions**

1. For the purpose of this Agreement, import licensing is defined as administrative procedures\(^{46}\) used for the operation of import licensing regimes requiring the submission of an application or other documentation (other than that required for customs purposes) to the relevant administrative body as a prior condition for importation into the customs territory of the importing Member.

2. Members shall ensure that the administrative procedures used to implement import licensing regimes are in conformity with the relevant provisions of GATT 1994 including its annexes and protocols, as interpreted by this Agreement, with a view to preventing trade distortions that may arise from an inappropriate operation of those procedures, taking into account the economic development purposes and financial and trade needs of developing country Members.\(^{47}\)

3. The rules for import licensing procedures shall be neutral in application and

---

\(^{46}\) Those procedures referred to as "licensing" as well as other similar administrative procedures.

\(^{47}\) Nothing in this Agreement shall be taken as implying that the basis, scope or duration of a measure being implemented by a licensing procedure is subject to question under this Agreement.
administered in a fair and equitable manner.

4. (a) The rules and all information concerning procedures for the submission of applications, including the eligibility of persons, firms and institutions to make such applications, the administrative body(ies) to be approached, and the lists of products subject to the licensing requirement shall be published, in the sources notified to the Committee on Import Licensing provided for in Article 4 (referred to in this Agreement as "the Committee"), in such a manner as to enable governments and traders to become acquainted with them. Such publication shall take place, whenever practicable, 21 days prior to the effective date of the requirement but in all events not later than such effective date. Any exception, derogations or changes in or from the rules concerning licensing procedures or the list of products subject to import licensing shall also be published in the same manner and within the same time periods as specified above. ….

(b) Members which wish to make comments in writing shall be provided the opportunity to discuss these comments upon request. The concerned Member shall give due consideration to these comments and results of discussion.

5. Application forms and, where applicable, renewal forms shall be as simple as possible. Such documents and information as are considered strictly necessary for the proper functioning of the licensing regime may be required on application.

6. Application procedures and, where applicable, renewal procedures shall be as simple as possible. Applicants shall be allowed a reasonable period for the submission of licence applications. Where there is a closing date, this period should be at least 21 days with provision for extension in circumstances where insufficient applications have been received within this period. Applicants shall have to approach only one administrative body in connection with an application. Where it is strictly indispensable to approach more than one administrative body, applicants shall not need to approach more than three administrative bodies.

7. No application shall be refused for minor documentation errors which do not alter basic data contained therein. No penalty greater than necessary to serve merely as a warning shall be imposed in respect of any omission or mistake in documentation or procedures which is obviously made without fraudulent intent or gross negligence.

8. Licensed imports shall not be refused for minor variations in value, quantity or weight from the amount designated on the licence due to differences occurring during shipment, differences incidental to bulk loading and other minor differences consistent with normal commercial practice.

9. The foreign exchange necessary to pay for licensed imports shall be made available to licence holders on the same basis as to importers of goods not requiring import licences.

48 For the purpose of this Agreement, the term "governments" is deemed to include the competent authorities of the European Communities.
10. With regard to security exceptions, the provisions of Article XXI of GATT 1994 apply.

11. The provisions of this Agreement shall not require any Member to disclose confidential information which would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interests of particular enterprises, public or private.

**Article 2**

*Automatic Import Licensing*

1. Automatic import licensing is defined as import licensing where approval of the application is granted in all cases, and which is in accordance with the requirements of paragraph 2(a).

2. The following provisions, in addition to those in paragraphs 1 through 11 of Article 1 and paragraph 1 of this Article, shall apply to automatic import licensing procedures:

   (a) Automatic licensing procedures shall not be administered in such a manner as to have restricting effects on imports subject to automatic licensing. Automatic licensing procedures shall be deemed to have trade-restricting effects unless, inter alia:

      (i) any person, firm or institution which fulfils the legal requirements of the importing Member for engaging in import operations involving products subject to automatic licensing is equally eligible to apply for and to obtain import licences;

      (ii) applications for licences may be submitted on any working day prior to the customs clearance of the goods;

      (iii) applications for licences when submitted in appropriate and complete form are approved immediately on receipt, to the extent administratively feasible, but within a maximum of 10 working days;

   (b) Members recognize that automatic import licensing may be necessary whenever other appropriate procedures are not available. Automatic import licensing may be maintained as long as the circumstances which gave rise to its introduction prevail and as long as its underlying administrative purposes cannot be achieved in a more appropriate way.

**Article 3**

*Non-Automatic Import Licensing*

---

49 Those import licensing procedures requiring a security which have no restrictive effects on imports are to be considered as falling within the scope of paragraphs 1 and 2.
1. The following provisions, in addition to those in paragraphs 1 through 11 of Article 1, shall apply to non-automatic import licensing procedures. Non-automatic import licensing procedures are defined as import licensing not falling within the definition contained in paragraph 1 of Article 2.

2. Non-automatic licensing shall not have trade-restrictive or distortive effects on imports additional to those caused by the imposition of the restriction. Non-automatic licensing procedures shall correspond in scope and duration to the measure they are used to implement, and shall be no more administratively burdensome than absolutely necessary to administer the measure.

3. In the case of licensing requirements for purposes other than the implementation of quantitative restrictions, Members shall publish sufficient information for other Members and traders to know the basis for granting and/or allocating licences.

4. Where a Member provides the possibility for persons, firms or institutions to request exceptions or derogations from a licensing requirement, it shall include this fact in the information published under paragraph 4 of Article 1 as well as information on how to make such a request and, to the extent possible, an indication of the circumstances under which requests would be considered.

5. (a) Members shall provide, upon the request of any Member having an interest in the trade in the product concerned, all relevant information concerning:

(i) the administration of the restrictions;

(ii) the import licences granted over a recent period;

(iii) the distribution of such licences among supplying countries;

(iv) where practicable, import statistics (i.e. value and/or volume) with respect to the products subject to import licensing. … ;

(b) Members administering quotas by means of licensing shall publish the overall amount of quotas to be applied by quantity and/or value, the opening and closing dates of quotas, and any change thereof, within the time periods specified in paragraph 4 of Article 1 and in such a manner as to enable governments and traders to become acquainted with them;

(c) in the case of quotas allocated among supplying countries, the Member applying the restrictions shall promptly inform all other Members having an interest in supplying the product concerned of the shares in the quota currently allocated, by quantity or value, to the various supplying countries and shall publish this information within the time periods specified in paragraph 4 of Article 1 and in such a manner as to enable governments and traders to become acquainted with them;

(d) where situations arise which make it necessary to provide for an early opening date of quotas, the information referred to in
paragraph 4 of Article 1 should be published within the time-periods specified in paragraph 4 of Article 1 and in such a manner as to enable governments and traders to become acquainted with them;

(e) any person, firm or institution which fulfils the legal and administrative requirements of the importing Member shall be equally eligible to apply and to be considered for a licence. If the licence application is not approved, the applicant shall, on request, be given the reason therefor and shall have a right of appeal or review in accordance with the domestic legislation or procedures of the importing Member;

(f) the period for processing applications shall, except when not possible for reasons outside the control of the Member, not be longer than 30 days if applications are considered as and when received, i.e. on a first-come first-served basis, and no longer than 60 days if all applications are considered simultaneously. In the latter case, the period for processing applications shall be considered to begin on the day following the closing date of the announced application period;

(g) the period of licence validity shall be of reasonable duration and not be so short as to preclude imports. The period of licence validity shall not preclude imports from distant sources, except in special cases where imports are necessary to meet unforeseen short-term requirements;

(h) when administering quotas, Members shall not prevent importation from being effected in accordance with the issued licences, and shall not discourage the full utilization of quotas;

(i) when issuing licences, Members shall take into account the desirability of issuing licences for products in economic quantities;

(j) in allocating licences, the Member should consider the import performance of the applicant. In this regard, consideration should be given as to whether licences issued to applicants in the past have been fully utilized during a recent representative period. In cases where licences have not been fully utilized, the Member shall examine the reasons for this and take these reasons into consideration when allocating new licences. Consideration shall also be given to ensuring a reasonable distribution of licences to new importers, taking into account the desirability of issuing licences for products in economic quantities. In this regard, special consideration should be given to those importers importing products originating in developing country Members and, in particular, the least-developed country Members;

(k) in the case of quotas administered through licences which are not allocated among supplying countries, licence holders\(^{50}\) shall be free to choose the sources of imports. In the case of quotas allocated

\(^{50}\) Sometimes referred to as "quota holders".
among supplying countries, the licence shall clearly stipulate the country or countries;

(l) in applying paragraph 8 of Article 1, compensating adjustments may be made in future licence allocations where imports exceeded a previous licence level.

Article 5

Notification

1. Members which institute licensing procedures or changes in these procedures shall notify the Committee of such within 60 days of publication.

2. Notifications of the institution of import licensing procedures shall include the following information:

   (a) list of products subject to licensing procedures;
   (b) contact point for information on eligibility;
   (c) administrative body(ies) for submission of applications;
   (d) date and name of publication where licensing procedures are published;
   (e) indication of whether the licensing procedure is automatic or non-automatic according to definitions contained in Articles 2 and 3;
   (f) in the case of automatic import licensing procedures, their administrative purpose;
   (g) in the case of non-automatic import licensing procedures, indication of the measure being implemented through the licensing procedure; and
   (h) expected duration of the licensing procedure if this can be estimated with some probability, and if not, reason why this information cannot be provided.

3. Notifications of changes in import licensing procedures shall indicate the elements mentioned above, if changes in such occur.

4. Members shall notify the Committee of the publication(s) in which the information required in paragraph 4 of Article 1 will be published.

5. Any interested Member which considers that another Member has not notified the institution of a licensing procedure or changes therein in accordance with the provisions of paragraphs 1 through 3 may bring the matter to the attention of such other Member. If notification is not made promptly thereafter, such Member may itself notify the licensing procedure or changes therein, including all relevant and available information.
Article 7

Review

3. Members undertake to complete the annual questionnaire on import licensing procedures promptly and in full.

Article 8

Final Provisions

Domestic Legislation

2. (a) Each Member shall ensure, not later than the date of entry into force of the WTO Agreement for it, the conformity of its laws, regulations and administrative procedures with the provisions of this Agreement.

(b) Each Member shall inform the Committee of any changes in its laws and regulations relevant to this Agreement and in the administration of such laws and regulations.

(viii) Agreement on Subsidies and Countervailing Measures

[Members hereby agree as follows:]

PART I: GENERAL PROVISIONS

Article 1

Definition of a Subsidy

1.1 For the purpose of this Agreement, a subsidy shall be deemed to exist if:

(a)(1) there is a financial contribution by a government or any public body within the territory of a Member (referred to in this Agreement as "government"), i.e. where:

(i) a government practice involves a direct transfer of funds (e.g. grants, loans, and equity infusion), potential direct transfers of funds or liabilities (e.g. loan guarantees);

(ii) government revenue that is otherwise due is foregone or not collected (e.g. fiscal incentives such as tax credits) \(^{51}\);

(iii) a government provides goods or services other than general infrastructure, or purchases goods;

---

\(^{51}\) In accordance with the provisions of Article XVI of GATT 1994 (Note to Article XVI) and the provisions of Annexes I through III of this Agreement, the exemption of an exported product from duties or taxes borne by the like product when destined for domestic consumption, or the remission of such duties or taxes in amounts not in excess of those which have accrued, shall not be deemed to be a subsidy.
(iv) a government makes payments to a funding mechanism, or entrusts or directs a private body to carry out one or more of the type of functions illustrated in (i) to (iii) above which would normally be vested in the government and the practice, in no real sense, differs from practices normally followed by governments;

or

(a)(2) there is any form of income or price support in the sense of Article XVI of GATT 1994;

and

(b) a benefit is thereby conferred.

1.2 A subsidy as defined in paragraph 1 shall be subject to the provisions of Part II or shall be subject to the provisions of Part III or V only if such a subsidy is specific in accordance with the provisions of Article 2.

Article 2

Specificity

2.1 In order to determine whether a subsidy, as defined in paragraph 1 of Article 1, is specific to an enterprise or industry or group of enterprises or industries (referred to in this Agreement as "certain enterprises") within the jurisdiction of the granting authority, the following principles shall apply:

(a) Where the granting authority, or the legislation pursuant to which the granting authority operates, explicitly limits access to a subsidy to certain enterprises, such subsidy shall be specific.

(b) Where the granting authority, or the legislation pursuant to which the granting authority operates, establishes objective criteria or conditions\(^{52}\) governing the eligibility for, and the amount of, a subsidy, specificity shall not exist, provided that the eligibility is automatic and that such criteria and conditions are strictly adhered to. The criteria or conditions must be clearly spelled out in law, regulation, or other official document, so as to be capable of verification.

(c) If, notwithstanding any appearance of non-specificity resulting from the application of the principles laid down in subparagraphs (a) and (b), there are reasons to believe that the subsidy may in fact be specific; other factors may be considered. Such factors are: use of a subsidy programme by a limited number of certain enterprises, predominant use by certain enterprises, the granting of disproportionately large amounts of subsidy to certain enterprises,

\(^{52}\) Objective criteria or conditions, as used herein, mean criteria or conditions which are neutral, which do not favour certain enterprises over others, and which are economic in nature and horizontal in application, such as number of employees or size of enterprise.
and the manner in which discretion has been exercised by the granting authority in the decision to grant a subsidy.\footnote{In this regard, in particular, information on the frequency with which applications for a subsidy are refused or approved and the reasons for such decisions shall be considered.} In applying this subparagraph, account shall be taken of the extent of diversification of economic activities within the jurisdiction of the granting authority, as well as of the length of time during which the subsidy programme has been in operation.

2.2 A subsidy which is limited to certain enterprises located within a designated geographical region within the jurisdiction of the granting authority shall be specific. It is understood that the setting or change of generally applicable tax rates by all levels of government entitled to do so shall not be deemed to be a specific subsidy for the purposes of this Agreement.

2.3 Any subsidy falling under the provisions of Article 3 shall be deemed to be specific.

2.4 Any determination of specificity under the provisions of this Article shall be clearly substantiated on the basis of positive evidence.

**PART II: PROHIBITED SUBSIDIES**

**Article 3**

*Prohibition*

3.1 Except as provided in the Agreement on Agriculture, the following subsidies, within the meaning of Article 1, shall be prohibited:

(a) subsidies contingent, in law or in fact\footnote{This standard is met when the facts demonstrate that the granting of a subsidy, without having been made legally contingent upon export performance, is in fact tied to actual or anticipated exportation or export earnings. The mere fact that a subsidy is granted to enterprises which export shall not for that reason alone be considered to be an export subsidy within the meaning of this provision.}, whether solely or as one of several other conditions, upon export performance, including those illustrated in Annex I\footnote{Measures referred to in Annex I as not constituting export subsidies shall not be prohibited under this or any other provision of this Agreement.};

(b) subsidies contingent, whether solely or as one of several other conditions, upon the use of domestic over imported goods.

3.2 A Member shall neither grant nor maintain subsidies referred to in paragraph 1.

**Article 4**

*Remedies*

4.1 Whenever a Member has reason to believe that a prohibited subsidy is being granted or maintained by another Member, such Member may request consultations
with such other Member.

4.2 A request for consultations under paragraph 1 shall include a statement of available evidence with regard to the existence and nature of the subsidy in question.

4.3 Upon request for consultations under paragraph 1, the Member believed to be granting or maintaining the subsidy in question shall enter into such consultations as quickly as possible. The purpose of the consultations shall be to clarify the facts of the situation and to arrive at a mutually agreed solution.

PART III: ACTIONABLE SUBSIDIES

Article 5

Adverse Effects

No Member should cause, through the use of any subsidy referred to in paragraphs 1 and 2 of Article 1, adverse effects to the interests of other Members, i.e.:

(a) injury to the domestic industry of another Member;  
(b) nullification or impairment of benefits accruing directly or indirectly to other Members under GATT 1994 in particular the benefits of concessions bound under Article II of GATT 1994;  
(c) serious prejudice to the interests of another Member.

Article 6

Serious Prejudice

6.1 Serious prejudice in the sense of paragraph (c) of Article 5 shall be deemed to exist in the case of:

(a) the total ad valorem subsidization of a product exceeding 5 per cent;  
(b) subsidies to cover operating losses sustained by an industry;  
(c) subsidies to cover operating losses sustained by an enterprise, other than one-time measures which are non-recurrent and cannot be

56 The term “injury to the domestic industry” is used here in the same sense as it is used in Part V.
57 The term “nullification or impairment” is used in this Agreement in the same sense as it is used in the relevant provisions of GATT 1994, and the existence of such nullification or impairment shall be established in accordance with the practice of application of these provisions.
58 The term “serious prejudice to the interests of another Member” is used in this Agreement in the same sense as it is used in paragraph 1 of Article XVI of GATT 1994, and includes threat of serious prejudice.
59 The total ad valorem subsidization shall be calculated in accordance with the provisions of Annex IV.
60 Since it is anticipated that civil aircraft will be subject to specific multilateral rules, the threshold in this subparagraph does not apply to civil aircraft.
repeated for that enterprise and which are given merely to provide time for the development of long-term solutions and to avoid acute social problems;

(d) direct forgiveness of debt, i.e. forgiveness of government-held debt, and grants to cover debt repayment.\(^\text{61}\)

6.2 Notwithstanding the provisions of paragraph 1, serious prejudice shall not be found if the subsidizing Member demonstrates that the subsidy in question has not resulted in any of the effects enumerated in paragraph 3.

6.3 Serious prejudice in the sense of paragraph (c) of Article 5 may arise in any case where one or several of the following apply:

(a) the effect of the subsidy is to displace or impede the imports of a like product of another Member into the market of the subsidizing Member;

(b) the effect of the subsidy is to displace or impede the exports of a like product of another Member from a third country market;

(c) the effect of the subsidy is a significant price undercutting by the subsidized product as compared with the price of a like product of another Member in the same market or significant price suppression, price depression or lost sales in the same market;

(d) the effect of the subsidy is an increase in the world market share of the subsidizing Member in a particular subsidized primary product or commodity\(^\text{62}\) as compared to the average share it had during the previous period of three years and this increase follows a consistent trend over a period when subsidies have been granted.

6.4 For the purpose of paragraph 3(b), the displacement or impeding of exports shall include any case in which, subject to the provisions of paragraph 7, it has been demonstrated that there has been a change in relative shares of the market to the disadvantage of the non-subsidized like product (over an appropriately representative period sufficient to demonstrate clear trends in the development of the market for the product concerned, which, in normal circumstances, shall be at least one year). "Change in relative shares of the market" shall include any of the following situations: (a) there is an increase in the market share of the subsidized product; (b) the market share of the subsidized product remains constant in circumstances in which, in the absence of the subsidy, it would have declined; (c) the market share of the subsidized product declines, but at a slower rate than would have been the case in the absence of the subsidy.

6.5 For the purpose of paragraph 3(c), price undercutting shall include any case in which such price undercutting has been demonstrated through a comparison of prices of the subsidized product with prices of a non-subsidized like product

---

\(^{61}\) Members recognize that where royalty-based financing for a civil aircraft programme is not being fully repaid due to the level of actual sales falling below the level of forecast sales, this does not in itself constitute serious prejudice for the purposes of this subparagraph.

\(^{62}\) Unless other multilaterally agreed specific rules apply to the trade in the product or commodity in question.
supplied to the same market. The comparison shall be made at the same level of trade and at comparable times, due account being taken of any other factor affecting price comparability. However, if such a direct comparison is not possible, the existence of price undercutting may be demonstrated on the basis of export unit values.

6.6 Each Member in the market of which serious prejudice is alleged to have arisen shall … make available to the parties to a dispute … all relevant information that can be obtained as to the changes in market shares of the parties to the dispute as well as concerning prices of the products involved.

6.7 Displacement or impediment resulting in serious prejudice shall not arise under paragraph 3 where any of the following circumstances exist during the relevant period:

(a) prohibition or restriction on exports of the like product from the complaining Member or on imports from the complaining Member into the third country market concerned;

(b) decision by an importing government operating a monopoly of trade or state trading in the product concerned to shift, for non-commercial reasons, imports from the complaining Member to another country or countries;

(c) natural disasters, strikes, transport disruptions or other force majeure substantially affecting production, qualities, quantities or prices of the product available for export from the complaining Member;

(d) existence of arrangements limiting exports from the complaining Member;

(e) voluntary decrease in the availability for export of the product concerned from the complaining Member (including, inter alia, a situation where firms in the complaining Member have been autonomously reallocating exports of this product to new markets);

(f) failure to conform to standards and other regulatory requirements in the importing country.

6.8 In the absence of circumstances referred to in paragraph 7, the existence of serious prejudice should be determined on the basis of the information submitted to or obtained by the panel … .

Article 7

Remedies

7.1 Except as provided in Article 13 of the Agreement on Agriculture, whenever a Member has reason to believe that any subsidy referred to in Article 1,

---

63 The fact that certain circumstances are referred to in this paragraph does not, in itself, confer upon them any legal status in terms of either GATT 1994 or this Agreement. These circumstances must not be isolated, sporadic or otherwise insignificant.
granted or maintained by another Member, results in injury to its domestic industry, nullification or impairment or serious prejudice, such Member may request consultations with such other Member.

7.2 A request for consultations under paragraph 1 shall include a statement of available evidence with regard to (a) the existence and nature of the subsidy in question, and (b) the injury caused to the domestic industry, or the nullification or impairment, or serious prejudice\(^{64}\) caused to the interests of the Member requesting consultations.

7.3 Upon request for consultations under paragraph 1, the Member believed to be granting or maintaining the subsidy practice in question shall enter into such consultations as quickly as possible. The purpose of the consultations shall be to clarify the facts of the situation and to arrive at a mutually agreed solution.

PART IV: NON-ACTIONABLE SUBSIDIES

Article 8

Identification of Non-Actionable Subsidies

8.1 The following subsidies shall be considered as non-actionable\(^ {65}\):

(a) subsidies which are not specific within the meaning of Article 2;

(b) subsidies which are specific within the meaning of Article 2 but which meet all of the conditions provided for in paragraphs 2(a), 2(b) or 2(c) below.

8.2 Notwithstanding the provisions of Parts III and V, the following subsidies shall be non-actionable:

(a) assistance for research activities conducted by firms or by higher education or research establishments on a contract basis with firms if:\(^ {66}, ^{67}\)

the assistance covers\(^ {68}\) not more than 75 per cent of the costs of industrial research\(^ {69}\) or 50 per cent of the costs of pre-competitive

\(^{64}\) In the event that the request relates to a subsidy deemed to result in serious prejudice in terms of paragraph 1 of Article 6, the available evidence of serious prejudice may be limited to the available evidence as to whether the conditions of paragraph 1 of Article 6 have been met or not.

\(^{65}\) It is recognized that government assistance for various purposes is widely provided by Members and that the mere fact that such assistance may not qualify for non-actionable treatment under the provisions of this Article does not in itself restrict the ability of Members to provide such assistance.

\(^{66}\) Since it is anticipated that civil aircraft will be subject to specific multilateral rules, the provisions of this subparagraph do not apply to that product.

\(^{67}\) The provisions of this Agreement do not apply to fundamental research activities independently conducted by higher education or research establishments. The term "fundamental research” means an enlargement of general scientific and technical knowledge not linked to industrial or commercial objectives.

\(^{68}\) The allowable levels of non-actionable assistance referred to in this subparagraph shall be established by reference to the total eligible costs incurred over the duration of an individual project.

\(^{69}\) The term “industrial research” means planned search or critical investigation aimed at discovery of new knowledge, with the objective that such knowledge may be useful in developing new products, processes or services, or in bringing about a significant improvement to existing products, processes or services.
development activity\textsuperscript{70, 71}; and provided that such assistance is limited exclusively to:

(i) costs of personnel (researchers, technicians and other supporting staff employed exclusively in the research activity);

(ii) costs of instruments, equipment, land and buildings used exclusively and permanently (except when disposed of on a commercial basis) for the research activity;

(iii) costs of consultancy and equivalent services used exclusively for the research activity, including bought-in research, technical knowledge, patents, etc.;

(iv) additional overhead costs incurred directly as a result of the research activity;

(v) other running costs (such as those of materials, supplies and the like), incurred directly as a result of the research activity.

(b) assistance to disadvantaged regions within the territory of a Member given pursuant to a general framework of regional development\textsuperscript{72} and non-specific (within the meaning of Article 2) within eligible regions provided that:

(i) each disadvantaged region must be a clearly designated contiguous geographical area with a definable economic and administrative identity;

(ii) the region is considered as disadvantaged on the basis of neutral and objective criteria\textsuperscript{73}, indicating that the region’s difficulties arise out of more than temporary circumstances; such criteria must be clearly spelled out in law, regulation, or

\textsuperscript{70} The term “pre-competitive development activity” means the translation of industrial research findings into a plan, blueprint or design for new, modified or improved products, processes or services whether intended for sale or use, including the creation of a first prototype which would not be capable of commercial use. It may further include the conceptual formulation and design of products, processes or services alternatives and initial demonstration or pilot projects, provided that these same projects cannot be converted or used for industrial application or commercial exploitation. It does not include routine or periodic alterations to existing products, production lines, manufacturing processes, services, and other on-going operations even though those alterations may represent improvements.

\textsuperscript{71} In the case of programmes which span industrial research and pre-competitive development activity, the allowable level of non-actionable assistance shall not exceed the simple average of the allowable levels of non-actionable assistance applicable to the above two categories, calculated on the basis of all eligible costs as set forth in items (i) to (v) of this subparagraph.

\textsuperscript{72} A “general framework of regional development” means that regional subsidy programmes are part of an internally consistent and generally applicable regional development policy and that regional development subsidies are not granted in isolated geographical points having no, or virtually no, influence on the development of a region.

\textsuperscript{73} “Neutral and objective criteria” means criteria which do not favour certain regions beyond what is appropriate for the elimination or reduction of regional disparities within the framework of the regional development policy. In this regard, regional subsidy programmes shall include ceilings on the amount of assistance which can be granted to each subsidized project. Such ceilings must be differentiated according to the different levels of development of assisted regions and must be expressed in terms of investment costs or cost of job creation. Within such ceilings, the distribution of assistance shall be sufficiently broad and even to avoid the predominant use of a subsidy by, or the granting of disproportionately large amounts of subsidy to, certain enterprises as provided for in Article 2.
other official document, so as to be capable of verification;

(iii) the criteria shall include a measurement of economic development which shall be based on at least one of the following factors:

- one of either income per capita or household income per capita, or GDP per capita, which must not be above 85 per cent of the average for the territory concerned;

- unemployment rate, which must be at least 110 per cent of the average for the territory concerned;

as measured over a three-year period; such measurement, however, may be a composite one and may include other factors.

(c) assistance to promote adaptation of existing facilities\textsuperscript{74} to new environmental requirements imposed by law and/or regulations which result in greater constraints and financial burden on firms, provided that the assistance:

(i) is a one-time non-recurring measure; and

(ii) is limited to 20 per cent of the cost of adaptation; and

(iii) does not cover the cost of replacing and operating the assisted investment, which must be fully borne by firms; and

(iv) is directly linked to and proportionate to a firm's planned reduction of nuisances and pollution, and does not cover any manufacturing cost savings which may be achieved; and

(v) is available to all firms which can adopt the new equipment and/or production processes.

8.3 A subsidy programme for which the provisions of paragraph 2 are invoked shall be notified in advance of its implementation to the Committee in accordance with the provisions of Part VII. Any such notification shall be sufficiently precise to enable other Members to evaluate the consistency of the programme with the conditions and criteria provided for in the relevant provisions of paragraph 2. Members shall also provide the Committee with yearly updates of such notifications, in particular by supplying information on global expenditure for each programme, and on any modification of the programme. Other Members shall have the right to request information about individual cases of subsidization under a notified programme.\textsuperscript{75}

\textsuperscript{74} The term "existing facilities" means facilities which have been in operation for at least two years at the time when new environmental requirements are imposed.

\textsuperscript{75} It is recognized that nothing in this notification provision requires the provision of confidential information, including confidential business information.
8.4 Upon request of a Member, the Secretariat shall review a notification made pursuant to paragraph 3 and, where necessary, may require additional information from the subsidizing Member concerning the notified programme under review. The Secretariat shall report its findings to the Committee. The Committee shall, upon request, promptly review the findings of the Secretariat (or, if a review by the Secretariat has not been requested, the notification itself), with a view to determining whether the conditions and criteria laid down in paragraph 2 have not been met. The procedure provided for in this paragraph shall be completed at the latest at the first regular meeting of the Committee following the notification of a subsidy programme, provided that at least two months have elapsed between such notification and the regular meeting of the Committee. The review procedure described in this paragraph shall also apply, upon request, to substantial modifications of a programme notified in the yearly updates referred to in paragraph 3.

PART V: COUNTERVAILING MEASURES

Article 10

Application of Article VI of GATT 1994

Members shall take all necessary steps to ensure that the imposition of a countervailing duty on any product of the territory of any Member imported into the territory of another Member is in accordance with the provisions of Article VI of GATT 1994 and the terms of this Agreement. Countervailing duties may only be imposed pursuant to investigations initiated and conducted in accordance with the provisions of this Agreement and the Agreement on Agriculture.

Article 11

Initiation and Subsequent Investigation

11.1 Except as provided in paragraph 6, an investigation to determine the existence, degree and effect of any alleged subsidy shall be initiated upon a written application by or on behalf of the domestic industry.

11.2 An application under paragraph 1 shall include sufficient evidence of the existence of (a) a subsidy and, if possible, its amount, (b) injury within the meaning

---

76 The provisions of Part II or III may be invoked in parallel with the provisions of Part V; however, with regard to the effects of a particular subsidy in the domestic market of the importing Member, only one form of relief (either a countervailing duty, if the requirements of Part V are met, or a countermeasure under Articles 4 or 7) shall be available. The provisions of Parts III and V shall not be invoked regarding measures considered non-actionable in accordance with the provisions of Part IV. However, measures referred to in paragraph 1(a) of Article 8 may be investigated in order to determine whether or not they are specific within the meaning of Article 2. In addition, in the case of a subsidy referred to in paragraph 2 of Article 8 conferred pursuant to a programme which has not been notified in accordance with paragraph 3 of Article 8, the provisions of Part III or V may be invoked, but such subsidy shall be treated as non-actionable if it is found to conform to the standards set forth in paragraph 2 of Article 8.

77 The term "countervailing duty" shall be understood to mean a special duty levied for the purpose of offsetting any subsidy bestowed directly or indirectly upon the manufacture, production or export of any merchandise, as provided for in paragraph 3 of Article VI of GATT 1994.

78 The term "initiated" as used hereinafter means procedural action by which a Member formally commences an investigation as provided in Article 11.
of Article VI of GATT 1994 as interpreted by this Agreement, and (c) a causal link between the subsidized imports and the alleged injury. Simple assertion, unsubstantiated by relevant evidence, cannot be considered sufficient to meet the requirements of this paragraph. The application shall contain such information as is reasonably available to the applicant on the following:

(i) the identity of the applicant and a description of the volume and value of the domestic production of the like product by the applicant. Where a written application is made on behalf of the domestic industry, the application shall identify the industry on behalf of which the application is made by a list of all known domestic producers of the like product (or associations of domestic producers of the like product) and, to the extent possible, a description of the volume and value of domestic production of the like product accounted for by such producers;

(ii) a complete description of the allegedly subsidized product, the names of the country or countries of origin or export in question, the identity of each known exporter or foreign producer and a list of known persons importing the product in question;

(iii) evidence with regard to the existence, amount and nature of the subsidy in question;

(iv) evidence that alleged injury to a domestic industry is caused by subsidized imports through the effects of the subsidies; this evidence includes information on the evolution of the volume of the allegedly subsidized imports, the effect of these imports on prices of the like product in the domestic market and the consequent impact of the imports on the domestic industry, as demonstrated by relevant factors and indices having a bearing on the state of the domestic industry, such as those listed in paragraphs 2 and 4 of Article 15.

11.3 The authorities shall review the accuracy and adequacy of the evidence provided in the application to determine whether the evidence is sufficient to justify the initiation of an investigation.

11.4 An investigation shall not be initiated pursuant to paragraph 1 unless the authorities have determined, on the basis of an examination of the degree of support for, or opposition to, the application expressed by domestic producers of the like product, that the application has been made by or on behalf of the domestic industry. The application shall be considered to have been made “by or on behalf of the domestic industry” if it is supported by those domestic producers whose collective output constitutes more than 50 per cent of the total production of the like product produced by that portion of the domestic industry expressing either support for or opposition to the application. However, no investigation shall be initiated when domestic producers expressly supporting the application account for less than 25 per cent of total production of the like product produced by the domestic industry.

---

79 In the case of fragmented industries involving an exceptionally large number of producers, authorities may determine support and opposition by using statistically valid sampling techniques.

80 Members are aware that in the territory of certain Members employees of domestic producers of the like product or representatives of those employees may make or support an application for an investigation under paragraph 1.
industry.

11.5 The authorities shall avoid, unless a decision has been made to initiate an investigation, any publicizing of the application for the initiation of an investigation.

11.6 If, in special circumstances, the authorities concerned decide to initiate an investigation without having received a written application by or on behalf of a domestic industry for the initiation of such investigation, they shall proceed only if they have sufficient evidence of the existence of a subsidy, injury and causal link, as described in paragraph 2, to justify the initiation of an investigation.

11.7 The evidence of both subsidy and injury shall be considered simultaneously (a) in the decision whether or not to initiate an investigation and (b) thereafter, during the course of the investigation, starting on a date not later than the earliest date on which in accordance with the provisions of this Agreement provisional measures may be applied.

11.8 In cases where products are not imported directly from the country of origin but are exported to the importing Member from an intermediate country, the provisions of this Agreement shall be fully applicable and the transaction or transactions shall, for the purposes of this Agreement, be regarded as having taken place between the country of origin and the importing Member.

11.9 An application under paragraph 1 shall be rejected and an investigation shall be terminated promptly as soon as the authorities concerned are satisfied that there is not sufficient evidence of either subsidization or of injury to justify proceeding with the case. There shall be immediate termination in cases where the amount of a subsidy is de minimis, or where the volume of subsidized imports, actual or potential, or the injury, is negligible. For the purpose of this paragraph, the amount of the subsidy shall be considered to be de minimis if the subsidy is less than 1 per cent ad valorem.

11.10 An investigation shall not hinder the procedures of customs clearance.

11.11 Investigations shall, except in special circumstances, be concluded within one year, and in no case more than 18 months, after their initiation.

**Article 12**

**Evidence**

12.1 Interested Members and all interested parties in a countervailing duty investigation shall be given notice of the information which the authorities require and ample opportunity to present in writing all evidence which they consider relevant in respect of the investigation in question.

12.1.1 Exporters, foreign producers or interested Members receiving questionnaires used in a countervailing duty investigation shall be given at least 30 days for reply.\(^\text{81}\) Due consideration should be

---

\(81\) As a general rule, the time-limit for exporters shall be counted from the date of receipt of the questionnaire, which for this purpose shall be deemed to have been received one week from the date on which it was sent to the respondent.
given to any request for an extension of the 30-day period and, upon cause shown, such an extension should be granted whenever practicable.

12.1.2 Subject to the requirement to protect confidential information, evidence presented in writing by one interested Member or interested party shall be made available promptly to other interested Members or interested parties participating in the investigation.

12.1.3 As soon as an investigation has been initiated, the authorities shall provide the full text of the written application received under paragraph 1 of Article 11 to the known exporters and to the authorities of the exporting Member and shall make it available, upon request, to other interested parties involved. Due regard shall be paid to the protection of confidential information, as provided for in paragraph 4.

12.2 Interested Members and interested parties also shall have the right, upon justification, to present information orally. Where such information is provided orally, the interested Members and interested parties subsequently shall be required to reduce such submissions to writing. Any decision of the investigating authorities can only be based on such information and arguments as were on the written record of this authority and which were available to interested Members and interested parties participating in the investigation, due account having been given to the need to protect confidential information.

12.3 The authorities shall whenever practicable provide timely opportunities for all interested Members and interested parties to see all information that is relevant to the presentation of their cases, that is not confidential as defined in paragraph 4, and that is used by the authorities in a countervailing duty investigation, and to prepare presentations on the basis of this information.

12.4 Any information which is by nature confidential (for example, because its disclosure would be of significant competitive advantage to a competitor or because its disclosure would have a significantly adverse effect upon a person supplying the information or upon a person from whom the supplier acquired the information), or which is provided on a confidential basis by parties to an investigation shall, upon good cause shown, be treated as such by the authorities. Such information shall not be disclosed without specific permission of the party submitting it.

12.4.1 The authorities shall require interested Members or interested parties providing confidential information to furnish non-confidential summaries thereof. These summaries shall be in sufficient detail to permit a reasonable understanding of the substance of the information submitted in confidence. In exceptional circumstances, such Members or parties may indicate that such information is not

---

82 It being understood that where the number of exporters involved is particularly high, the full text of the application should instead be provided only to the authorities of the exporting Member or to the relevant trade association who then should forward copies to the exporters concerned.

83 Members are aware that in the territory of certain Members disclosure pursuant to a narrowly-drawn protective order may be required.
susceptible of summary. In such exceptional circumstances, a statement of the reasons why summarization is not possible must be provided.

12.4.2 If the authorities find that a request for confidentiality is not warranted and if the supplier of the information is either unwilling to make the information public or to authorize its disclosure in generalized or summary form, the authorities may disregard such information unless it can be demonstrated to their satisfaction from appropriate sources that the information is correct.  

12.5 Except in circumstances provided for in paragraph 7, the authorities shall during the course of an investigation satisfy themselves as to the accuracy of the information supplied by interested Members or interested parties upon which their findings are based.

12.6 The investigating authorities may carry out investigations in the territory of other Members as required, provided that they have notified in good time the Member in question and unless that Member objects to the investigation. Further, the investigating authorities may carry out investigations on the premises of a firm and may examine the records of a firm if (a) the firm so agrees and (b) the Member in question is notified and does not object. The procedures set forth in Annex VI shall apply to investigations on the premises of a firm. Subject to the requirement to protect confidential information, the authorities shall make the results of any such investigations available, or shall provide disclosure thereof pursuant to paragraph 8, to the firms to which they pertain and may make such results available to the applicants.

12.7 In cases in which any interested Member or interested party refuses access to, or otherwise does not provide, necessary information within a reasonable period or significantly impedes the investigation, preliminary and final determinations, affirmative or negative, may be made on the basis of the facts available.

12.8 The authorities shall, before a final determination is made, inform all interested Members and interested parties of the essential facts under consideration which form the basis for the decision whether to apply definitive measures. Such disclosure should take place in sufficient time for the parties to defend their interests.

12.9 For the purposes of this Agreement, "interested parties" shall include:

(i) an exporter or foreign producer or the importer of a product subject to investigation, or a trade or business association a majority of the members of which are producers, exporters or importers of such product; and

(ii) a producer of the like product in the importing Member or a trade and business association a majority of the members of which produce the like product in the territory of the importing Member.

---

84 Members agree that requests for confidentiality should not be arbitrarily rejected. Members further agree that the investigating authority may request the waiving of confidentiality only regarding information relevant to the proceedings.
This list shall not preclude Members from allowing domestic or foreign parties other than those mentioned above to be included as interested parties.

12.10 The authorities shall provide opportunities for industrial users of the product under investigation, and for representative consumer organizations in cases where the product is commonly sold at the retail level, to provide information which is relevant to the investigation regarding subsidization, injury and causality.

12.11 The authorities shall take due account of any difficulties experienced by interested parties, in particular small companies, in supplying information requested, and shall provide any assistance practicable.

12.12 The procedures set out above are not intended to prevent the authorities of a Member from proceeding expeditiously with regard to initiating an investigation, reaching preliminary or final determinations, whether affirmative or negative, or from applying provisional or final measures, in accordance with relevant provisions of this Agreement.

Article 13

Consultations

13.1 As soon as possible after an application under Article 11 is accepted, and in any event before the initiation of any investigation, Members the products of which may be subject to such investigation shall be invited for consultations with the aim of clarifying the situation as to the matters referred to in paragraph 2 of Article 11 and arriving at a mutually agreed solution.

13.2 Furthermore, throughout the period of investigation, Members the products of which are the subject of the investigation shall be afforded a reasonable opportunity to continue consultations, with a view to clarifying the factual situation and to arriving at a mutually agreed solution.  

13.3 Without prejudice to the obligation to afford reasonable opportunity for consultation, these provisions regarding consultations are not intended to prevent the authorities of a Member from proceeding expeditiously with regard to initiating the investigation, reaching preliminary or final determinations, whether affirmative or negative, or from applying provisional or final measures, in accordance with the provisions of this Agreement.

13.4 The Member which intends to initiate any investigation or is conducting such an investigation shall permit, upon request, the Member or Members the products of which are subject to such investigation access to non-confidential evidence, including the non-confidential summary of confidential data being used for initiating or conducting the investigation.

Article 14

85 It is particularly important, in accordance with the provisions of this paragraph, that no affirmative determination whether preliminary or final be made without reasonable opportunity for consultations having been given. Such consultations may establish the basis for proceeding under the provisions of Part II, III or X.
Calculation of the Amount of a Subsidy in Terms of the Benefit to the Recipient

For the purpose of Part V, any method used by the investigating authority to calculate the benefit to the recipient conferred pursuant to paragraph 1 of Article 1 shall be provided for in the national legislation or implementing regulations of the Member concerned and its application to each particular case shall be transparent and adequately explained. Furthermore, any such method shall be consistent with the following guidelines:

(a) government provision of equity capital shall not be considered as conferring a benefit, unless the investment decision can be regarded as inconsistent with the usual investment practice (including for the provision of risk capital) of private investors in the territory of that Member;

(b) a loan by a government shall not be considered as conferring a benefit, unless there is a difference between the amount that the firm receiving the loan pays on the government loan and the amount the firm would pay on a comparable commercial loan which the firm could actually obtain on the market. In this case the benefit shall be the difference between these two amounts;

(c) a loan guarantee by a government shall not be considered as conferring a benefit, unless there is a difference between the amount that the firm receiving the guarantee pays on a loan guaranteed by the government and the amount that the firm would pay on a comparable commercial loan absent the government guarantee. In this case the benefit shall be the difference between these two amounts adjusted for any differences in fees;

(d) the provision of goods or services or purchase of goods by a government shall not be considered as conferring a benefit unless the provision is made for less than adequate remuneration, or the purchase is made for more than adequate remuneration. The adequacy of remuneration shall be determined in relation to prevailing market conditions for the good or service in question in the country of provision or purchase (including price, quality, availability, marketability, transportation and other conditions of purchase or sale).

Article 15

Determination of Injury

15.1 A determination of injury for purposes of Article VI of GATT 1994 shall be based on positive evidence and involve an objective examination of both (a) the volume of the subsidized imports and the effect of the subsidized imports on prices

---

86 Under this Agreement the term "injury" shall, unless otherwise specified, be taken to mean material injury to a domestic industry, threat of material injury to a domestic industry or material retardation of the establishment of such an industry and shall be interpreted in accordance with the provisions of this Article.
in the domestic market for like products, and (b) the consequent impact of these imports on the domestic producers of such products.

15.2 With regard to the volume of the subsidized imports, the investigating authorities shall consider whether there has been a significant increase in subsidized imports, either in absolute terms or relative to production or consumption in the importing Member. With regard to the effect of the subsidized imports on prices, the investigating authorities shall consider whether there has been a significant price undercutting by the subsidized imports as compared with the price of a like product of the importing Member, or whether the effect of such imports is otherwise to depress prices to a significant degree or to prevent price increases, which otherwise would have occurred, to a significant degree. No one or several of these factors can necessarily give decisive guidance.

15.3 Where imports of a product from more than one country are simultaneously subject to countervailing duty investigations, the investigating authorities may cumulatively assess the effects of such imports only if they determine that (a) the amount of subsidization established in relation to the imports from each country is more than de minimis as defined in paragraph 9 of Article 11 and the volume of imports from each country is not negligible and (b) a cumulative assessment of the effects of the imports is appropriate in light of the conditions of competition between the imported products and the conditions of competition between the imported products and the like domestic product.

15.4 The examination of the impact of the subsidized imports on the domestic industry shall include an evaluation of all relevant economic factors and indices having a bearing on the state of the industry, including actual and potential decline in output, sales, market share, profits, productivity, return on investments, or utilization of capacity; factors affecting domestic prices; actual and potential negative effects on cash flow, inventories, employment, wages, growth, ability to raise capital or investments and, in the case of agriculture, whether there has been an increased burden on government support programmes. This list is not exhaustive, nor can one or several of these factors necessarily give decisive guidance.

15.5 It must be demonstrated that the subsidized imports are, through the effects of subsidies, causing injury within the meaning of this Agreement. The demonstration of a causal relationship between the subsidized imports and the injury to the domestic industry shall be based on an examination of all relevant evidence before the authorities. The authorities shall also examine any known factors other than the subsidized imports which at the same time are injuring the domestic industry, and the injuries caused by these other factors must not be attributed to the subsidized imports. Factors which may be relevant in this respect include, inter alia, the volumes and prices of non-subsidized imports of the product in question, contraction in demand or changes in the patterns of consumption, trade restrictive practices of and competition between the foreign and domestic producers, developments in technology and the export performance and productivity of the domestic industry.

---

87 Throughout this Agreement the term "like product" ("produit similaire") shall be interpreted to mean a product which is identical, i.e. alike in all respects to the product under consideration, or in the absence of such a product, another product which, although not alike in all respects, has characteristics closely resembling those of the product under consideration.

88 As set forth in paragraphs 2 and 4.
15.6 The effect of the subsidized imports shall be assessed in relation to the domestic production of the like product when available data permit the separate identification of that production on the basis of such criteria as the production process, producers’ sales and profits. If such separate identification of that production is not possible, the effects of the subsidized imports shall be assessed by the examination of the production of the narrowest group or range of products, which includes the like product, for which the necessary information can be provided.

15.7 A determination of a threat of material injury shall be based on facts and not merely on allegation, conjecture or remote possibility. The change in circumstances which would create a situation in which the subsidy would cause injury must be clearly foreseen and imminent. In making a determination regarding the existence of a threat of material injury, the investigating authorities should consider, inter alia, such factors as:

(i) nature of the subsidy or subsidies in question and the trade effects likely to arise therefrom;

(ii) a significant rate of increase of subsidized imports into the domestic market indicating the likelihood of substantially increased importation;

(iii) sufficient freely disposable, or an imminent, substantial increase in, capacity of the exporter indicating the likelihood of substantially increased subsidized exports to the importing Member’s market, taking into account the availability of other export markets to absorb any additional exports;

(iv) whether imports are entering at prices that will have a significant depressing or suppressing effect on domestic prices, and would likely increase demand for further imports; and

(v) inventories of the product being investigated.

No one of these factors by itself can necessarily give decisive guidance but the totality of the factors considered must lead to the conclusion that further subsidized exports are imminent and that, unless protective action is taken, material injury would occur.

15.8 With respect to cases where injury is threatened by subsidized imports, the application of countervailing measures shall be considered and decided with special care.

**Article 16**

**Definition of Domestic Industry**

16.1 For the purposes of this Agreement, the term "domestic industry" shall, except as provided in paragraph 2, be interpreted as referring to the domestic producers as a whole of the like products or to those of them whose collective output of the products constitutes a major proportion of the total domestic
production of those products, except that when producers are related\(^89\) to the
exporters or importers or are themselves importers of the allegedly subsidized
product or a like product from other countries, the term "domestic industry" may be
interpreted as referring to the rest of the producers.

16.2. In exceptional circumstances, the territory of a Member may, for the
production in question, be divided into two or more competitive markets and the
producers within each market may be regarded as a separate industry if (a) the
producers within such market sell all or almost all of their production of the product
in question in that market, and (b) the demand in that market is not to any
substantial degree supplied by producers of the product in question located
elsewhere in the territory. In such circumstances, injury may be found to exist
even where a major portion of the total domestic industry is not injured, provided
there is a concentration of subsidized imports into such an isolated market and
provided further that the subsidized imports are causing injury to the producers of
all or almost all of the production within such market.

16.3 When the domestic industry has been interpreted as referring to the
producers in a certain area, i.e. a market as defined in paragraph 2, countervailing
duties shall be levied only on the products in question consigned for final
consumption to that area. When the constitutional law of the importing Member
does not permit the levying of countervailing duties on such a basis, the importing
Member may levy the countervailing duties without limitation only if (a) the
exporters shall have been given an opportunity to cease exporting at subsidized
prices to the area concerned or otherwise give assurances pursuant to Article 18,
and adequate assurances in this regard have not been promptly given, and (b) such
duties cannot be levied only on products of specific producers which supply the
area in question.

16.4 Where two or more countries have reached under the provisions of
paragraph 8(a) of Article XXIV of GATT 1994 such a level of integration that they
have the characteristics of a single, unified market, the industry in the entire area of
integration shall be taken to be the domestic industry referred to in paragraphs 1
and 2.

16.5 The provisions of paragraph 6 of Article 15 shall be applicable to this
Article.

**Article 17**

*Provisional Measures*

17.1 Provisional measures may be applied only if:

\[(a)\] an investigation has been initiated in accordance with the provisions
of Article 11, a public notice has been given to that effect and
interested Members and interested parties have been given adequate

---

\(^89\) For the purpose of this paragraph, producers shall be deemed to be related to exporters or importers only if (a) one
of them directly or indirectly controls the other; or (b) both of them are directly or indirectly controlled by a third
person; or (c) together they directly or indirectly control a third person, provided that there are grounds for believing
or suspecting that the effect of the relationship is such as to cause the producer concerned to behave differently from
non-related producers. For the purpose of this paragraph, one shall be deemed to control another when the former is
legally or operationally in a position to exercise restraint or direction over the latter.
opportunities to submit information and make comments;

(b) a preliminary affirmative determination has been made that a subsidy exists and that there is injury to a domestic industry caused by subsidized imports; and

(c) the authorities concerned judge such measures necessary to prevent injury being caused during the investigation.

17.2 Provisional measures may take the form of provisional countervailing duties guaranteed by cash deposits or bonds equal to the amount of the provisionally calculated amount of subsidization.

17.3 Provisional measures shall not be applied sooner than 60 days from the date of initiation of the investigation.

17.4 The application of provisional measures shall be limited to as short a period as possible, not exceeding four months.

17.5 The relevant provisions of Article 19 shall be followed in the application of provisional measures.

**Article 18**

*Undertakings*

18.1 Proceedings may be suspended or terminated without the imposition of provisional measures or countervailing duties upon receipt of satisfactory voluntary undertakings under which:

(a) the government of the exporting Member agrees to eliminate or limit the subsidy or take other measures concerning its effects; or

(b) the exporter agrees to revise its prices so that the investigating authorities are satisfied that the injurious effect of the subsidy is eliminated. Price increases under such undertakings shall not be higher than necessary to eliminate the amount of the subsidy. It is desirable that the price increases be less than the amount of the subsidy if such increases would be adequate to remove the injury to the domestic industry.

18.2 Undertakings shall not be sought or accepted unless the authorities of the importing Member have made a preliminary affirmative determination of subsidization and injury caused by such subsidization and, in case of undertakings from exporters, have obtained the consent of the exporting Member.

18.3 Undertakings offered need not be accepted if the authorities of the importing Member consider their acceptance impractical, for example if the number

---

90 The word "may" shall not be interpreted to allow the simultaneous continuation of proceedings with the implementation of undertakings, except as provided in paragraph 4.
of actual or potential exporters is too great, or for other reasons, including reasons of general policy. Should the case arise and where practicable, the authorities shall provide to the exporter the reasons which have led them to consider acceptance of an undertaking as inappropriate, and shall, to the extent possible, give the exporter an opportunity to make comments thereon.

18.4 If an undertaking is accepted, the investigation of subsidization and injury shall nevertheless be completed if the exporting Member so desires or the importing Member so decides. In such a case, if a negative determination of subsidization or injury is made, the undertaking shall automatically lapse, except in cases where such a determination is due in large part to the existence of an undertaking. In such cases, the authorities concerned may require that an undertaking be maintained for a reasonable period consistent with the provisions of this Agreement. In the event that an affirmative determination of subsidization and injury is made, the undertaking shall continue consistent with its terms and the provisions of this Agreement.

18.5 Price undertakings may be suggested by the authorities of the importing Member, but no exporter shall be forced to enter into such undertakings. The fact that governments or exporters do not offer such undertakings, or do not accept an invitation to do so, shall in no way prejudice the consideration of the case. However, the authorities are free to determine that a threat of injury is more likely to be realized if the subsidized imports continue.

18.6 Authorities of an importing Member may require any government or exporter from whom an undertaking has been accepted to provide periodically information relevant to the fulfilment of such an undertaking, and to permit verification of pertinent data. In case of violation of an undertaking, the authorities of the importing Member may take, under this Agreement in conformity with its provisions, expeditious actions which may constitute immediate application of provisional measures using the best information available. In such cases, definitive duties may be levied in accordance with this Agreement on products entered for consumption not more than 90 days before the application of such provisional measures, except that any such retroactive assessment shall not apply to imports entered before the violation of the undertaking.

Article 19

Imposition and Collection of Countervailing Duties

19.1 If, after reasonable efforts have been made to complete consultations, a Member makes a final determination of the existence and amount of the subsidy and that, through the effects of the subsidy, the subsidized imports are causing injury, it may impose a countervailing duty in accordance with the provisions of this Article unless the subsidy or subsidies are withdrawn.

19.2 The decision whether or not to impose a countervailing duty in cases where all requirements for the imposition have been fulfilled, and the decision whether the amount of the countervailing duty to be imposed shall be the full amount of the subsidy or less, are decisions to be made by the authorities of the importing Member. It is desirable that the imposition should be permissive in the territory of all Members, that the duty should be less than the total amount of the subsidy if such lesser duty would be adequate to remove the injury to the domestic industry,
and that procedures should be established which would allow the authorities concerned to take due account of representations made by domestic interested parties whose interests might be adversely affected by the imposition of a countervailing duty.

19.3 When a countervailing duty is imposed in respect of any product, such countervailing duty shall be levied, in the appropriate amounts in each case, on a non-discriminatory basis on imports of such product from all sources found to be subsidized and causing injury, except as to imports from those sources which have renounced any subsidies in question or from which undertakings under the terms of this Agreement have been accepted. Any exporter whose exports are subject to a definitive countervailing duty but who was not actually investigated for reasons other than a refusal to cooperate, shall be entitled to an expedited review in order that the investigating authorities promptly establish an individual countervailing duty rate for that exporter.

19.4 No countervailing duty shall be levied on any imported product in excess of the amount of the subsidy found to exist, calculated in terms of subsidization per unit of the subsidized and exported product.

Article 20

Retroactivity

20.1 Provisional measures and countervailing duties shall only be applied to products which enter for consumption after the time when the decision under paragraph 1 of Article 17 and paragraph 1 of Article 19, respectively, enters into force, subject to the exceptions set out in this Article.

20.2 Where a final determination of injury (but not of a threat thereof or of a material retardation of the establishment of an industry) is made or, in the case of a final determination of a threat of injury, where the effect of the subsidized imports would, in the absence of the provisional measures, have led to a determination of injury, countervailing duties may be levied retroactively for the period for which provisional measures, if any, have been applied.

20.3 If the definitive countervailing duty is higher than the amount guaranteed by the cash deposit or bond, the difference shall not be collected. If the definitive duty is less than the amount guaranteed by the cash deposit or bond, the excess amount shall be reimbursed or the bond released in an expeditious manner.

20.4 Except as provided in paragraph 2, where a determination of threat of injury or material retardation is made (but no injury has yet occurred) a definitive countervailing duty may be imposed only from the date of the determination of threat of injury or material retardation, and any cash deposit made during the period of the application of provisional measures shall be refunded and any bonds released in an expeditious manner.

20.5 Where a final determination is negative, any cash deposit made during the

---

91 For the purpose of this paragraph, the term "domestic interested parties" shall include consumers and industrial users of the imported product subject to investigation.

92 As used in this Agreement "levy" shall mean the definitive or final legal assessment or collection of a duty or tax.
period of the application of provisional measures shall be refunded and any bonds released in an expeditious manner.

20.6 In critical circumstances where for the subsidized product in question the authorities find that injury which is difficult to repair is caused by massive imports in a relatively short period of a product benefiting from subsidies paid or bestowed inconsistently with the provisions of GATT 1994 and of this Agreement and where it is deemed necessary, in order to preclude the recurrence of such injury, to assess countervailing duties retroactively on those imports, the definitive countervailing duties may be assessed on imports which were entered for consumption not more than 90 days prior to the date of application of provisional measures.

Article 21

Duration and Review of Countervailing Duties and Undertakings

21.1 A countervailing duty shall remain in force only as long as and to the extent necessary to counteract subsidization which is causing injury.

21.2 The authorities shall review the need for the continued imposition of the duty, where warranted, on their own initiative or, provided that a reasonable period of time has elapsed since the imposition of the definitive countervailing duty, upon request by any interested party which submits positive information substantiating the need for a review. Interested parties shall have the right to request the authorities to examine whether the continued imposition of the duty is necessary to offset subsidization, whether the injury would be likely to continue or recur if the duty were removed or varied, or both. If, as a result of the review under this paragraph, the authorities determine that the countervailing duty is no longer warranted, it shall be terminated immediately.

21.3 Notwithstanding the provisions of paragraphs 1 and 2, any definitive countervailing duty shall be terminated on a date not later than five years from its imposition (or from the date of the most recent review under paragraph 2 if that review has covered both subsidization and injury, or under this paragraph), unless the authorities determine, in a review initiated before that date on their own initiative or upon a duly substantiated request made by or on behalf of the domestic industry within a reasonable period of time prior to that date, that the expiry of the duty would be likely to lead to continuation or recurrence of subsidization and injury. The duty may remain in force pending the outcome of such a review.

21.4 The provisions of Article 12 regarding evidence and procedure shall apply to any review carried out under this Article. Any such review shall be carried out expeditiously and shall normally be concluded within 12 months of the date of initiation of the review.

21.5 The provisions of this Article shall apply mutatis mutandis to undertakings accepted under Article 18.

Article 21

93 When the amount of the countervailing duty is assessed on a retrospective basis, a finding in the most recent assessment proceeding that no duty is to be levied shall not by itself require the authorities to terminate the definitive duty.
21.1 A countervailing duty shall remain in force only as long as and to the extent necessary to counteract subsidization which is causing injury.

21.2 The authorities shall review the need for the continued imposition of the duty, where warranted, on their own initiative or, provided that a reasonable period of time has elapsed since the imposition of the definitive countervailing duty, upon request by any interested party which submits positive information substantiating the need for a review. Interested parties shall have the right to request the authorities to examine whether the continued imposition of the duty is necessary to offset subsidization, whether the injury would be likely to continue or recur if the duty were removed or varied, or both. If, as a result of the review under this paragraph, the authorities determine that the countervailing duty is no longer warranted, it shall be terminated immediately.

21.3 Notwithstanding the provisions of paragraphs 1 and 2, any definitive countervailing duty shall be terminated on a date not later than five years from its imposition (or from the date of the most recent review under paragraph 2 if that review has covered both subsidization and injury, or under this paragraph), unless the authorities determine, in a review initiated before that date on their own initiative or upon a duly substantiated request made by or on behalf of the domestic industry within a reasonable period of time prior to that date, that the expiry of the duty would be likely to lead to continuation or recurrence of subsidization and injury. The duty may remain in force pending the outcome of such a review.

21.4 The provisions of Article 12 regarding evidence and procedure shall apply to any review carried out under this Article. Any such review shall be carried out expeditiously and shall normally be concluded within 12 months of the date of initiation of the review.

21.5 The provisions of this Article shall apply mutatis mutandis to undertakings accepted under Article 18.

**Article 23**

**Judicial Review**

Each Member whose national legislation contains provisions on countervailing duty measures shall maintain judicial, arbitral or administrative tribunals or procedures for the purpose, inter alia, of the prompt review of administrative actions relating to final determinations and reviews of determinations within the meaning of Article 21. Such tribunals or procedures shall be independent of the authorities responsible for the determination or review in question, and shall provide all interested parties who participated in the administrative proceeding and are directly and individually affected by the administrative actions with access to review.

---

94 When the amount of the countervailing duty is assessed on a retrospective basis, a finding in the most recent assessment proceeding that no duty is to be levied shall not by itself require the authorities to terminate the definitive duty.
PART VII: NOTIFICATION AND SURVEILLANCE

Article 25

Notifications

25.1 Members agree that, without prejudice to the provisions of paragraph 1 of Article XVI of GATT 1994, their notifications of subsidies shall be submitted not later than 30 June of each year and shall conform to the provisions of paragraphs 2 through 6.

25.2 Members shall notify any subsidy as defined in paragraph 1 of Article 1, which is specific within the meaning of Article 2, granted or maintained within their territories.

25.3 The content of notifications should be sufficiently specific to enable other Members to evaluate the trade effects and to understand the operation of notified subsidy programmes. In this connection, and without prejudice to the contents and form of the questionnaire on subsidies, Members shall ensure that their notifications contain the following information:

(i) form of a subsidy (i.e. grant, loan, tax concession, etc.);

(ii) subsidy per unit or, in cases where this is not possible, the total amount or the annual amount budgeted for that subsidy (indicating, if possible, the average subsidy per unit in the previous year);

(iii) policy objective and/or purpose of a subsidy;

(iv) duration of a subsidy and/or any other time-limits attached to it;

(v) statistical data permitting an assessment of the trade effects of a subsidy.

25.4 Where specific points in paragraph 3 have not been addressed in a notification, an explanation shall be provided in the notification itself.

25.5 If subsidies are granted to specific products or sectors, the notifications should be organized by product or sector.

25.6 Members which consider that there are no measures in their territories requiring notification under paragraph 1 of Article XVI of GATT 1994 and this Agreement shall so inform the Secretariat in writing.

25.7 Members recognize that notification of a measure does not prejudge either its legal status under GATT 1994 and this Agreement, the effects under this Agreement, or the nature of the measure itself.

25.8 Any Member may, at any time, make a written request for information on the nature and extent of any subsidy granted or maintained by another Member.

95 The Committee shall establish a Working Party to review the contents and form of the questionnaire as contained in BISD 9S/193-194.
(including any subsidy referred to in Part IV), or for an explanation of the reasons for which a specific measure has been considered as not subject to the requirement of notification.

25.9 Members so requested shall provide such information as quickly as possible and in a comprehensive manner, and shall be ready, upon request, to provide additional information to the requesting Member. In particular, they shall provide sufficient details to enable the other Member to assess their compliance with the terms of this Agreement. Any Member which considers that such information has not been provided may bring the matter to the attention of the Committee.

25.10 Any Member which considers that any measure of another Member having the effects of a subsidy has not been notified in accordance with the provisions of paragraph 1 of Article XVI of GATT 1994 and this Article may bring the matter to the attention of such other Member. If the alleged subsidy is not thereafter notified promptly, such Member may itself bring the alleged subsidy in question to the notice of the Committee.

25.11 Members shall report without delay to the Committee all preliminary or final actions taken with respect to countervailing duties. Such reports shall be available in the Secretariat for inspection by other Members. Members shall also submit, on a semi-annual basis, reports on any countervailing duty actions taken within the preceding six months. The semi-annual reports shall be submitted on an agreed standard form.

25.12 Each Member shall notify the Committee (a) which of its authorities are competent to initiate and conduct investigations referred to in Article 11 and (b) its domestic procedures governing the initiation and conduct of such investigations.

**PART IX: TRANSITIONAL ARRANGEMENTS**

**Article 28**

*Existing Programmes*

28.1 Subsidy programmes which have been established within the territory of any Member before the date on which such a Member signed the WTO Agreement and which are inconsistent with the provisions of this Agreement shall be:

(a) notified to the Committee not later than 90 days after the date of entry into force of the WTO Agreement for such Member; and

(b) brought into conformity with the provisions of this Agreement within three years of the date of entry into force of the WTO Agreement for such Member and until then shall not be subject to Part II.

28.2 No Member shall extend the scope of any such programme, nor shall such a programme be renewed upon its expiry.

**Article 29**

*Transformation into a Market Economy*
29.1 Members in the process of transformation from a centrally-planned into a market, free-enterprise economy may apply programmes and measures necessary for such a transformation.

29.2 For such Members, subsidy programmes falling within the scope of Article 3, and notified according to paragraph 3, shall be phased out or brought into conformity with Article 3 within a period of seven years from the date of entry into force of the WTO Agreement. … .

29.3 Subsidy programmes falling within the scope of Article 3 shall be notified to the Committee by the earliest practicable date after the date of entry into force of the WTO Agreement. Further notifications of such subsidies may be made up to two years after the date of entry into force of the WTO Agreement.

29.4 In exceptional circumstances Members referred to in paragraph 1 may be given departures from their notified programmes and measures and their time-frame by the Committee if such departures are deemed necessary for the process of transformation.

**Article 32**

*Other Final Provisions*

32.1 No specific action against a subsidy of another Member can be taken except in accordance with the provisions of GATT 1994, as interpreted by this Agreement.  

32.3 Subject to paragraph 4, the provisions of this Agreement shall apply to investigations, and reviews of existing measures, initiated pursuant to applications which have been made on or after the date of entry into force for a Member of the WTO Agreement.

32.4 For the purposes of paragraph 3 of Article 21, existing countervailing measures shall be deemed to be imposed on a date not later than the date of entry into force for a Member of the WTO Agreement, except in cases in which the domestic legislation of a Member in force at that date already included a clause of the type provided for in that paragraph.

32.5 Each Member shall take all necessary steps, of a general or particular character, to ensure, not later than the date of entry into force of the WTO Agreement for it, the conformity of its laws, regulations and administrative procedures with the provisions of this Agreement as they may apply to the Member in question.

32.6 Each Member shall inform the Committee of any changes in its laws and regulations relevant to this Agreement and in the administration of such laws and regulations.

32.8 The Annexes to this Agreement constitute an integral part thereof.  

---

96 This paragraph is not intended to preclude action under other relevant provisions of GATT 1994, where appropriate.
97 Editor’s note: this paragraph applies to the ECT only insofar as it refers to Annexes I, II, III, IV, VI.
(ix) Agreement on Safeguards

[Members,

Having in mind the overall objective of the Members to improve and strengthen the international trading system based on GATT 1994;

Recognizing the need to clarify and reinforce the disciplines of GATT 1994, and specifically those of its Article XIX (Emergency Action on Imports of Particular Products), to re-establish multilateral control over safeguards and eliminate measures that escape such control;

Recognizing the importance of structural adjustment and the need to enhance rather than limit competition in international markets; and

Recognizing further that, for these purposes, a comprehensive agreement, applicable to all Members and based on the basic principles of GATT 1994, is called for;

Hereby agree as follows:]

Article 1

General Provision

This Agreement establishes rules for the application of safeguard measures which shall be understood to mean those measures provided for in Article XIX of GATT 1994.

Article 2

Conditions

1. A Member\textsuperscript{98} may apply a safeguard measure to a product only if that

\textsuperscript{98} A customs union may apply a safeguard measure as a single unit or on behalf of a member State. When a customs union applies a safeguard measure as a single unit, all the requirements for the determination of serious injury or
Member has determined, pursuant to the provisions set out below, that such product is being imported into its territory in such increased quantities, absolute or relative to domestic production, and under such conditions as to cause or threaten to cause serious injury to the domestic industry that produces like or directly competitive products.

2. Safeguard measures shall be applied to a product being imported irrespective of its source.

**Article 3**

*Investigation*

1. A Member may apply a safeguard measure only following an investigation by the competent authorities of that Member pursuant to procedures previously established and made public in consonance with Article X of GATT 1994. This investigation shall include reasonable public notice to all interested parties and public hearings or other appropriate means in which importers, exporters and other interested parties could present evidence and their views, including the opportunity to respond to the presentations of other parties and to submit their views, inter alia, as to whether or not the application of a safeguard measure would be in the public interest. The competent authorities shall publish a report setting forth their findings and reasoned conclusions reached on all pertinent issues of fact and law.

2. Any information which is by nature confidential or which is provided on a confidential basis shall, upon cause being shown, be treated as such by the competent authorities. Such information shall not be disclosed without permission of the party submitting it. Parties providing confidential information may be requested to furnish non-confidential summaries thereof or, if such parties indicate that such information cannot be summarized, the reasons why a summary cannot be provided. However, if the competent authorities find that a request for confidentiality is not warranted and if the party concerned is either unwilling to make the information public or to authorize its disclosure in generalized or summary form, the authorities may disregard such information unless it can be demonstrated to their satisfaction from appropriate sources that the information is correct.

**Article 4**

*Determination of Serious Injury or Threat Thereof*

1. For the purposes of this Agreement:

   (a) "serious injury" shall be understood to mean a significant overall impairment in the position of a domestic industry;

   (b) "threat of serious injury" shall be understood to mean serious injury that is clearly imminent, in accordance with the provisions of threat thereof under this Agreement shall be based on the conditions existing in the customs union as a whole. When a safeguard measure is applied on behalf of a member State, all the requirements for the determination of serious injury or threat thereof shall be based on the conditions existing in that member State and the measure shall be limited to that member State. Nothing in this Agreement prejudges the interpretation of the relationship between Article XIX and paragraph 8 of Article XXIV of GATT 1994.
paragraph 2. A determination of the existence of a threat of serious injury shall be based on facts and not merely on allegation, conjecture or remote possibility; and

(c) in determining injury or threat thereof, a "domestic industry" shall be understood to mean the producers as a whole of the like or directly competitive products operating within the territory of a Member, or those whose collective output of the like or directly competitive products constitutes a major proportion of the total domestic production of those products.

2. (a) In the investigation to determine whether increased imports have caused or are threatening to cause serious injury to a domestic industry under the terms of this Agreement, the competent authorities shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of that industry, in particular, the rate and amount of the increase in imports of the product concerned in absolute and relative terms, the share of the domestic market taken by increased imports, changes in the level of sales, production, productivity, capacity utilization, profits and losses, and employment.

(b) The determination referred to in subparagraph (a) shall not be made unless this investigation demonstrates, on the basis of objective evidence, the existence of the causal link between increased imports of the product concerned and serious injury or threat thereof. When factors other than increased imports are causing injury to the domestic industry at the same time, such injury shall not be attributed to increased imports.

(c) The competent authorities shall publish promptly, in accordance with the provisions of Article 3, a detailed analysis of the case under investigation as well as a demonstration of the relevance of the factors examined.

Article 5

Application of Safeguard Measures

1. A Member shall apply safeguard measures only to the extent necessary to prevent or remedy serious injury and to facilitate adjustment. If a quantitative restriction is used, such a measure shall not reduce the quantity of imports below the level of a recent period which shall be the average of imports in the last three representative years for which statistics are available, unless clear justification is given that a different level is necessary to prevent or remedy serious injury. Members should choose measures most suitable for the achievement of these objectives.

2. (a) In cases in which a quota is allocated among supplying countries, the Member applying the restrictions may seek agreement with respect to the allocation of shares in the quota with all other Members having a substantial interest in supplying the product concerned. In cases in which this method is not reasonably practicable, the
Member concerned shall allot to Members having a substantial interest in supplying the product shares based upon the proportions, supplied by such Members during a previous representative period, of the total quantity or value of imports of the product, due account being taken of any special factors which may have affected or may be affecting the trade in the product.

(b) A Member may depart from the provisions in subparagraph (a) provided that consultations under paragraph 3 of Article 12 are conducted under the auspices of the Committee on Safeguards provided for in paragraph 1 of Article 13 and that clear demonstration is provided to the Committee that (i) imports from certain Members have increased in disproportionate percentage in relation to the total increase of imports of the product concerned in the representative period, (ii) the reasons for the departure from the provisions in subparagraph (a) are justified, and (iii) the conditions of such departure are equitable to all suppliers of the product concerned. The duration of any such measure shall not be extended beyond the initial period under paragraph 1 of Article 7. The departure referred to above shall not be permitted in the case of threat of serious injury.

Article 6

Provisional Safeguard Measures

In critical circumstances where delay would cause damage which it would be difficult to repair, a Member may take a provisional safeguard measure pursuant to a preliminary determination that there is clear evidence that increased imports have caused or are threatening to cause serious injury. The duration of the provisional measure shall not exceed 200 days, during which period the pertinent requirements of Articles 2 through 7 and 12 shall be met. Such measures should take the form of tariff increases to be promptly refunded if the subsequent investigation referred to in paragraph 2 of Article 4 does not determine that increased imports have caused or threatened to cause serious injury to a domestic industry. The duration of any such provisional measure shall be counted as a part of the initial period and any extension referred to in paragraphs 1, 2 and 3 of Article 7.

Article 7

Duration and Review of Safeguard Measures

1. A Member shall apply safeguard measures only for such period of time as may be necessary to prevent or remedy serious injury and to facilitate adjustment. The period shall not exceed four years, unless it is extended under paragraph 2.

2. The period mentioned in paragraph 1 may be extended provided that the competent authorities of the importing Member have determined, in conformity with the procedures set out in Articles 2, 3, 4 and 5, that the safeguard measure continues to be necessary to prevent or remedy serious injury and that there is evidence that the industry is adjusting, and provided that the pertinent provisions of Articles 8 and 12 are observed.
3. The total period of application of a safeguard measure including the period of application of any provisional measure, the period of initial application and any extension thereof, shall not exceed eight years.

4. In order to facilitate adjustment in a situation where the expected duration of a safeguard measure as notified under the provisions of paragraph 1 of Article 12 is over one year, the Member applying the measure shall progressively liberalize it at regular intervals during the period of application. If the duration of the measure exceeds three years, the Member applying such a measure shall review the situation not later than the mid-term of the measure and, if appropriate, withdraw it or increase the pace of liberalization. A measure extended under paragraph 2 shall not be more restrictive than it was at the end of the initial period, and should continue to be liberalized.

5. No safeguard measure shall be applied again to the import of a product which has been subject to such a measure, taken after the date of entry into force of the WTO Agreement, for a period of time equal to that during which such measure had been previously applied, provided that the period of non-application is at least two years.

6. Notwithstanding the provisions of paragraph 5, a safeguard measure with a duration of 180 days or less may be applied again to the import of a product if:

   (a) at least one year has elapsed since the date of introduction of a safeguard measure on the import of that product; and

   (b) such a safeguard measure has not been applied on the same product more than twice in the five-year period immediately preceding the date of introduction of the measure.

Article 8

Level of Concessions and Other Obligations

1. A Member proposing to apply a safeguard measure or seeking an extension of a safeguard measure shall endeavour to maintain a substantially equivalent level of concessions and other obligations to that existing under GATT 1994 between it and the exporting Members which would be affected by such a measure, in accordance with the provisions of paragraph 3 of Article 12. To achieve this objective, the Members concerned may agree on any adequate means of trade compensation for the adverse effects of the measure on their trade.

2. If no agreement is reached within 30 days in the consultations under paragraph 3 of Article 12, then the affected exporting Members shall be free, not later than 90 days after the measure is applied, to suspend, upon the expiration of 30 days from the day on which written notice of such suspension is received by the Council for Trade in Goods, the application of substantially equivalent concessions or other obligations under GATT 1994, to the trade of the Member applying the safeguard measure, the suspension of which the Council for Trade in Goods does not disapprove.

3. The right of suspension referred to in paragraph 2 shall not be exercised for the first three years that a safeguard measure is in effect, provided that the
safeguard measure has been taken as a result of an absolute increase in imports and that such a measure conforms to the provisions of this Agreement.

**Article 10**

*Pre-existing Article XIX Measures*

Members shall terminate all safeguard measures taken pursuant to Article XIX of GATT 1947 that were in existence on the date of entry into force of the WTO Agreement not later than eight years after the date on which they were first applied or five years after the date of entry into force of the WTO Agreement, whichever comes later.

**Article 11**

*Prohibition and Elimination of Certain Measures*

1. (a) A Member shall not take or seek any emergency action on imports of particular products as set forth in Article XIX of GATT 1994 unless such action conforms with the provisions of that Article applied in accordance with this Agreement.

   (b) Furthermore, a Member shall not seek, take or maintain any voluntary export restraints, orderly marketing arrangements or any other similar measures on the export or the import side.99 100 These include actions taken by a single Member as well as actions under agreements, arrangements and understandings entered into by two or more Members. Any such measure in effect on the date of entry into force of the WTO Agreement shall be brought into conformity with this Agreement or phased out in accordance with paragraph 2.

   (c) This Agreement does not apply to measures sought, taken or maintained by a Member pursuant to provisions of GATT 1994 other than Article XIX, and Multilateral Trade Agreements in Annex 1A other than this Agreement, or pursuant to protocols and agreements or arrangements concluded within the framework of GATT 1994.

2. The phasing out of measures referred to in paragraph 1(b) shall be carried out according to timetables to be presented to the Committee on Safeguards by the Members concerned not later than 180 days after the date of entry into force of the WTO Agreement. These timetables shall provide for all measures referred to in paragraph 1 to be phased out or brought into conformity with this Agreement within a period not exceeding four years after the date of entry into force of the WTO Agreement, subject to not more than one specific measure per importing Member101, the duration of which shall not extend beyond 31 December 1999. Any such exception must be mutually agreed between the Members directly concerned

---

99 An import quota applied as a safeguard measure in conformity with the relevant provisions of GATT 1994 and this Agreement may, by mutual agreement, be administered by the exporting Member.

100 Examples of similar measures include export moderation, export-price or import-price monitoring systems, export or import surveillance, compulsory import cartels and discretionary export or import licensing schemes, any of which afford protection.

101 The only such exception to which the European Communities is entitled is indicated in the Annex to this Agreement.
and notified to the Committee on Safeguards for its review and acceptance within 90 days of the entry into force of the WTO Agreement. The Annex to this Agreement indicates a measure which has been agreed as falling under this exception.

3. Members shall not encourage or support the adoption or maintenance by public and private enterprises of non-governmental measures equivalent to those referred to in paragraph 1.

**Article 12**

*Notification and Consultation*

1. A Member shall immediately notify the Committee on Safeguards upon:
   
   (a) initiating an investigatory process relating to serious injury or threat thereof and the reasons for it;
   
   (b) making a finding of serious injury or threat thereof caused by increased imports; and
   
   (c) taking a decision to apply or extend a safeguard measure.

2. In making the notifications referred to in paragraphs 1(b) and 1(c), the Member proposing to apply or extend a safeguard measure shall provide the Committee on Safeguards with all pertinent information, which shall include evidence of serious injury or threat thereof caused by increased imports, precise description of the product involved and the proposed measure, proposed date of introduction, expected duration and timetable for progressive liberalization. In the case of an extension of a measure, evidence that the industry concerned is adjusting shall also be provided. The Council for Trade in Goods or the Committee on Safeguards may request such additional information as they may consider necessary from the Member proposing to apply or extend the measure.

3. A Member proposing to apply or extend a safeguard measure shall provide adequate opportunity for prior consultations with those Members having a substantial interest as exporters of the product concerned, with a view to, inter alia, reviewing the information provided under paragraph 2, exchanging views on the measure and reaching an understanding on ways to achieve the objective set out in paragraph 1 of Article 8.

4. A Member shall make a notification to the Committee on Safeguards before taking a provisional safeguard measure referred to in Article 6. Consultations shall be initiated immediately after the measure is taken.

5. The results of the consultations referred to in this Article, as well as the results of mid-term reviews referred to in paragraph 4 of Article 7, any form of compensation referred to in paragraph 1 of Article 8, and proposed suspensions of concessions and other obligations referred to in paragraph 2 of Article 8, shall be notified immediately to the Council for Trade in Goods by the Members concerned.

6. Members shall notify promptly the Committee on Safeguards of their laws, regulations and administrative procedures relating to safeguard measures as well as
any modifications made to them.

7. Members maintaining measures described in Article 10 and paragraph 1 of Article 11 which exist on the date of entry into force of the WTO Agreement shall notify such measures to the Committee on Safeguards not later than 60 days after the date of entry into force of the WTO Agreement.

8. Any Member may notify the Committee on Safeguards of all laws, regulations, administrative procedures and any measures or actions dealt with in this Agreement that have not been notified by other Members that are required by this Agreement to make such notifications.

9. Any Member may notify the Committee on Safeguards of any non-governmental measures referred to in paragraph 3 of Article 11.

11. The provisions on notification in this Agreement shall not require any Member to disclose confidential information the disclosure of which would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interests of particular enterprises, public or private.

(2) Decision of 28 November 1979 (L/4903) on Differential and more Favourable Treatment, Reciprocity and Fuller Participation of Developing Countries

1. Notwithstanding the provisions of Article I of the General Agreement, contracting parties may accord differential and more favourable treatment to developing countries, without according such treatment to other contracting parties.

2. The provisions of paragraph 1 apply to the following:

(a) Preferential tariff treatment accorded by developed contracting parties to products originating in developing countries in accordance with the Generalized System of Preferences.

(b) Differential and more favourable treatment with respect to the provisions of the General Agreement concerning non-tariff measures governed by the provisions of instruments multilaterally negotiated under the auspices of the GATT;

(c) Regional or global arrangements entered into amongst less-developed contracting parties for the mutual reduction or elimination of tariffs and, in accordance with criteria or conditions which may be prescribed by the CONTRACTING PARTIES, for the mutual reduction or elimination of non-tariff measures, on products imported from one another;

102 The words "developing countries" as used in this text are to be understood to refer also to developing territories.

103 It would remain open for the CONTRACTING PARTIES to consider on an ad hoc basis under the GATT provisions for joint action any proposals for differential and more favourable treatment not falling within the scope of this paragraph.

104 As described in the Decision of the CONTRACTING PARTIES of 25 June 1971, relating to the establishment of "generalized, non-reciprocal and non discriminatory preferences beneficial to the developing countries" (BISD 18S/24).
(d) Special treatment on the least developed among the developing countries in the context of any general or specific measures in favour of developing countries.

3. Any differential and more favourable treatment provided under this clause:

   (a) shall be designed to facilitate and promote the trade of developing countries and not to raise barriers to or create undue difficulties for the trade of any other contracting parties;

   (b) shall not constitute an impediment to the reduction or elimination of tariffs and other restrictions to trade on a most-favoured-nation basis;

   (c) shall in the case of such treatment accorded by developed contracting parties to developing countries be designed and, if necessary, modified, to respond positively to the development, financial and trade needs of developing countries.

4. Any contracting party taking action to introduce an arrangement pursuant to paragraphs 1, 2 and 3 above or subsequently taking action to introduce modification or withdrawal of the differential and more favourable treatment so provided shall:

   (a) notify the CONTRACTING PARTIES and furnish them with all the information they may deem appropriate relating to such action;

   (b) afford adequate opportunity for prompt consultations at the request of any interested contracting party with respect to any difficulty or matter that may arise. The CONTRACTING PARTIES shall, if requested to do so by such contracting party, consult with all contracting parties concerned with respect to the matter with a view to reaching solutions satisfactory to all such contracting parties.

(3) All agreements, arrangements, decisions, understandings or other joint action pursuant to the provisions listed as applicable in paragraphs (1) or (2).

105 Nothing in these provisions shall affect the rights of contracting parties under the General Agreement.
